Foreword

The Canadian Institute for Health Information (CIHI) is a national organization mandated to coordinate the development and maintenance of a comprehensive and integrated health information system for Canada. One way it fulfills this role is by forging alliances with leaders in the health and health information fields.

Formed in 1993, CIHI brought together expertise and health information services from the Hospital Medical Records Institute, The MIS Group, and selected components of Health Canada and Statistics Canada. CIHI's mission is based upon collaborative planning with all provincial, territorial and federal governments, as well as all other major partners in national health care services.

The Institute is responsible for providing accurate and timely information necessary to establish sound health policies, manage the Canadian health system effectively, and create public awareness of factors affecting good health.

The *Reciprocal Billing Report, Canada, 1999/2000* is produced by Health Human Resources at CIHI to support health human resource planning and utilization analysis. CIHI wishes to acknowledge the support of the Provincial Health Ministries and the CIHI Expert Group on Physician-Related Databases in the development and publication of this report.

Preface

The *"Reciprocal Billing Report, Canada, 1999/2000"* report was previously produced in 2001 under the title *"Reciprocal Billing Report, Canada, 1998/99"*, in 1999 under the title *"Reciprocal Billing Report, Canada, 1995/96"* and in 1998 under the title *"Reciprocal Billing Report, Canada, 1993/94"* by Health Human Resources at CIHI and in 1990 under the title *"Reciprocal Billing Services 1988/89"* by the Health Information Division at Health Canada. This publication contained figures derived using data from the Medical Care Database (MCDB), the predecessor of the National Physician Database (NPDB). In August 1995, both databases were transferred to the Canadian Institute for Health Information (CIHI).

The MCDB was developed following the implementation of the Medical Care Act in 1967 and was used to monitor the services provided, and payments made, by the provincial medical insurance plans. The NPDB expanded on the MCDB by including information on physician demographic and practice characteristics and the age and gender of patients.

Introduction

The Reciprocal Billing agreement, which became effective April 1 of 1988, allows physicians to bill their own provincial and territorial medical care plans for services provided to residents of other jurisdictions. The physician receives payment from the medical care plan and the medical care plan recovers the payment amount from the medical care plan of the patient's home province or territory.

Through an agreement reached by the Advisory Committee on Institutional and Medical Services (ACIMS), all provinces and territories, with the exception of Quebec, participate in the Reciprocal Billing arrangements. The reciprocal billing data are submitted by the provinces, except Quebec, to the Canadian Institute for Health Information (CIHI) for use in the National Physician Database (NPDB).

The NPDB has been used by the federal and provincial governments, medical stakeholder groups, and various private organizations and researchers as a data source for various indicators of physician resources and service utilization. This information is used by the federal, provincial and territorial government authorities for program administration, evaluation and policy development.

The Reciprocal Billing Report, Canada, 1999/2000 presents two sets of tables, summary and detailed. The summary tables indicate the total number of services provided and received by each province, the total dollar value of these services and cost per service. The detailed tables show utilization for each individual province by home province of the patient and host province of the provider. Both summary and detailed tables show breakdowns by physician specialty and type of service.

Any questions regarding the publication or the NPDB should be directed to:

Methodological Notes

Background

The National Physician Database (NPDB) provides information on the demographic characteristics of physicians and their level of activity within the Canadian Medical Care System and is used by governments, professional associations, consulting firms, pharmaceutical companies, researchers and the media for medical human resource planning and utilization analysis. The establishment of the database was approved in 1987 by the Conference of Deputy Ministers of Health upon the recommendation of the Advisory Committee on Health Human Resources (ACHHR).

On August 1, 1995, the NPDB was moved to the Canadian Institute for Health Information (CIHI). CIHI has assumed the responsibilities of Health Canada in maintaining the database. Previously, the NPDB was under the direction of the Working Group on Medical Care Statistics (WGMCS) which was disbanded when the database was transferred to CIHI. An Expert Group on Physician-Related Databases was convened in April, 1996 and advises CIHI on data quality, methodology and product development matters relating to the NPDB and the Southam Medical Database (SMDB).

The NPDB is a multi-year, multi-phase project. Phase 1, which is operational, contains data on the demographic characteristics and activity levels of fee-for-service physicians. Information on activity levels includes total payments, total services, average payments per physician and a full-time equivalent physician measurement. Phase 2 will add data on clinical activities remunerated under alternative reimbursement plans (such as salaries, contracts and sessional fees), and Phase 3 will contain data on the non-clinical care activities of physicians (such as teaching, research and administration).

The Reciprocal Billing agreement, which became effective April 1 of 1988, allows physicians to bill their own provincial and territorial medical care plans for services provided to residents of other jurisdictions under certain defined circumstances. The physician receives payment from the medical care plan and the medical care plan recovers the payment amount from the medical care plan of the patient's home province or territory.

Through an agreement reached by the Advisory Committee on Institutional and Medical Services (ACIMS), all provinces and territories, with the exception of Quebec, participate in the Reciprocal Billing arrangements. At the November 18 and 19, 1987 meeting, the ACIMS asked the medical care plans of each participating province and territory to submit data to National Health and Welfare on a quarterly basis.

Data Sources and Collection

NPDB Data

Data are derived from physician fee-for-service claims data submitted by the provincial medical insurance programs to CIHI. The claims data and associated demographic data of the physician and patient, are submitted in seven files, three of which are submitted annually and four quarterly. Quarterly files are usually submitted within six months of the end of a quarter and annual files within six months of the end of the fiscal year.

Files submitted include.

Title	Description
05 File	Utilization by Age/Sex of Patient File
25 File	Dental Services and Other Non-physician Services File (file not submitted by all provinces)
30 File	Reciprocal Billing File (Quebec does not submit this file)
35 File	Physician Characteristics File
40 File	Utilization by Fee-Code and UPI File
45 File	Utilization by UPI, Sex and Age Group of Patient File
55 File	Changes to UPI File

Any files that do not meet appropriate layouts, as defined in the NPDB Functional Specifications Manual, are returned to the provinces for correction and subsequent re-submission.

For a complete description of the record layouts of these files, please see the NPDB Functional Specifications Manual, available from the Consultant, Physician Databases, CIHI.

Reciprocal Billing Data

The Reciprocal Billing service counts and dollar amounts are created using data from the Reciprocal Billing File. The Reciprocal Billing File contains data on all services provided to out-of-province/territory patients. It does not include services provided to residents of Quebec or the United States.

Figures are calculated based on the fiscal year (eg. April 1999 through March 2000). Therefore figures in this publication may differ from Provincial "Annual Statistics" which are generated based on calendar year.

For the 1999/2000 fiscal year, there were a total of 32,909 fee-for-service physicians reimbursed for services provided under the reciprocal billing plan. A breakdown by province is provided in Appendix A.

Type of Data: Date of Service vs. Date of Payment

In 1999/2000 reciprocal billing data files were submitted on a date of payment basis for Newfoundland, Prince Edward Island, New Brunswick, Manitoba and Saskatchewan and on a date of service basis for Nova Scotia, Quebec, Ontario, Alberta and British Columbia. Provinces submitting on a date of service basis wait six months or until 98 percent of services are captured before submitting data files for processing.

Type of Data: Billing vs. Payment Data

All provinces, except B.C., submit payment data. Billing data reflect the full amount the physician billed the provincial Medical Services Plan for a particular fee code item. Payment data reflect what was actually paid to the physician. The amount paid would be the billed amount less any adjustments applied due to threshold values being met, income capping, geographic incentives or clawbacks. For British Columbia, payments do not include adjustments for threshold values being met, income capping or clawbacks. They do, however, include adjustments of payments for geographic incentives, specifically payments for Northern and Isolation Allowances (NIA). In 1999/2000, British Columbia paid approximately \$204,635 in NIA for reciprocal medical claims. In Ontario payment data include only Social Contract adjustments, all other adjustments are excluded.

Payment Mode: Level of Fee-for-Service Coverage

The Reciprocal Billing data are based on physician billings/payments for fee-for-service physicians only. The extent to which different forms of non fee-for-service payments are used by provinces to remunerate physicians has changed over the past few years. Many alternative forms of payment such as salaried and sessional have become more common. Comprehensive information on alternative forms of reimbursement are currently not submitted to NPDB and are not included in the statistics presented in this report. Table 1 shows the total number of physicians by province and payment mode.

Table 1. Payment Mode: Total Physicians and Percent by Payment Mode¹

Prov	Year	Total Physicians	Percent by Payment Mode			
			FFS Only	Salary Only	Sessional Only	Combination ²
Nfld.	1999/2000	948	70	30	N/A	N/A
P.E.I.	1999/2000	197	62	4	4	30
N.S. ³	1999/2000	1,838	52.8	1.4	0.1	45.7
N.B.	1999/2000	1,350	51.2	4.5	1.0	43.3

Sask.	1999/2000	1,533	81.6	N/A	N/A	18.4
Alta. ⁶	1999/2000	4,636	98	N/A	1	1
B.C.	1999/2000	7,742	78.7	0.6	1.4	19.2

Notes

N/A = Not applicable.

1. Some physicians are primarily on one form of alternative reimbursement, but in special cases can bill fee-for-service. For example, In Ontario, physicians under alternative reimbursement plans can bill fee-for-service when treating out-of-province patients and can bill fee-for-service when providing services to in-province patient when the services they are providing are outside the scope of their alternative payment agreement and the services are insured services. In Prince Edward Island, pediatricians on salary can bill fee-for-service when they are on call or if there is a special request from the family for the physician to see their child.
2. Physicians under combination payment mode include physicians who are paid fee-for-service, salary and sessional or any combination there of. May also include some other modes of payments such as capitation.
3. Nova Scotia counts for 1999/00 include 38 physicians receiving radiology/internal medicine/pathology payments only and 62 physicians receiving psychiatric payments only.
4. Payment mode distributions for Quebec are based on the distribution of payments.
5. Figures for Ontario reflect the number of physicians who are eligible to bill on a fee-for-service basis. These counts will differ from those in Appendix A, which reflects physicians who have received payments in each fiscal year. Please contact the Consultant, NPDB for further information.
6. Figures provided are estimates.

Data Quality

Error/Validation Routines

The NPDB files are derived from provincial administrative systems and edit checks are done on the data by the province prior to processing the NPDB files. As CIHI has no control over provincial edit checks, all data files received by CIHI are processed through the NPDB error/validation routines. The error/validation routines are limited in scope because the data cannot be confirmed against the source. Error/validation routines include review of the total record counts, service counts and dollar amounts for each file, checking each value in the fields against accepted responses, checking for invalid fee codes, checking for Unique Physician Identifier (UPI) numbers in illogical formats and logical review of the processed data. For a complete description of the error/validation routines, please see Chapter 5 of the NPDB Functional Specifications Manual, available from the Consultant, Physician Databases, CIHI. Any files that do not pass through the error/validation routines are returned to the provinces for correction and subsequent re-submission.

Additional Data Quality Checks

Service counts, dollar amounts and other economic indicators are validated against previous years data and provincial annual reports. Each province is given the opportunity to review their own data for validity and consistency. This publication was reviewed by the provincial medical insurance plan authorization officers prior to publication. For a complete list of the provincial authorization officers, please see Appendix B.

Data Definitions

Home Province

Home province refers to the province where the patient resides and is registered with the provincial medical care plan.

Host Province

Host province refers to the province where the physician resides and practises.

Specialty

Physician specialty designations on the NPDB are assigned by the provincial medical care plans and grouped within the NPDB to a national equivalent. Of the two specialties, latest acquired certified specialty and plan payment specialty, the later is used for the purposes of this report.

In two provinces, Nova Scotia and British Columbia, data for Public Health Specialists are reported in the General Practice figures. For all provinces, Community Medicine and Family Medicine are also grouped with General Practice, except in Ontario where Community Medicine, Public Health, Occupational Medicine and Pediatric Cardiology are received as Internal Medicine Specialties. Internal Medicine includes the sub-specialties such as Cardiology, Gastroenterology, Haematology, Rheumatology and Medical Oncology. Psychiatry includes Neuropsychiatry. Neurology includes EEG specialists, and Physical Medicine includes specialists in Electromyography. Specialists in the double specialty of Ophthalmology/Otolaryngology are included with the Ophthalmologists.

For a complete listing of the specialty designations and their groupings please see Appendix C.

Strata

Fee payments by medical care insurance plans to physicians are made in accordance with payment schedules (also known as benefit schedules) in which the amounts payable for particular services are specified. Payment schedules do not only differ from province to province with respect to the level of fees, but also with respect to internal organization by type of service, by body system, by specialty, then extent of composite fees (i.e., the fees for certain procedural or diagnostic services may include the fee for associated visits or examinations, or the fees for examinations may include the fee for minor procedural or diagnostic services), general terminology, the definition of certain services, coding systems used, etc. In addition, there are substantial interprovincial differences in "assessment rules", i.e., regulations and conventions which govern the application of the payment schedule in particular situations.

Once the data have gone through the various edit and validation checks, they are assigned to one of 120 categories of service and undergo adjustments allowing for interprovincial comparison. See Appendix D for a complete listing of the categories. These 120 categories are grouped into 18 different strata, 16 of which are listed below.

Consultations

Major, initial, ordinary, minor, repeat, regional and operative consultations performed in the office, hospital, chronic care and convalescent hospitals and nursing homes, as well as psychiatric and obstetrical consultations where no *Special Call* is involved.

Major Assessments

General and specific assessments, reassessments, initial visits with a complete exam, new condition seen for first time and including complete history and exam, complete specific exam depending upon the physician specialty, annual exams, newborn/premature care and special eye exams performed in any location where no *Special Call* is involved.

Other Assessments

Partial or minor assessments, regional exams, first or subsequent or repeat exams, ordinary, pre- and post-natal care, well baby care in any location, chronic and convalescent care, outpatient visits and other visits when physician is in the hospital, intermediate and minor assessments, partial assessments, follow-up exams and regional exams, additional patients seen during a special call and detention.

Hospital Care Days

Regular visits up to 28/30/31 or 35/42 days, over 28/30/31 or 35/42 days, inpatient supportive care, continuing care, concurrent care, directive care, convalescent care, palliative care and daily management.

Special Calls

Visits at night, on Saturdays, Sundays and holidays, requiring travel, to the office, homes, nursing homes, outpatient and emergency departments. Also including special visits, consultations, specific assessments and reassessments, general reassessments, ordinary home visits, home summary and specific exams.

Psychotherapy/Counselling

Individual psychotherapy, hypnotherapy, narco-analysis, diagnostic/therapeutic interviews, group and family psychotherapy and interviews, and interviews for physical medicine and counselling for drugs, family, genetic, marriage and contraception, and case conferences on behalf of patients with allied workers, teachers, clergy, etc.

Major Surgery

Services were classified as major or minor surgery in 1988 based on a threshold fee of at least \$75 in the Ontario fee schedule that year. In subsequent years, new surgical procedures have been classified as major or minor depending on their classifications in provincial fee schedules.

Minor Surgery

See major surgery definition above.

Surgical Assistance

All services and payments for surgical assistance.

Anaesthesia

Includes Anaesthesia fees for major surgery, minor surgery and diagnostic and therapeutic procedures.

Obstetrical Services

Include normal and caesarean deliveries, therapeutic abortions and services to the mother in the hospital at the time of delivery (e.g. induction of labour and repair of lacerations).

Other Diagnostic/Therapeutic Services

Includes procedures of a diagnostic nature, such as allergy testing and EKG. Also included are services such as colonoscopy, which are used for treatment as well as diagnosis.

Special Services

Includes services that do not fit into the other strata, such as immunizations and Pap tests.

Miscellaneous Services

Includes all services that are unidentified or are identified but paid for by Social Services, the Attorney General, Workers' Compensation, etc. Examples include services relative to impaired driving, to rape victims and as a result of injuries sustained at work.

Unique Physician Identifier (UPI)

Unique identifier created by the province using components of the physician's first and last names (scrambled using an algorithm), the physician's date of birth, sex and place of graduation.

Computations and Adjustments

General Table Characteristics

The Table 1 series of tables provides a summary of the reciprocal billing activities in various jurisdictions. Services received by residents of each jurisdiction and services provided by physicians of each jurisdiction are listed in terms of the number of services, the total dollar value and the cost per service of these services. Subsequent more detailed tables, the Table 2 and beyond series, show the utilization for each individual jurisdiction by home province of patient and host province of provider. Both summary and detailed tables show breakdowns by physician specialty, referred to as "Type of Practice" throughout the tables, and by type of service.

The reciprocal billing data files are received with the service data aggregated at the fee code and physician level. In order to standardize the fee code data across the provinces the National Grouping System (NGS) is used to allocate fee codes to various procedure based groups which are called categories. The categories are then aggregated at the strata level. Service data are reported at the strata level for the purposes of this report. The NGS also adjusts service counts for certain types of services to provide more uniform, interprovincially comparable data. The following outline the adjustments that are made to meet specific criteria.

Adjustment A

To minimize the double counting of services, an Adjustment A is attached to the fee service code and the service count is not included. For example, when two or more surgical procedures are performed at the same time and an additional fee is paid under a separate fee service code,

Example

FSC 1 Pyloroplasty

FSC 2 with suture of bleeding peptic ulcer, add.

The service count and payments for FSC 1 are included, but only the payments for FSC 2 are retained.

Adjustment B

Fees are calculated to provide more comparable service counts for psychotherapy, detention, inhalation and physiotherapy, hospital per diem visits, resuscitation, intensive care services, pre- and post-natal care, stand-by fees and diagnostic/therapeutic tests. The revised service count is calculated by dividing the total payment for the fee service code by the calculated fee for the standardized service.

The following are the criteria used for B adjustments.

- Psychotherapy—It is assumed that the average duration for all psychotherapy services is thirty minutes and that group therapy sessions comprise four persons.
- Allergy Tests—The total price for the number of tests equivalent to the fee for an office visit is used to calculate the service count. This is most often used for patch and hypersensitivity tests.
- Detention—The duration of one detention service is one quarter of an hour. Service counts are adjusted when a fee for one half hour or one hour is indicated. A fee would be calculated based on one fifteen minute period.
- Intensive Care—The duration of one intensive care service is assumed to be one hour. When an intensive care unit fee is paid on a per diem basis, the visits are considered equivalent to one hour.
- Monthly rates are adjusted to daily rates assuming twenty working days per month.

Adjustment C

This adjustment is used when a fee code is redefined during a year and each definition's applicable to a different category or, for instance, when laboratory surcharges are applicable to different procedures. By applying this adjustment, the services and payments for a specific fee service code are divided between two categories.

Adjustment D

This is the same as Adjustment B except the service counts are revised on the basis of whether they were performed by a General Practitioner or Specialist, with a different fee for each.

Example

Resuscitation

General Practitioner	\$14.00 - ¼ hour
Specialist	\$18.00 - ¼ hour

Calculated Fees

General Practitioner	\$56.00 - per hour
Specialist	\$72.00 - per hour

Adjustment E

In many provinces, physicians are entitled to premiums or additional fees which are paid on visits or procedures provided outside regular office hours or during off-hours, evenings, nights, Saturdays, Sundays and statutory holidays or if the visit or procedure is provided on an emergency basis. To eliminate the double counting, services for these premium codes are dropped and the payments are reassigned to the appropriate visit or surgical category.

Example

FSC 1 Surcharge for a consultation

The service count for FSC 1 is subtracted from Category 1, Consultations. Payments removed from Category 1 are calculated by multiplying the service count of FSC 1 by the fee for a consultation. Category 20, Out of Hours/Emergency, contains the services and payments for FSC 1 plus the payments removed from Category 1.

Adjustment F

Payment for obstetrical care may be made on the basis of all-inclusive fees (comprising the remuneration for the delivery or caesarean section and for all pre- and post-natal care) or by fees for the delivery or caesarean section only and separate fees for associated pre- and post-natal services. Over the last few years, provinces have increasingly, but not exclusively, adopted the latter approach.

To minimize the effect of these changes upon the interprovincial and intertemporal comparability of the data, all-inclusive fees are broken down in accordance with the following assumptions, and the estimated number and cost of segregated visit services are included in the categories shown in brackets.

Pre-natal care includes one complete examination (Category 3 or 8) and eight subsequent visits to the office (Category 10 or 14), followed by one hospital post-partum visit (Category 11) and one post-natal office visit (Category 10 or 14). Note, if a consultation was specified in the composite fee description, then a consultation (Category 1) replaces the complete examination.

Service counts for all but subsequent office visits are the same as the count for the composite fee code. Service counts for subsequent office visits are calculated by multiplying the composite fee code count by nine (i.e. the assumed number of pre- and post-natal office visits). Payments for all but pre-natal subsequent office visits are calculated using the fees listed in the payment schedules. Payments for pre-natal subsequent office visits consist of the total payment for the composite fee items minus the amounts calculated as described above.

Note: If only the consultation and procedure are specified, then the payments for the consultation become the residual.

Province-Specific Adjustments

There are also several adjustments made, for various reasons, to the data which do not apply consistently to each province. For example, premium fees for off-hour visits and procedures are claimed in several of the provinces. To maintain consistency, the dollar amounts for such premiums are included, but the service counts are dropped, to eliminate the double counting of services. Where Radiology and Laboratory services are billed, only the Professional component and/or Total Component are counted, again to eliminate the double counting of services.

Data Limitations

Data Exclusions

Medical services provided by salaried physicians and those charging sessional fees are not included in this report.

Medical services covered by third parties, such as hospital insurance and workers' compensation plans, are not included in this report. The data also exclude certain categories of persons, among them members of the Armed Forces and of the Royal Canadian Mounted Police and inmates of federal penitentiaries who are covered under other public programs (these persons account for less than half of one percent of the total population).

Certain payments made directly by patients are also omitted; for example, amounts extra-billed or balance-billed by physicians and the costs of plastic surgery for cosmetic purposes.

Because of differences in coverage across the country, a common list of exclusions has been established. Such procedures are not eligible for reimbursement under reciprocal billing. For a complete list of ineligible procedures, please see Appendix E.

De-insured and De-listed Services

Certain services within each province have been de-insured or de-listed. These services may differ from province to province or from year to year. The impact of these services could explain minor fluctuations over years or minor differences between provinces. For further information on de-insured and de-listed services please contact the Manager, Health Human Resources, CIHI.

De-insured Services

Services which, at some point in time, were defined as an insured service (i.e., covered by a provincial/territorial health plan), but are no longer covered. For example, circumcision for newborns used to be insured in almost all provinces/territories but is now not covered by most provincial/territorial medical insurance plans.

De-listed Services

Services which used to have an individual fee-code assigned to them and have been subsequently included in another fee code. For example, removal of warts used to have a separate fee code in many provinces, but has now been included in the compensation for a regular office visit.

Specialty Designations

Provinces are requested to provide two types of specialty information on the NPDB files- latest acquired certified specialty and payment plan specialty. The latest acquired certified specialty is the most recently acquired specialty designation from the Royal College of Physicians and Surgeons of Canada or the Collège des médecins du Québec. The payment plan specialty may or may not be different from the latest certified specialty and should reflect the specialty area in which the physician provides the majority of their services. The payment plan specialty is not provided by all provinces.

For the purposes of this report the payment plan specialty is used. Provinces may provide latest certified specialty instead of plan payment specialty if they do not have the plan payment specialty information available. The latest certified specialty may or may not coincide with specialty orientation of the work actually carried out by a physician.

Additionally, any physician who practised under more than one specialty during the fiscal year was assigned the specialty under which he/she received the majority of his/her payments.

CIHI National Grouping Category statistics may vary from provincial statistics because of differences in the way specialties are grouped. For example, CIHI groups Neuropsychiatry in with Psychiatry whereas Quebec groups it with Neurology. CIHI includes Electromyography with Physical Medecine whereas Quebec does not. The subspecialties which consititute CIHI's Internal Medicine Specialty are reported individually in Quebec reports. Please see Appendix C for CIHI specialty groupings.

Privacy and Confidentiality

There are three safeguards utilized by CIHI to protect the privacy and confidentiality of the physician data.

Unique Physician Identifier (UPI)

Physician names are not used on the provincial files. Instead a Unique Physician Identifier (UPI) is generated by the province using components of the physician's name, date of birth, gender and place of graduation. The name portion of the UPI is scrambled using an algorithm known only to the provinces. The UPI helps protect the privacy and confidentiality of the physician and also allows for the tracking of the physician throughout their career in Canada.

NPDB Data Access/Release Policy

The release of data from the NPDB is governed by the NPDB Data Access/Release Policy which was established by the provincial/territorial ministries of health and is administered by CIHI. Depending on the type of client, the level of data aggregation, the province of and indicator of interest, CIHI may not be able to release data to the client without prior approval from the province(s)/territory(ies). This policy is in place to help protect the privacy and confidentiality of the physicians. Additionally, any cell counts of less than five are suppressed and aggregated to the next level.

CIHI Privacy and Confidentiality Policy

The release of any data from NPDB, whether as a regular product or as a custom request, is governed by the CIHI Privacy and Confidentiality Policy. CIHI's pledge is to "at all times respect personal privacy and safeguard individual record confidentiality and system security". There are eight principles (accountability, limiting collection, limiting use, limiting disclosure, consent, integrity, security and openness) which govern the policy and are applied in conjunction with more detailed policies on data integrity and systems security, data linkage, institutional-level confidentiality, microdata disclosure, surveys and personal privacy. For a complete description of the CIHI Privacy and Confidentiality Policy please contact the Manager, Health Human Resources, CIHI.

Products and Services

There are three types of products that are generated from the NPDB – ad hoc requests, publications and special projects. Ad hoc requests are generally short queries that do not require major programming resources. Services counts and dollars amounts by specific fee codes or procedures are the most common form of ad hoc request. Most ad hoc requests can be handled through standard reports that are generated annually. Publications currently available include:

- Average Payment per Physician Report, Canada, 1989/90 to 1993/94;
- Average Payment per Physician Report, Canada, 1993/94 to 1995/96;
- Average Payment per Physician Report, Canada, 1996/97 to 1998/99;
- Average Payment per Physician Report, Canada, 1998/99 to 1999/2000;
- Full-Time Equivalent Physicians Report, Canada, 1989/90 to 1993/94;
- Full-Time Equivalent Physicians Report, Canada, 1993/94 to 1995/96;
- Full-Time Equivalent Physicians Report, Canada, 1996/97 to 1998/99;
- Full-Time Equivalent Physicians Report, Canada, 1998/99 to 1999/2000;
- National Grouping System Report, Canada, 1989/90 to 1993/94;
- National Grouping System Report, Canada, 1994/95 and 1995/96;
- National Grouping System Report, Canada, 1996/97 and 1998/99;
- National Grouping System Report, Canada, 1998/99 and 1999/2000;
- Physician Services Benefit Rates, Canada, 1993/94;
- Physician Services Benefit Rates, Canada, 1995/96;
- Physician Services Benefit Rates, Canada, 1998/99;
- Reciprocal Billing Report, Canada, 1993/94;
- Reciprocal Billing Report, Canada, 1995/96;
- Reciprocal Billing Report, Canada, 1998/99;
- Rapport sur les catégories du système de groupement national, Canada, 1989-1990 à 1993-1994;
- Rapport sur les paiements moyens par médecin, Canada, 1989-1990 à 1993-1994; and
- Médecins équivalents à temps plein, Canada, 1989-1990 à 1993-1994;
- Rapport sur les tarifs d'honoraires des médecins, Canada, 1998-1999.

Special projects require project planning and the commitment of extra resources. Please contact Health Human Resources at CIHI for costs associated with these products and services.

Source: NPDB, CIHI

* Services Provided are nine province totals, the Yukon, Northwest Territories, and Quebec did not submit data to CIHI.

n/a = Not Applicable - There were no physician services or payments reported for this province.

[^] Preliminary. Ontario will re-submit its 1999/00 data to reflect fiscal period data as well as to exclude medical laboratory directors.

* Canada totals are nine province totals, the Yukon, Northwest Territories and Quebec did not submit data to CIHI.

** Ontario and British Columbia anaesthesia services are primarily in units.

^ Preliminary. Ontario will re-submit its 1999/00 data to reflect fiscal period data as well as to exclude medical laboratory directors.

* Canada totals are nine province totals, the Yukon, Northwest Territories and Quebec did not submit data to CIHI.

** Ontario and British Columbia anaesthesia services are primarily in units.

^ Preliminary. Ontario will re-submit its 1999/00 data to reflect fiscal period data as well as to exclude medical laboratory directors.

* Canada totals are nine province totals, the Yukon, Northwest Territories and Quebec did not submit data to CIHI.

** Ontario and British Columbia anaesthesia services are primarily in units.

n/a = Not Applicable - There were no physician services or payments reported for this type of practice for this province.

^ Preliminary. Ontario will re-submit its 1999/00 data to reflect fiscal period data as well as to exclude medical laboratory directors.

* Canada totals are nine province totals, the Yukon, Northwest Territories and Quebec did not submit data to CIHI.

** Ontario and British Columbia anaesthesia services are primarily in units.

n/a = Not Applicable - There were no physician services or payments reported for this type of service for this province.

[^] Preliminary. Ontario will re-submit its 1999/00 data to reflect fiscal period data as well as to exclude medical laboratory directors.

* Canada totals are nine province totals, the Yukon, Northwest Territories and Quebec did not submit data to CIHI.

** Ontario and British Columbia anaesthesia services are primarily in units.

n/a = Not Applicable - There were no physician services or payments reported for this type of service for this province.

^ Preliminary. Ontario will re-submit its 1999/00 data to reflect fiscal period data as well as to exclude medical laboratory directors.

* Canada totals are nine province totals, the Yukon, Northwest Territories and Quebec did not submit data to CIHI.

** Ontario and British Columbia anaesthesia services are primarily in units.

n/a = Not Applicable - There were no physician services or payments reported for this type of practice for this province.

[^] Preliminary. Ontario will re-submit its 1999/00 data to reflect fiscal period data as well as to exclude medical laboratory directors.

* Canada totals are nine province totals, the Yukon, Northwest Territories and Quebec did not submit data to CIHI.

** Ontario and British Columbia anaesthesia services are primarily in units.

n/a = Not Applicable - There were no physician services or payments reported for this type of service for this province.

^ Preliminary. Ontario will re-submit its 1999/00 data to reflect fiscal period data as well as to exclude medical laboratory directors.

Source: NPDB, CIHI

* Canada totals are nine province totals, the Yukon, Northwest Territories and Quebec did not submit data to CIHI.

** Ontario and British Columbia anaesthesia services are primarily in units.

n/a = Not Applicable - There were no physician services or payments reported for this type of service for this province.

[^] Preliminary. Ontario will re-submit its 1999/00 data to reflect fiscal period data as well as to exclude medical laboratory directors.

Appendix A
Fee-for-Service Physician Counts

Table A-1. Fee-for-Service Physician Counts for Physicians Billing

for Reciprocal Billing Services at Least Once in the Fiscal Year, Canada and the Provinces, 1999/2000

Host Province of Provider	
Newfoundland	772
Prince Edward Island	196
Nova Scotia	1,392
New Brunswick	1,004
Quebec	0
Ontario	15,422
Manitoba	1,607
Saskatchewan	1,366
Alberta	4,372
British Columbia	6,778
Yukon	0
Northwest Territories	0
Nunavut	0
Total*	32,909

* Total for nine provinces, the Yukon, Northwest Territories, Nunavut, and Quebec did not submit 1999/2000 data to CIHI.

Appendix B
NPDB Provincial Authorization Officers

List of Officers to Contact to Obtain Authorization to Release Province/Territory Specific Medical Care Data

NEWFOUNDLAND

Dr. Ed Hunt
Medical Consultant
Medical Services Division
Department of Health & Community Services
300 Prince Phillip Drive
3rd Floor, West Block Federation Building
P. O. Box 8700
St. John's, NF A1B 4J6
Phone: (709) 729-3157
Fax: (709) 729-5238

PRINCE EDWARD ISLAND

Mrs. Johanne Irwin
Physician Services Manager
PEI Health & Social Services
16 Garfield St.
P.O. Box 2000
Chalottetown, Prince Edward Island
C1A 7N8
Phone: (902) 368-6736
Fax: (902) 368-6136

NOVA SCOTIA

Sarah Kramer
Chief Information Officer
Department of Health
P.O. Box 488
Joseph Howe Building
1690 Hollis Street, 5th Floor
Halifax, Nova Scotia
B3J 2R8
Phone: (902) 424-4838
Fax: (902) 424-0763

NEW BRUNSWICK

Mr. Antoine Abugaber
Director
Medicare/Prescription Drug Program
Dept. of Health & Wellness
P.O. Box 5100
Carleton Place, 520 King Street
Fredericton, New Brunswick
E3B 5G8
Phone: (506) 453-8266
Fax: (506) 444-6706

QUÉBEC

M. Jacques Barry
Chef
Service des statistiques
Régie du l'assurance-maladie du Québec
1125 Chemin St.-Louis
Sillery, Québec
G1S 1E7
Phone: (418) 682-5163
Fax: (418) 643-7381

ONTARIO

Ms. Susan Fitzpatrick
Manager
Information and Project Management
Provider Services Branch
Ministry of Health
2nd Floor, MacDonald Cartier Building
49 Place d'Armes, P.O. Box 48 Kingston,
Ontario

Note:

Although Genetics is no longer a sub-specialty of Internal Medicine it is included in the Internal Medicine category because the number of physicians records assigned this specialty are relatively small.

Appendix D
NPDB National Grouping System
Categories and Strata

NPDB National Grouping System Categories and Strata

1. Consultations

Major, initial, ordinary, minor, repeat, regional and operative consultations performed in the office, hospital, chronic care and convalescent hospitals and nursing homes, as well as psychiatric and obstetrical consultations where no *Special Call* is involved.

- Major Consultations
- Other Consultations

2. Major Assessments

General and specific assessments, reassessments, initial visits with a complete exam, new condition seen for first time and including complete history and exam, complete specific exam depending upon the physician specialty, annual exams, newborn/premature care and special eye exams performed in any location where no *Special Call* is involved.

- Office
- Hospital Inpatient: Newborn
- Hospital Inpatient: Other
- Hospital Outpatient
- Hospital Unspecified
- Unspecified
- Special Eye

3. Other Assessments

Partial or minor assessments, regional exams, first or subsequent or repeat exams, ordinary, pre- and post-natal care, well baby care in any location, chronic and convalescent care, outpatient visits and other visits when physician is in the hospital, intermediate and minor assessments, partial assessments, follow-up exams and regional exams, additional patients seen during a special call and detention.

- Office
- Hospital Inpatient
- Hospital Outpatient
- Hospital Unspecified
- Unspecified Location
- Special Calls - Add
- Detention

4. Hospital Care Days

Regular visits up to 28/30/31 or 35/42 days, over 28/30/31 or 35/42 days, inpatient supportive care, continuing care, concurrent care, directive care, convalescent care, palliative care and daily management.

Up to 28/30/31/35/42 Days
Over 28/30/31/35/42 Days
Other

5. Special Calls

Visits at night, on Saturdays, Sundays and holidays, requiring travel, to the office, homes, nursing homes, outpatient and emergency departments. Also including special visits, consultations, specific assessments and reassessments, general reassessments, ordinary home visits, home summary and specific exams.

Out-of-Hours/Emergency
Other Regular Hours

6. Psychotherapy/Counselling

Individual psychotherapy, hypnotherapy, narco-analysis, diagnostic/therapeutic interviews, group and family psychotherapy and interviews, and interviews for physical medicine and counselling for drugs, family, genetic, marriage and contraception, and case conferences on behalf of patients with allied workers, teachers, clergy, etc.

Individual Psychiatry
Group/Family Psychiatry
Counselling

7. Major Surgery

Based on the 1988 Ontario Schedule of Benefits, these procedures have a fee of more than \$75.

Mastectomy

Simple, radical or modified radical; unilateral or bilateral; female or male.

Breast Tumor Excision/Biopsy

Tumour or tissue for biopsy and/or treatment; partial mastectomy or wedge resection.

Other Integumentary System

All other major surgery procedures performed on the integumentary system not listed above, e.g. excisions, lesions, tumours, cysts, burn and skin grafts, pedicle and free island flaps, plastic planing, plastic surgery procedures, breast reconstruction, mammoplasties, surgical debridement.

Fractures

Bone and joint fractures.

Disc Surgery

Procedures for disc removal and fusion.

Arthroplasty - Hip

Total hip replacement, unipolar and bipolar arthroplasty and revisions.

Arthroplasty - Knee

Knee arthroplasty and revisions.

Other Musculo-Skeletal System

Including all other major surgery performed on the musculo-skeletal system not listed above, including bone grafts, arthrodesis, amputation, arthrotomy, bone, joint, muscle and tendon excision, reconstruction, orbito-cranial surgery, instrumentation and dislocations.

Sub-mucous Resection

Septoplasty and resection.

Rhinoplasty

Correction of nasal deformity.

Other Respiratory System

All other major surgery performed on the respiratory system not listed above, including excisions and repairs.

Coronary Artery Bypass

Coronary artery repair single, double, triple or more.

Coronary Angioplasty

Percutaneous transluminal coronary angioplasty.

Insertion of Pacemaker

Insertion or permanent endocardial electrode and implantation of pack, replacement and repair.

Other Heart/Pericardium

All other major surgery procedures performed on the heart and pericardium system not listed above.

Varicose Veins

Ligation and stripping of varicose veins but excluding injection of varicose veins.

Carotid Endarterectomy

Endarterectomy, body tumour and bypass graft of the carotid artery.

Other Cardiovascular

All other major surgery performed on the cardiovascular system not listed above.

Appendectomy

Excision of the appendix.

Laparotomy

Any laparotomy performed as a surgical procedure.

Cholecystectomy

All cholecystectomies and any additional payments made for other procedures performed at the same time e.g., choledochotomy, sphincterotomy, vagotomy.

Tonsillectomy

Both adult and child tonsillectomies and payments for adenoidectomies performed at the same time.

Inguinal/Femoral Hernia

Inguinal and / or femoral hernias performed on infants, children, adolescents and adults.

Colectomy

Total and hemi-colectomies and payments for other procedures performed at the same time.

Haemorrhoidectomy

The surgical procedure only. Haemorrhoidectomies by cryotherapy or banding are excluded.

Other Digestive

All other major surgery performed on the digestive system not listed above.

Prostatectomy

All forms of prostate surgery e.g., perineal, suprapubic, retropubic, transpubic and transurethral resection.

Vasectomy

Unilateral or bilateral ligation.

Other Urinary/Male

All other major surgery performed on the male genital and urinary systems.

Prolapse

All forms of prolapse repair surgery.

Hysterectomy

Total, subtotal, abdominal or vaginal or radical hysterectomies.

Sterilization

Tubal occlusion/interruption/removal by any method or approach.

Other Female

All other major surgery performed on the female genital system not listed above.

Cataract Surgery

All forms of cataract surgery, dislocated lens extraction and insertion of intra ocular lens when paid in addition to the above.

Light Coagulation

Photocoagulation and cryoplexy.

Tympanoplasty

Tympanoplasty, myringoplasty, mastotympanoplasty and payments for other procedures performed at the same time.

Other Eye/Ear

All other major surgery performed on the organs of special senses not listed above.

Other Major Surgery

All other major surgery not listed above e.g., operations on the nervous system, on the haemic and lymphatic systems and on the endocrine system.

8. Minor Surgery**Incision, Abscess, etc.**

Incision of abscesses or haematomas under local or general anaesthesia.

Removal of Foreign Body

Foreign body removal under local or general anaesthesia.

Excision Tumour, etc.

Excision of verruca, papilloma, keratosis, pyogenic granuloma, moles, etc.

Suture Wound

Repair, debridement and dressing.

Excision of Nail

Excision and/or destruction of finger or toe-nail.

Chalazion

Single or multiple under local or general anaesthesia.

Myringotomy

Unilateral myringotomy with insertion of ventilation tubes.

Minor Fractures

Fractures with a fee less than \$75.

Other Minor Surgery

All other minor surgery not listed above.

9. Surgical Assistance

All services and payments for surgical assistance.

10. Anaesthesia**Nerve Blocks**

All forms of nerve blocks.

Other Anaesthesia

All services and payments for anaesthesia, excluding nerve blocks.

11. Obstetrical Services**Services at Time of Delivery**

Attendance at delivery or caesarean section, repair of third degree/vaginal/cervical laceration, removal of retained placenta, scalp sampling, foetal monitoring and induction of labour.

Delivery (excluding Caesarean Sections)

Delivery and multiple births, and excluding Caesarean sections.

Caesarean Section

The procedure only.

Therapeutic Abortions

Therapeutic abortions only.

Other Obstetrical Services

Foetoscopy, stress test, hypertension, foetal transfusion, toxemia of pregnancy, oxytocin challenge test, abortions (missed, threatened, without D & C, incomplete, menstrual extraction and spontaneous), amniocentesis, ectopic pregnancy, suture for incomplete cervix during pregnancy, uterine inversion and emergency removal of sutures.

12. Other Diagnostic/Therapeutic Services

I.C./Resuscitation

Intensive care and resuscitation services.

Allergy/Hyposensitization

Tests for allergies and hyposensitization.

Injection/Aspiration of Joint

Injection and/or aspiration of joints.

Electrocardiogram

Services and payments for the professional component of electrocardiograms and the payments for the technical component.

Oesophagoscopy/Gastroscopy

Services and payments for both these endoscopies as well as payments for procedures performed at the same time as the endoscopy.

Laryngoscopy/Bronchoscopy

Services and payments for both these endoscopies as well as payments for procedures performed at the same time as the endoscopy.

Colonoscopy

Services and payments for these endoscopies as well as payments for procedures performed at the same time as the endoscopy.

Cystoscopy

Services and payments for these endoscopies as well as payments for procedures performed at the same time as the cystoscopy.

Sigmoidoscopy

Services and payments for these endoscopies as well as payments for procedures performed at the same time as the sigmoidoscopy.

Other Endoscopy

All other endoscopies not listed above.

Coronary Angiography

Coronary angiography only.

Procedures Associated with Radiology

Therapeutic radiology and radioisotopes.

Dilatation & Curettage

D&C and payments for procedures performed at the same time.

Electroencephalography

Services and payments for the professional component of electrocardiograms and payments for the technical component.

Cryotherapy

Any cryotherapy identified in the payment schedules.

Cardiac Catheterization

Left heart, right heart and selective coronary catheterization.

Biopsy

All non-surgical biopsies.

Other Diagnostic/Therapeutic Services

All other diagnostic/therapeutic services not listed above.

Cryotherapy

Any cryotherapy identified in the payment schedules.

Cardiac Catheterization

Left heart, right heart and selective coronary catheterization.

Biopsy

All non-surgical biopsies.

Other Diagnostic/Therapeutic Services

All other diagnostic/therapeutic services not listed above.

13. Radiology

Includes head & neck, spine & pelvis, extremities, chest, G.I. tract, G.U. tract, therapeutic radiology/radioisotope, C.A. tomography, ultrasound, and other D/T radiology.

14. Laboratory Services

Includes hematology & blood bank, biochemistry & immunology, microbiology, anatomical pathology, histology, & cytology, nuclear medicine & isotopes, and other laboratory services.

15. Special Services**Injections and Immunizations**

Injections (subcutaneous, intramuscular and for varicose veins) and immunizations regularly performed by nursing personnel. In some provinces, these are treated as separate services while in others, they are included in visit fees. Not included are

intra-vascular injections performed by physicians and lumbar myelograms which are included in diagnostic/therapeutic services.

Papanicolaou Smear

As with injections, this procedure is not always considered to be a separate service and is sometimes included in a visit fee.

Insertion of IUD

As with injections, this procedure is not always considered to be a separate service and is sometimes included in a visit fee.

16. Miscellaneous Services

Other Identified

These are services that are not listed as fee items by a majority of the provinces. For example, sessional and standby fees (where identified by a fee code), mileage, telephone consultations, sexual assault exam for investigation and/or confirmation of alleged sexual assault and other services.

Unidentified

Most provinces coding errors or list codes which are unidentifiable. Includes all services that are unidentified or are identified but paid for by Social Services, the Attorney General, Workers' Compensation, etc. Examples include services relative to impaired driving, to rape victims and as a result of injuries sustained at work.

Appendix E
Services Excluded under the Interprovincial
Reciprocal Billing Agreement

Services Excluded under the Interprovincial Reciprocal Billing Agreement

The following list of services were excluded under the interprovincial agreements for the reciprocal processing of out-of-province/territory medical claims, effective April 1, 1988:

- Surgery for alteration of appearance (cosmetic surgery).
- Sex-reassignment surgery.
- Surgery for reversal of sterilization, contraception and sterilization procedures.
- Therapeutic abortions.
- Routine periodic health examinations.
- In-vitro fertilization, artificial insemination.
- Acupuncture, acupressure, transcutaneous electro-nerve stimulation (TENS), moxibustion, biofeedback, hypnotherapy.
- Services to persons covered by other agencies: RCMP, Armed Forces, Workers' Compensation Board, Department of Veterans Affairs, Correctional Services of Canada (Federal penitentiaries).
- Services requested by a third party.
- Routine circumcision of newborn.
- Psychoanalysis.
- Psychiatric or psychiatric team conferences when patient is not present.
- Polysomnograms.
- Procedures still in the experimental/developmental phase.
- Genetic screening and other genetic investigations, including DNA probes.
- Anaesthetic services and surgical assistant services associated with all of the foregoing.

Effective April 1, 1989, the following additions and deletions were made to the above list of excluded services:

- "Surgery for reversal of sterilization, contraception and sterilization procedures" was changed to "Surgery for reversal of sterilization".
- "Routine periodic health examinations" was revised to "Routine periodic health examinations including routine eye examinations".
- "Routine circumcision of newborn" was removed.
- "Psychoanalysis" was removed.
- "Psychiatric or psychiatric team conference when patient is not present" was changed to "Team conference(s)".
- "Polysomnograms" was removed.

In August 1991, further additions included:

- Lithotripsy for gall bladder stones.
- The treatment of port-wine stains on other than the face or neck, regardless of the modality of treatment.

Appendix F
Fee-for-Service Radiology and Laboratory Coverage
in NPDB

Fee-for-service Radiology and Laboratory Coverage in NPDB

Radiology and laboratory services supplied to CIHI for use in NPDB are not uniform or complete. For this reason the data are not routinely used in the NPDB publications. The following notes were provided by the provincial medical insurance plans regarding the radiology and laboratory services included on the NPDB file submissions.

Newfoundland

- No laboratory services data are supplied to NDPB as these services are paid through the hospital funding.
- Physicians can be paid on a fee-for-service basis for interpretation services on certain diagnostic services such as EEG, ECGs, etc. These services would be included in the NPDB file submissions.

Prince Edward Island

- No laboratory services data are supplied to NDPB as these services are paid through the hospital funding.
- Radiologists interpretation fees are included in the NPDB file submissions.

Nova Scotia

- No laboratory services data are supplied to NDPB as these services are paid through the hospital funding.
- The majority of radiology billings are not included in NPDB file submissions. For Nova Scotia, the majority of radiology billings are not included in fee-for-service earnings.

New Brunswick

- No laboratory services data are supplied to NDPB as these services are paid through the hospital funding.
- All radiology services are excluded in the NPDB file submissions.

Quebec

- No laboratory services are included.
- Radiology services provided by physicians in private practice are included in the NPDB file submissions.

Ontario

- Approximately 50 percent of all laboratory services are funded through OHIP and therefore are included in the NPDB file submissions. The remaining 50 percent are funded via Public Health (1 percent) and Hospital global budgets (49 percent).
- Information on Radiology services was not available.

Manitoba

- Laboratory services provided in the NPDB file submissions are those provided by privately owned fee-for-service laboratories. Laboratory services provided in urban/rural facilities are not included in the NPDB file submissions.
- Radiology services submitted include all private radiology services and all urban facility radiology services. Rural facility radiology services, approximately 11 percent of the total dollar value for radiology services, are not included in NPDB file submissions.

Saskatchewan

- Since 1993/94, the only laboratory services included in the NPDB file submissions are common in-office laboratory services provided by physicians other than pathologists. Responsibility for private laboratory services provided by specialists in pathology was transferred to District Health Boards in October 1993 and no longer funded on a fee-for-service basis.
- Facility based radiology services which are funded through District Health Boards are excluded from the NPDB file submissions, as well as radiology services provided through the Screening Program for Breast Cancer.

Alberta

- Up to July 1, 1995 only non-hospital based laboratory services were included.
- Only non-facility based radiology services are included in NPDB file submissions.

British Columbia

- Laboratory and radiology services when performed on a fee-for-service outpatient basis are included in NPDB File Submissions, but inpatient services are not included.
