**2006-2008 Summary of Beluga Management Plan (Revised June 2007)**  
**Management measures for Areas where hunting is allowed**

Mucalic, Nastapoca, & Little Whale River Estuaries remain closed all year;      Protection of females, calves and juveniles; Control of netting; Harpoon first; Use equipment to retrieve the whales;

Ottawa Islands 2007 pilot project: if all belugas caught are not sampled or if it is determined they are coming from EHB population, **no future hunting will be authorized** in that area anymore;      No waste of muktuk and meat; Use appropriate rifles; Sharing of edible parts; Mandatory sampling of tooth & skin for each beluga captured;

Mandatory Hunting Plans for the 3 pilot projects provided by NHFTA to DFO;      Hunting samples & tags return by HFTA to Nunavik Res. Cent.; Respect Total Allowable Catch for each hunting area;

Mandatory Communal Hunting Plan for each community provided by local HFTA to DFO.      Reduction of TAC following year impose if overharvesting in area; Local HFTA in charge of distribution of tags provided by DFO.

AREA FOR BELUGA	MAP	STATUS/COMMENTS	TAC
Ungava Bay	A	OPEN July 1 to August 31 Area will be closed when TAC is reached Hunting in closed area will be prosecuted	9
Hudson Strait	B	OPEN - Spring to Fall Area will be closed when TAC is reached Hunting in closed area will be prosecuted	120
Eastern Hudson Bay	C	OPEN - Spring to Fall Akulivik: Hunting prior to July 1 or in fall Area will be closed when TAC is reached Hunting in closed area will be prosecuted	23
Long Island & James Bay	D & E	OPEN - Spring to Fall Area will be closed when TAC is reached Hunting in closed area will be prosecuted	22
Ottawa Islands Pilot Project	F	OPEN - Spring to Fall Area will be closed when TAC is reached Hunting in closed area will be prosecuted	5
