BULLYING WILL NOT BE TOLERATED

TALK TO YOUR TEACHER IF YOU ARE BEING BULLIED

Learning problems.
Health issues.
Emotional effects.

The impacts of bullying are significant and can be long-term. But many adults still think bullying is a normal part of life, and tell children simply to “shake hands and make up.”

When adults do nothing to help stop bullying, children are left feeling alone and fearful. Children thrive in families, schools and neighbourhoods that are respectful, inclusive—and safe—where adults are empowered to respond effectively and consistently.
