

Migratory Birds Hunting Regulations, 2007

Summary

Watch for this loon on blue signs marking National Wildlife Areas and Migratory Bird Sanctuaries.

The information presented here is a summary of the law. For complete information regarding fines, general prohibitions, permitted methods of hunting and equipment, the requirement to have adequate means to retrieve birds immediately, restrictions on the use of bait, description of hunting zones, and other regulations, you may contact:

Fax: 506-364-5062
www.ns.ec.gc.ca/wildlife/index.html

Check your permit and provincial hunting regulations for additional restrictions, such as the 1:00 P.M. closure for Tabusintac and Tracadie lagoons, the requirement to use a dog while hunting woodcock during September, etc.

For conservation purposes, the maximum daily bag of one Barrow's Goldeneye and maximum possession limit of two Barrow's Goldeneye will be instituted in New Brunswick in 2007. The maximum daily bag limit of one bird would not make unintentional shooting illegal; however, it would ensure that legitimate hunters who did shoot one Barrow's Goldeneye would cease hunting for the day, or be aware that they would contravene regulations if they continued hunting and shot additional Barrow's Goldeneye. These regulations have been put in place to provide additional protection to this population, currently listed as a species of special concern in Schedule 1 (List of Wildlife Species at Risk) of the federal *Species at Risk Act*.

Waterfowler Heritage Day provides young hunters under the age of majority with the opportunity to practise hunting and outdoor skills, learn about wildlife conservation, and reinforce safety training in a structured, supervised environment before the season opens for other hunters. Licensed adult hunters who serve as mentors have an opportunity to pass on their considerable skills and knowledge by offering guidance and advice to younger hunters. The following rules are in effect:

- to participate, young hunters under the age of majority do not require the federal Migratory Game Bird Hunting Permit;
- young participants must comply with all existing safety and licensing requirements found in the *Firearms Act* and provincial hunting regulations;
- participants must be accompanied by a licensed mentor over the age of majority; and
- mentors may not hunt or carry a firearm, and may accompany no more than two young hunters.

Non-toxic shot must be used in **all** areas of Canada to hunt migratory game birds, except for woodcock, Band-tailed Pigeons, and Mourning Doves. Within National Wildlife Areas, the possession of lead shot is prohibited for all hunting, including the hunting of migratory birds and upland game birds. Hunters should consult provincial or territorial regulations for additional restrictions.

For those birds still hunted with lead shot, remove the lead shot before cooking whenever possible in order to reduce your exposure to contaminants. As well, remove the skin and fat from fish-eating birds before cooking them.

HELPFUL TIP

Canadians may be exposed to avian-borne viruses when hunting or handling migratory birds and other wild game. Environment Canada recommends the following Website, maintained by the Public Health Agency of Canada, for information about minimizing the risk of exposure:
www.phac-aspc.gc.ca/id-mi/index.html.

CRIME STOPPERS

The Canadian Wildlife Service has joined forces with New Brunswick Crime Stoppers to address offences concerning migratory birds. Anyone wishing to report illegal hunting activities, illegal selling of birds, or other offences related to migratory birds is asked to call Crime Stoppers at 1-800-222-TIPS (8477). Your call is anonymous, and you may be eligible for a cash reward.
