An explanatory note on the changes made must be provided in the notes to the financial statements.</p>

530			<p><b>Net transfers from the General Fund (amounts transferred re: guarantees \$____)</b></p> <p>This line is to be used for transactions where there has been a transfer of funds between a life insurer's Segregated Fund and its general fund.</p> <p>In the space provided for inside the title line, report the amounts transferred in respect of guarantees.</p> <p><b>Federal life insurers:</b> Section 451 of the <i>Insurance Companies Act</i> requires that the issue of contracts where the liabilities pertaining to such policies or contracts are dependent on the market value of a specified group of assets be maintained as assets that are segregated from the other assets of the insurer in separate accounts. However, section 452 provides for transfers from the general fund to create and maintain the Segregated Fund(s). Such transfers are interpreted to be for the purpose of the original "seed money" and if critically needed, for the purpose of funding liquidity of the Segregated Fund(s).</p> <p><b>Quebec life insurers:</b> According to section 280 of <i>An Act Respecting Insurance</i>, every insurer transacting life insurance and contracting liabilities that vary according to the market value of a specified group of assets must maintain these assets in one or more groups which are segregated from its other property; it must use these assets only to meet those liabilities, until they have been fully discharged. Section 281 of <i>An Act Respecting Insurance</i> states that the insurer may, in order to constitute any segregated group of assets pay into it any amount or security derived from its surplus which it has at its disposal.</p>

530 (cont'd)			The transfer of such seed money should be reported as "Other assets" at market value in the balance sheet on page 20.010 of the Annual Return. The change in market value from the prior year should be reported as "Other Revenue" on page 20.030, line 160.

710			<b>Payments to Policyholders</b> Report all payments to policyholders, including dividends and amounts paid on withdrawal / redemption of funds invested in units of the Segregated Funds. Transactions with the General Funds are to be reported on line 530 above.
740			<b>Management and Administration Fees</b> The definition of "management fees" means fees paid to a person(s) or an institution who has the power or responsibility to direct the affairs of the Segregated Funds and whose duties include the management of the investment portfolio of the Segregated Fund(s) and the provision of investment advice in connection therewith. If fees are paid by the Segregated Fund directly to others for services such as investment advice, custodial fees or investment transaction fees, these should be reported in write-in lines 770, 810 providing appropriate line descriptions.  Management fees paid to the General Fund should be recorded as an expense of the Segregated Fund and should not be netted with other transactions with the General Fund. This would provide for an appropriate comparison of income performance. This is especially important for Segregated Funds sold to individual investors.

740 (cont'd)			All management fees and other expenses pertaining to Segregated Funds sold to individual investors regardless of the fact that they were not received directly in the Segregated Funds must be recorded as expenses of the Segregated Fund. This same principle should be accorded to any expenses whether or not they were directed to the general fund.
