## PART B

### INTERPRETATION/EXPLANATION

This Part provides a narrative explanation of some of the figures appearing on the Statistical Report (Part A). The item numbers which follow correspond to the numbers on the Statistical Report.

#### **I Received During Reporting Period**

During the reporting period, the Board received ten requests under the *Access to Information Act* and there were two requests outstanding from the previous reporting period.

#### **II Disposition of Requests Completed**

For five of the requests completed during the reporting period, the Board disclosed only parts of the documents because the remainders were exempt, one under Section 16(2), two under Section 19(1) and two under Section 20(1) (b)(c)(d) of the *Access to Information Act*. With respect to the remaining six requests, all documents requested were disclosed; one came in near year end and was carried forward to 2005-2006 fiscal year.

#### **V Completion Time**

Of the eleven requests completed during the reporting period, five were completed within the 30 days specified in the *Access to Information Act*, and for six requests a 30 day extension was sought.

#### **IX Fees**

For this reporting period \$50.00 in fees were collected.

#### **X Costs**

The costs incurred for handling the requests and administrative matters dealing with Access to Information totaled approximately \$6615.00 for 150 hours.

The Board estimates that 150 hours equates to 0.16 person year.

## PART C

### SUPPORTING DOCUMENTATION

#### I General

The National Energy Board (the Board) is a regulatory tribunal and a court of record. All applications and other documents filed with the Board are public and are readily available for inspection. Since its inception, the Board has maintained its policy of providing information, a) wherever possible, b) on request, and c) promptly.

In addition to providing information on request, the Board has its own program of disseminating information on various aspects of its regulatory functions. This program includes the publication of 12 Information Bulletins to date, 21 news releases during the reporting period, an Annual Report that covers calendar year 2004, an Internet site [www.neb-one.gc.ca](http://www.neb-one.gc.ca), the Regulatory Agenda publication on a monthly basis and two videos, one describing the role of the NEB, and one describing the Board's public hearing process.

The provision of information to the public is not new to the Board, and the Board encourages the public to request information informally rather than formally under official *Access to Information Act* requests. Although the proclamation of the *Access to Information Act* has had no impact on the standards that the Board has set for itself in its public relations, we have in place measures to administer the Act. These measures are described in the following sections.

#### II Organization of Access to Information Activities

Activities relating to the *Access to Information Act* are the responsibility of the Secretary of the Board, who has been designated as the Coordinator. He is assisted in his work by the Regulatory Administrator. In addition, Board's Legal Counsels provide advice and employees contribute with technical information as required.

#### III Implementation of the Access to Information Act

As previously mentioned, the proclamation of the *Access to Information Act* has had little impact on the Board's public relations program or the Board's policy on information dissemination. The only impact has been of an administrative nature: procedures are in place to deal with requests received, staff and management are aware of the requirements of the Act and of the Board's procedures, and one reading room has been designated.

#### **IV Formal/Informal Interface**

The Board receives an average of 116 requests for information each month. Approximately 20 percent of these requests are of a complex nature, requiring research and co-ordination with other business units, and the average response time is five working days.

Neither the proclamation of the *Access to Information Act* nor the requests received under the Act has affected the number of informal requests received and disposed of by the Board.

#### **V Institutional Policies**

The Board formalized its administrative procedures in the form of a manual, which was undertaken in order to ensure requests are processed in accordance with the applicable delegation documents and legislative authorities.

#### **VI Delegation Instrument**

The Secretary has been designated to exercise the powers and perform the duties and functions of the Chairman as head of a government institution under the Act, except for the power to refuse access to a record requested based on a discretionary exemption under the *Access to Information Act*. Where the Secretary does not intend to give access to a record requested based on a discretionary exemption under the Act, he shall refer the request to the Executive Team, which Team shall have the power to grant or refuse access to the record.

A copy of the Designation Order and a Designation Replacement Order are attached as Appendix I and Appendix II, respectively.
