September 18, 2007

Ms. Jeanne Lacombe
Senior Analyst
Canadian Radio-television and
Telecommunications Commission
Ottawa, Ontario K1A 0N2

Dear Ms. Lacombe:

RE: Industry Notification of Local Number Portability in the Exchanges of Saint-Anselme, Saint-Edouard-de-Lotbinière and Val-Alain, Quebec

This is to provide advance notification to the Commission and the industry that Local Number Portability will be activated for commercial service in the Quebec exchanges of Saint-Anselme, Saint-Edouard-de-Lotbinière and Val-Alain as early as October 9, 2007. All three exchanges are in the Local Interconnection Region of St-Henri.

The industry accepted procedure and interval involving first port notification as identified in the Consensus report "Interim Notification Process for Declaring an Exchange Portable" (File #ROCO0410), dated January 7, 1999, will be followed. TELUS notes that Saint-Anselme was scheduled for number portability by November 29, 2007 as part of the phased WNP rollout, but the other two exchanges were not previously scheduled for number portability.

TELUS regrets any inconvenience that this short notice may cause.

Please forward this letter to the appropriate industry distribution lists.

Yours very truly,

[Original signed by]
