The CWB will guarantee producers who sign a No. 4 CWAD EPO for durum that a minimum of 80 per cent of all their production offered under 2007-08 durum delivery contracts will be accepted, up to a maximum of their No. 4 CWAD EPO tonnage. Guaranteed Delivery Contracts (GDCs) offer 100 per cent acceptance, therefore the 80 per cent delivery guarantee does not apply. The No. 4 CWAD EPO for durum is a payment option only, with no delivery terms.

For example, with a delivery guarantee of 80 per cent, a producer expecting to commit 1,000 tonnes of durum to CWB delivery contracts should not assign more than 800 tonnes to a No. 4 CWAD EPO. Producers must maximize the tonnage offered under Series A delivery contract. If CWB contract acceptance for Series A and B combined is greater than the 80 per cent delivery guarantee, or the durum is accepted under a GDC, the producer could use this percentage to apply deliveries against the No. 4 CWAD EPO for durum.

See important information on next page.

Information about the No. 4 CWAD Early Payment Option for durum

Reference grade

The Early Payment Value (EPV) is based on the contract value representing the percentage of the No. 4 CWAD Pool Return Outlook (PRO) for this program.

Definitions

- Early Payment Option (EPO) - A program to provide producers with improved cash flow and a guaranteed payment value.
- Early Payment Value (EPV) - The published contract value representing the percentage of the PRO before the discount.
- Discount - The amount deducted for risk, time value of money and administration costs.

Designating deliveries for payment

Be sure to advise your elevator agent to apply your No. 4 CWAD deliveries against your EPO contract when making settlement for the initial payment.

At the time of delivery, you receive the initial payment (less freight and handling) at the elevator, for the grade of durum you deliver. Your EPO additional payment is issued within 10 business days of the CWB receiving the settlement information from the elevator agent. An incremental payment is added to the CWB payment for deliveries made later in the crop year to reflect the producer's time value of money for this later delivery. You are eligible for adjustment, interim and final CWB payments when those payments exceed your total gross EPO payments (total payments + discount, less incremental payment). This represents the upside potential of your EPO contract if CWB sales returns exceed your EPV.

EPO payment example

On October 1, Joe signs a 200 tonne No. 4 CWAD EPO contract with a 90 per cent EPV. Based on his delivery opportunity at the time, Joe delivers all 200 tonnes of No. 4 CWAD in October, and applies the delivery against his EPO contract with a 90 per cent EPV and a PRO value of \$140.00 per tonne for No. 4 CWAD.

	\$ per tonne	\$ per bushel
EPV (90 per cent of the PRO)	\$126.00	\$3.43
Less discount	- 2.00	-0.05
Net EPV price	<u>\$124.00</u>	<u>\$3.37</u>
Reference grade initial payment (No. 4 CWAD)	<u>-96.00</u>	<u>-2.61</u>
EPO additional payment	28.00	0.76
Initial payment for the grade delivered (No. 4 CWAD)	<u>96.00</u>	<u>2.61</u>
Total payment	\$124.00	\$3.37

Joe is eligible for further CWB pool payments for his No. 4 CWAD once the payments exceed his total gross EPO payment of \$126.00 (\$124.00 + \$2.00 discount).

Note: all values are in store St. Lawrence and Vancouver. Freight and handling from your delivery location must be deducted to arrive at a farmgate value. An incremental payment may be added to the CWB additional payment for deliveries later in the crop year.

Assignment or buyout

If you wish to assign or buy out your No. 4 CWAD EPO contract, contact the CWB at 1-800-275-4292.

1. You can assign the outstanding tonnes of your No. 4 CWAD EPO to another producer who is willing to assume the terms and conditions of the contract. There is a \$15 transaction fee to transfer a contract, which is charged to the assignor (original contract holder). Call the CWB to inquire about transfer opportunities.
2. You can buy out the outstanding tonnes on your No. 4 CWAD EPO. The buyout rate equals the discount per tonne at time of sign-up, less the time value of money, plus an administration fee of \$15 per transaction.
3. You can transfer your No. 4 CWAD EPO to a durum EPO or a No. 5 CWAD EPO contract. This transfer option gives producers flexibility to meet their EPO commitments when their No. 4 CWAD is upgraded to a milling quality (No. 1, No. 2 or No. 3) or downgraded (No. 5 CWAD). You will receive the EPV for durum that was in effect at the time you locked in your EPV for No. 4 CWAD. (The CWB will charge the cost of opportunity to transfer as determined by the current market spread.)

EPO transfer fee formula

{(original discount of the existing EPO - current discount of the existing EPO) + (current discount of the transfer class - original discount of the transfer class)} If negative, then \$0.

Plus applicable roll fee and \$15 per transaction administration fee. Roll fees are \$0.25 per tonne for 80 per cent, \$0.50 per tonne for 90 per cent and \$1.00 per tonne for 100 per cent.

- a. The producer undertakes to deliver the *Net Tonnes* in accordance with the CWB's delivery contract program(s) and this Agreement.
- b. The producer acknowledges that, except to the extent that any provisions may be inconsistent, this Agreement does not alter the producer's obligations under any delivery contract entered into between the producer and the CWB. The producer agrees that this shall be the case regardless of whether such delivery contract is entered into prior to or subsequent to the producer entering into this Agreement or selecting a payment option pursuant to this Agreement. In the event of such an inconsistency, the provisions of this Agreement will prevail.

4. LOCKING IN THE EARLY PAYMENT VALUE AND DISCOUNT

- a. The producer must lock in an *Early Payment Value* and *Discount* for all of the *Net Tonnes* in accordance with the *Pricing Schedule* in effect on the *Sign-up Date*. No partial lock-ins are permitted.

- b. On or before the *Settlement Date*, the producer shall indicate whether any or what portion of the *Durum* to be delivered shall be deemed the *Net Tonnes* and priced under the *EPO*. Such designation shall be made to the CWB's agent at the location where the *Durum* is delivered.

- a. The producer shall be deemed to be in default under this Agreement if the producer fails, for any reason, to deliver all of the *Net Tonnes* in accordance with the CWB's published *Delivery Opportunities* and this Agreement. Any default will require the producer to pay *Pricing Damages*. The producer will be prohibited from entering into any future Producer Payment Option agreements until such time as the *Pricing Damages* pursuant to this Agreement and any applicable liquidated damages are paid.
- b. In the event that the producer is in default as a result of his/her failure to deliver the *Net Tonnes* through the CWB's published *Delivery Opportunities*, the *Pricing Damages* assessed in accordance with this Agreement will be paid in addition to any liquidated damages which may be assessed pursuant to the delivery contract entered into by the producer with the CWB.
- c. The producer and the CWB agree that the *Pricing Damages* are a genuine pre-estimate of the actual damages the CWB will incur as a result of the default by the producer and that such damages do not constitute a penalty.
- d. *Pricing Damages* may be set off by the CWB against any and all amounts that may become payable to the producer by the CWB, and/or against the proceeds of any and all deliveries made by the producer under the producer's delivery permit, or under any and all delivery permits in which the producer has an interest. Any such delivery permit may be so endorsed.

- g. The producer shall fully indemnify the CWB for any and all legal expenses associated with the enforcement of this Agreement.
- h. The exercise by the CWB of any right or remedy provided herein shall not affect any other remedy that the CWB may have for the same default. Nor shall the forbearance of the CWB to exercise any right or remedy be considered a waiver of any right or remedy it may have.
- i. Any deliveries made against this Agreement may be made to the benefit of any producer listed under the producer's permit book. All deliveries are subject to the terms and conditions established for the 2007-08 crop year.
- j. Time shall be of the essence in this Agreement.
