Lines that include changes to the Instructions have been highlighted by shading; pages that include changes made in 2007 have "2007" in the lower left corner.

The following changes have been made for 2007:

## Instructions

II-4/V-13	Manitoba - <b>Updated</b>
II-5	Changes made under Electronic Filing and Amended Annual Returns
III-8	Added Unrecognized (Assets and Liabilities)
IV-7, 8, 9	Deleted Type 3 under Structured Settlements; Changed CICA Handbook references
V-7	Changed 40.05 Summary of Investments and Limits to 40.07 Summary of Investments
V-9, 12	Ontario - Updated
Section VI	<b>Significant updates</b> . Readers are encouraged to completely review the 2007 updates for this Section.
VIII-1	<b>Changed</b> delivery address to 12 <sup>th</sup> floor
IX-i, (a)	Updated
IX(f)-1	Deleted wording "diskette"
IX(g)	<b>Significant updates</b> . Readers are encouraged to completely review the 2007 updates for this Appendix.
IX(h)-1	Changed wording "diskette" to "file" or "ASCII file"
IX(i)-1, 2	Changed wording "diskette" to "file"; Updated list of Interim Return pages
IX(i)-3, 4	<b>Deleted</b> instructions for Pages 30.70, 40.05, 70.35/70.38 and 80.10; <b>Changed</b> reference to page 40.05 to 40.07
IX(k)-1, 2	<b>Changed</b> wording "off-balance sheet exposures" to "structured settlements, letters of credit, derivatives and other exposures"; instructions <b>modified</b>
Castier V	Dalatad

#### Section X Deleted

## Annual Return

The following pages include comprehensive changes that were made to the Annual Return in accordance with the new Financial Instruments Accounting Standard: Pages 10.42, 20.20, 20.42(New), 30.40, 30.70, 30.71, 40.05(Deleted), 40.07(New), 40.10, 40.20, 40.30, 40.35, 40.40, 40.45, 40.49, 40.50, 40.60, 40.70, 40.80, 50.40, 50.50 and 70.38.

## Interim Return (effective Q1 2008)

- 20.30 Line 33 changed to Realized Gains (Losses)
- 20.42 Wording", net of Income Taxes" deleted
- 40.07 Column 15 changed to Realized Gains (Losses); added wording "Unrealized" to column 19

#### Deadlines

An Annual Return must be filed in every jurisdiction where the insurer is licensed or registered as follows:

Deadline	Number of hard copies required	Supplementary file required
60 days after year-end, except 105 days for reinsurers ( <i>R</i> )	2	Yes
March 31	1(PN)(F)	Yes
February 28	1( <i>F</i> )	*
March 31	1(F)	*
March 31	1	*

(F): Federally registered insurers should refer to Section V for filing requirements.

(PN): Insurers incorporated in Newfoundland & Labrador, or in another province.

(PO): Insurers incorporated in Ontario, or in another province.

(PA): Insurers incorporated in Alberta. Other insurers, reinsurers and fraternal benefit societies registered in Alberta should refer to Section V, Filing Requirements – Alberta.

(PB): Insurers incorporated in B.C., or in another province.

(R): Insurers whose certificates of registry are limited to reinsurance.

\* Required if produced

# **Mailing Addresses**

See Section IX - Appendix (a) for the mailing addresses of all Regulators.

# **Penalties for Late Filing**

Annual Returns must be received in the office of the Regulator on the due dates. There are penalties for late filing in all jurisdictions. In some jurisdictions, late filing is an offence that may result in prosecution as well as fines.

# **Electronic Filing**

The Canadian Council of Insurance Regulators (CCIR) has undertaken to provide for insurers to file data electronically. The specifications for "diskette/CD-Rom filing" are in Section IX - Appendix (f), (g) and (h).

Supplementary diskette/CD-Rom filing of Annual Returns or electronic filing via a secure means provided by their Regulator is compulsory for all federally registered, Quebec, Ontario and British Columbia licensed property and casualty insurers. Please refer to the schedule on page II-4 for the requirements of other jurisdictions. Insurers are encouraged to consult their primary Regulator to determine their electronic filing requirements.

Supplementary diskette/CD-Rom filing of Interim Returns or electronic filing via a secure means provided by their Regulator is also compulsory for federally registered, and Quebec and Ontario licensed insurers.

## **Interim Returns**

See Section IX - Appendix (f) and (i) for Interim Return Instructions.

# Amended Annual Returns

If amendments are made to the Annual Return, an amended file, validation report and transmittal form, together with the amended pages (on which the changes have been highlighted) and an updated Affidavit (Page 99.10) must be filed immediately with every jurisdiction where the insurer has filed an original. An updated Auditors' Report may also be required if there are material changes affecting pages 20.10 to 20.60 of the Annual Return.

## **Unearned Commissions**

The estimated amount of commission revenue on ceded premiums relating to the coverage period beyond the current year end. Unearned Commissions arising from ceded business must not be reduced by Deferred Commissions arising from direct and assumed business, and must be estimated by class of insurance.

#### Unrecognized (Assets and Liabilities)

Assets and Liabilities that are not "recognized" as financial instruments under GAAP, and are "off-balance sheet".

# **Unregistered Insurer (Company)**

Refer to the definition of Registered Insurer

# **Structured Settlements**

A structured settlement refers to a contractual arrangement whereby a third party makes periodic payments to a claimant of a P&C insurer (insurer).

The periodic payments are normally funded through purchase by the insurer of an annuity from a life insurance enterprise and are usually arranged so that the payments are tax free in the hands of the claimant.

The insurer may have to report a financial liability and a financial asset on its balance sheet, depending on the type of contractual arrangement, and must disclose the information required in its notes to the financial statements.

There are essentially two types of structured settlements:

# <u>Type 1</u>

Type 1 structured settlements have the following characteristics:

- a) An annuity is purchased by a insurer who is named as the owner. There is an irrevocable direction from the insurer to the annuity underwriter to make all payments directly to the claimant.
- b) Since the annuity is non-commutable, non-assignable and non-transferable, the insurer is not entitled to any annuity payments and there are no rights under the contractual arrangement that would provide any current or future benefit to the insurer.
- c) The insurer is released by the claimant to evidence settlement of the claim amount.
- d) The insurer remains liable to make payments to the claimant in the event and to the extent the annuity underwriter fails to make payments under the terms and conditions of the annuity and the irrevocable direction given.

Under this type of structured settlement arrangement, the insurer does not have to recognize a liability to the claimant, nor does it have to recognize the annuity as a financial asset. However, the insurer is exposed to credit risk by guaranteeing the obligation of the annuity underwriter to the claimant.

# **Structured Settlements** (cont'd)

According to the CICA Handbook, Section 3861, the insurer should disclose in its notes to the financial statements the terms and conditions, the credit risk and the fair value of this financial guarantee.

Any gain or loss should be recorded as an adjustment of incurred claims expense.

The insurer also should not recognize a financial asset at time of purchase where the terms of the annuity make it commutable in the event the liability to the claimant becomes fully settled or otherwise discharged. In these circumstances, a gain could subsequently arise to the extent there is a residual value after the liability is fully settled.

The existence of a contingent gain in this case should be assessed for disclosure in the notes. The disclosure should be based on Sections 3290 and 3861 of the CICA Handbook with respect to the amount, the nature, the terms and conditions of the contingent gain.

# <u>Type 2</u>

Type 2 structured settlements differ from Type 1 in that:

- a) The annuity is commutable or assignable or transferable; that is, there is some form of reversionary interest or continuing right to a benefit for the insurer.
- b) A legal release is not necessarily obtained from the claimant.

The commutation rights of the insurer have the potential for terminating the claimant's right to future payments in advance of the annuity being exhausted.

The extent of the rights held by the insurer sometimes indicates the insurer has contracted with the annuity underwriter to provide only administrative services with respect to the periodic payments.

Under this type of arrangement, the financial liability must be recognized on the insurer's balance sheet, and the annuity must be recognized as a financial asset.

The annuity should be carried initially at its cost to the insurer and the liability should be measured in the same manner as other outstanding claim liabilities of similar type.

# **Structured Settlements** (cont'd)

According to the CICA Handbook, Section 3861, the insurer should disclose in its notes to the financial statements the terms and conditions, the credit risk and the fair value of the annuities recognized as financial assets on the balance sheet.

Please refer to Section V, *Jurisdictional Requirements*: Federal Guidelines and Bulletins (V-30).

# **Quebec** (cont'd)

# Loans and advances to subsidiaries and affiliates

Any Quebec incorporated Insurers must show loans and advances to subsidiaries and affiliates on Page 50.40 as investment in Subsidiaries and Affiliates.

# Exhibits NOT Required

The following exhibits or sections of exhibits need <u>not</u> be completed by Quebec incorporated insurers that transact insurance in Quebec only:

<u>Page</u>	<u>Exhibit</u>
10.10	Corporate data, Officers, Auditor, Actuary
10.15	Directors
<mark>40.07</mark>	Summary of Investments
90.70	Reinsurance ceded - Out of Canada

## Actuary's Report

Pursuant to sections 298.15 and 309 of the Quebec Act respecting Insurance every insurer authorised to practice "damage" (property and casualty) insurance in Quebec must attach an actuary's Expression of Opinion concerning the valuation of the provisions and reserves to its Annual Return.

A copy of the Actuary's Report that establishes and presents the provisions and reserves must be forwarded to the Autorité des marchés financiers upon request.

The actuary will have to include in the report a description of the assumptions and methods used in the valuation of the said reserves or provisions and also state and justify the criteria that have served as the basis for choices made.

Moreover, the report must also include the other information required by the Autorité des marchés financiers of Quebec, for those insurers specifically requested to do so.

Insurers with charters from outside Quebec, which transact insurance in Quebec and for which no specific report is required by the Autorité des marchés financiers, must file with the Autorité a copy of the Actuary's Report filed with their home jurisdiction, and ensure compliance with the Quebec Act respecting insurance.

A copy of the resolution of the board of directors concerning the appointment of the actuary must be forwarded to the Autorité des marchés financiers within 10 days of the actuary's initial appointment or at the change of the actuary.

# Ontario

## <u>Legislation</u>

- (1) Corporations Act: R.S.O. 1990 Part V
- (2) Insurance Act: R.S.O. 1990

Regulations to the Insurance Act, specifically: (a) Regulation 669 Financial Statements

## <u>Guidelines</u>

Bulletin No. 13/92 - Use of the Canadian Depository for Securities Limited Bulletin No. 01/02 - Investments by Insurers Guideline Bulletin No. 08/04 - Minimum Capital Test for P&C Insurance Companies

# <u>Earthquake</u>

Refer to the OSFI's Earthquake Exposure Sound Practices Guidelines.

## Letters of Credit

Letters of Credit must be in the form as noted in Section IV. In general, letters of credit may be used to offset the reserve for unregistered reinsurance to the extent of 10% of the total amount of the unearned premiums and outstanding losses recoverable from assuming reinsurers.

Details of Letters of Credit from affiliated unregistered reinsurers must be notified to the Superintendent.

# Ontario (cont'd)

# General Information

All Ontario incorporated insurers must complete the General Information pages 10.10 to 10.60.

Except for the insurers prescribed in Section 102(9) of the Act or in the Regulation, all Ontario incorporated insurers must complete the statutory compliance pages for the Minimum Capital Test (MCT) (30.70 and 30.71). The Minimum Capital Test is to be completed using the Superintendent's Guideline No. 08/04.

## Working Papers

Insurers licensed in Ontario are required to maintain appropriate working papers to support information contained in the Annual Return. This is a requirement under Section 443 of the Act.

## <u>Signature Requirements</u>

The Annual Return shall be verified, by the president, vice-president or managing director, or other director appointed for the purpose by the board of directors and by the secretary or manager of the insurer.

## Investment exhibits

Section 433(4)(c) places a restriction on Ontario incorporated companies with respect to investments not otherwise authorized under the Act. These are normally referred to as basket clause investments. Companies should provide details of these investments on a schedule, which should be filed with the P&C-1.

## Securities lending

Securities lending is prohibited for companies incorporated in Ontario.

# Financial Statements of Subsidiaries

Ontario incorporated insurers should have a copy of the current financial statements of each subsidiary available at the insurer's head office.

# Manitoba

Other specific instructions necessary to meet Manitoba's requirements may be circulated by the Superintendent, to the appropriate insurers, prior to year-end.

# Legislation

The Insurance Companies Act: R.S.M. 1987

Regulation to the Insurance Act; Insurance Company Classes of Insurance

# <u>Language</u>

Filings in either official language are acceptable.

# Actuary's Report

Insurers are not required to file their Actuary's Report with the condition that a copy be available at any time upon request.

# <u>Statutory filings by Federally registered insurers</u>

Statutory filings made by Federally registered insurers, as required by Section 84 of the Act, will only need to be submitted to the Office of the Superintendent of Financial Institutions, Ottawa.

Insurers other than Provincial Insurers and Reciprocal Insurance Exchanges

A report that sets out the particulars of the insurer's business in Manitoba during the year (Section 84). To meet this requirement, insurers must file pages 67.10 and 67.30.

## Page 20.10 - Assets

## - Line 01 - Cash

The term "cash" includes cash and cash equivalents. It does not include guaranteed investment certificates or term deposits that are not cash equivalents, which are to be included on Page 20.10, line 04.

Insurers must not offset credit balances in one depository institution against debit balances in another depository institution. Netting is allowed only between branches of the same depository institution.

## - Line 09 – Investments: – Real Estate

See instructions for Page 40.70.

## - Line 10 – Investments: - Other Investments

See instructions for Page 40.80.

## - Lines 20 to 27 - Receivables

Receivables must be reported net of allowance for doubtful accounts.

## - Line 22 - Instalment Premiums

Policy premiums that are payable over several periods (multiple payments and instalments) should be reported on this line.

Policies that provide for premiums to be paid by instalments should be reported and accounted for in accordance with the term of the policy and not the payment mode.

## - Line 30 - Unearned Premiums - Recoverable

The reinsurer's portion of unearned premiums must be reported on this line. This amount must agree with the total on Page 60.10, line 89, column 03.

# Page 20.20 - Liabilities and Equity

## - Line 13 – Unpaid Claims and Adjustment Expenses

Unpaid Claims and Adjustment Expenses must be reported "gross", and where discounting is required by the insurer's primary Regulator, on a discounted basis.

## - Line 28 - Other Liabilities

Record the aggregate amount of all other balance sheet liabilities not reported above, including derivative instruments whose mark to market position is negative. See also instructions for Page 50.50, line 50-88.

## - Line 41 - Shares issued and paid

Include only those preferred shares that are to be treated as equity under the CICA Handbook. Preferred shares considered to be debt are recorded on page 50.50

# Page 20.30 - Statement of Income

# - Line 07 - Service Charges

Insurers must report only service charges to policyholders on this line. Insurers that do not wish to identify service charges separately or are not permitted to do so should continue to include them with premiums on line 01.

## - Line 08 - Other

Insurers must report here the amount of policyholder dividends and rating refunds.

Experience rating refunds and retrospective rating credits are not to be deducted from premiums written. The "return premiums" referred to in the heading on Page 60.20 of the Annual Return are premiums returned on cancellation or on amendment of policies. Experience rating refunds and retrospective rating credits are to be treated as a payment to policyholders in the same way as dividends to policyholders.

# - Line 10 - Net Claims and Adjustment Expenses

Amounts paid by automobile insurers to provinces for the recovery of health care costs are to be reported as claims on line 10.

# <u>Page 20.30</u> - Line 12 - Taxes

Regulatory assessments are to be included with General Expenses on Page 80.20 and not with Taxes.

# - Line 20 - Premium Deficiency Adjustments

Adjustments to any premium deficiency liability reported on Page 20.20, line 15 must be reported on this line. An "increase" in the liability would be an expense item on Page 20.30 and a "decrease" would be an increase item and should be reported with brackets ().

# - Line 41 - Share of Net Income (Loss) of Subsidiaries and Affiliates

The insurer must report on this line its pro rata share of the net income (loss) using the GAAP equity method of accounting for subsidiaries and, where applicable, affiliates.

# - Line 42 - Gains (Losses) from Fluctuations in Foreign Exchange Rates

On this line insurers should show the net amount of yearly gains or losses realized from the settlement of foreign currency receivables and payables (or from the exchange of currencies) according to GAAP. Ideally all such gains or losses should be shown on line 42. However, the gains or losses might be included with the actual revenue or expense items to which they relate, for example, the payment of certain claims.

## - Line 43 - Other Revenue and Expenses

As an example of the type of income item that should be reported on line 43, some insurers, under the terms of their agreements with reinsurers, are entitled to all or a portion of the interest income earned on deposits that have been placed by the assuming insurers as security for reinsurance assumed. In this situation, the interest income should be reported on line 43; it should not be included with investment operations on line 39.

Mutual insurance societies should report on line 43 the refunds given to their members based on the year's surplus, as well as those received from any reinsurer(s).

Investment income received from Facility, Facility Association, Risk Sharing Pool or Plan de Répartition des Risques ("P.R.R.") should be reported on line 43.

## Page 20.40 – Statement of Retained Earnings

Any transitional adjustments / balances from the adoption of a new accounting standard should be reported on line 04 in the year of transition.

## Page 20.40 - Reserves

Insurers issuing nuclear risk policies are required to record an additional provision of 100% of net premiums written, less commissions. In the absence of meaningful statistical data on the severity and frequency of losses, regulators consider it appropriate for insurers to reverse this reserve after twenty years.

The provision for earthquake exposures (*Earthquake Reserves Required by Regulators*) is to be reported as two amounts: the *Earthquake Reserve Complement* (ERC) is to be reported on line 90 and the *Earthquake Premium Reserve* (EPR) on line 91.

#### Page 20.42 – Comprehensive Income (Loss) and Accumulated Other Comprehensive Income (Loss)

#### Transition Instructions

CICA Handbook section 1530 and amendments section 3251 are effective for fiscal years beginning on or after October 01, 2006. In accordance with GAAP, prior year amounts do not need to be reported in the year of transition, except prior year Currency Translation Account which should be reported on line 46, column 03: Foreign Currency (Net of Hedging Activities). This prior year amount should agree with line 47, column 03 on Page 20.20 in the transition year.

The total transition amount should be allocated to the appropriate line items in Accumulated Other Comprehensive Income (Loss), net of Income Taxes, i.e. Accumulated Gains/Losses on: Available for Sale – Loans, Bonds and Debentures, or Equities, and Foreign Currency (Net of Hedging Activities), i.e. lines 42-44 and line 46. (In the year of adoption, column 01 will include the activity for the year plus the transitional balance.)

**General Instructions** 

All amounts should be reported on an after tax basis.

#### - Line 10 - Comprehensive Income (Loss): Income (Loss) from

#### <mark>Subsidiaries</mark>

Report the Comprehensive Income (Loss), net of Income Taxes, for subsidiaries, affiliates and partnerships which are accounted for using the equity method.

#### - Line 47 – Accumulated Other Comprehensive Income (Loss): Income (Loss) from Subsidiaries

Report the Accumulated Other Comprehensive Income (Loss), net of Income Taxes, for subsidiaries, affiliates and partnerships which are accounted for using the equity method.

# Page 20.60 - Notes to Financial Statements

Notes to the Financial Statements (Pages 20.10 to 20.52 inclusive) are to be reproduced on, or attached to, Page 20.60.

In addition to notes normally required under GAAP, these notes should include the following items, where relevant:

- the existence of "financing reinsurance" arrangements and their financial impact,
- restrictions as to payment of dividends,
- cumulative dividends,
- the percentage of the insurer's participation in a pool, and disclosure of its share of the amount of direct premiums written, reinsurance assumed and reinsurance ceded in the pool, and
- the amount by which Deferred Policy Acquisition Expenses have been written down due to a Premium Deficiency. This amount should be broken down by commission expense, commission income, premium taxes and other acquisition expenses, as applicable. The note must also indicate details of the adjustment made to Page 80.10, column 10, lines 09 - 79.

## <u>Page 30.40</u> - Insurers licensed in Quebec - Computation of Minimum Excess Amount of Assets over Liabilities excluding accumulated other comprehensive income (loss)

This calculation must be carried out in compliance with the requirements of Sec. 275 of the Quebec Act respecting insurance (R.S.Q., chapter A-32). Every insurer holding a licence to operate in Quebec, regardless of the place of its incorporation, must complete this exhibit.

- Line 01 - Excess (deficiency) of Assets over Liabilities excluding Accumulated Other Comprehensive Income (Loss)

The amounts reported on this line must be calculated by subtracting the amounts indicated on Page 20.20, line 29 and on page 20.20, line 47, from the amounts indicated on line 89 of Page 20.10.

## - Line 02 - 15% of Net Unpaid Claims and Adjustment Expenses

The amounts entered on this line are obtained by multiplying by 15% the amounts entered on Page 60.30, line 89 column 08 and 50.50, line 50, after deducting the provision for the "accident and sickness" class of insurance on Page 60.30, line 70, column 08.

# Page 30.40 - Line 03 - 15% of Net Unearned Premiums

The amounts entered on this line are calculated by multiplying by 15% the amounts entered on Page 60.10, line 89, column 04, after deducting the unearned premiums for the "accident and sickness" class of insurance on line 70, column 04, or as calculated on Page 30.45.

## - Line 10 - Accounts Receivable due 90 days and over from insurance Agents and Brokers

The amount to be shown here is the total receivables from agents and brokers as of December 31, respecting insurance policies issued before October 1, less the related allowance for doubtful accounts. Note that amounts "In Arrears" on Page 50.20 are defined as "more than 65 days", while for purposes of Page 30.40, amounts "In Arrears" remain at "due 90 days and over".

## - Lines 11 and 12 - Other Accounts Receivable, Premiums receivable from Policyholders and Instalment premiums in arrears

Line 11 refers to other accounts due after deducting the allowance for doubtful accounts. The amount of all accounts in arrears must be entered on this line, after deducting the allowance for doubtful accounts. The same applies to line 12, premiums in arrears and to premiums payable in instalments also in arrears.

## - Line 18 - Excess of balance sheet value of Investments in Subsidiaries and Affiliated Corporations

The amount on this line should account for the amount of the excess in the value of the insurer's investments made in subsidiaries and affiliated insurers entered under assets, over the insurer's participation in the adjusted net worth of subsidiaries and affiliated insurers (excluding intangible assets).

Insurers should attach the detail of their calculations to the Annual Return and also a copy of the latest audited financial statements of the said subsidiaries and affiliated insurers.

## - Line 20 - Earthquake Reserve

The amount to be reported on this line is the total of amounts included on lines 90 and 91 of page 20.40 that pertain to the Earthquake Reserve Required by Regulators.

## <u>Page 30.45</u> - Insurers licensed in Quebec - Calculation of Required Margin on Net Unearned Premiums

Insurers using the expected claims ratio method to establish the required margin on net unearned premiums must complete this exhibit. For each class of insurance, the insurer must indicate under column 02 of the exhibit the expected claims ratio.

The total calculated (line 89, column 05) must be reported on Page 30.40, line 03, column 01. This exhibit must be completed and signed by the appointed actuary.

# - Column 02 - Expected claims ratio

Claims ratios under column 02 are the ratios expected for the net unearned premiums on the policies issued by the insurer for the classes of insurance indicated.

## - Column 03 - Minimum claims ratio

In column 03, the insurer must indicate the claims ratio used for the calculation of the required margin on net unearned premiums. This ratio must not be less than either the ratio in column 02, or the total of 60% of the ratio for the current year and 40% of the ratio for the preceding year.

# Page 30.70 and 30.71 – Minimum Capital Test (MCT)

Please refer also to Section V, *Jurisdictional Requirements*, for additional guidance on the Minimum Capital Test.

# Page 30.70 - Minimum Capital Test

## - Line <mark>02</mark> – Capital Available: Equity

Report total Equity less Accumulated Other Comprehensive Income (Loss) of the insurer under GAAP. Amount will agree to that reported on Page 20.20, line 49 less line 47.

#### - Line 03 – Capital Available: Subordinated Indebtedness and Redeemable Preferred Shares

Report all debt and preferred shares considered to be debt under GAAP where they are long term (redemption is subject to regulatory approval), free of any obligation to make payments from earnings, and subordinated in legal position to the rights of policyholders and other creditors of the institution.

## Line 04 – Capital Available: Accumulated Other Comprehensive Income (Loss) on Available for Sale Equity Securities

Report Accumulated Other Comprehensive Income (Loss) on Available for Sale Equity Securities under GAAP. The amount is after tax, and will agree to that reported on Page 20.42, line 44.

## Line 06 – Capital Available: Accumulated Other Comprehensive Income (Loss) on Available for Sale Debt Securities

Report Accumulated Other Comprehensive Income (Loss) on Available for Sale Debt Securities under GAAP. The amount is after tax, and will agree to that reported on Page 20.42, line 43.

## Line 08 – Capital Available: Accumulated Other Comprehensive Income (Loss) on Foreign Currency (Net of Hedging Activities)

Report Accumulated Other Comprehensive Income (Loss) on Foreign Currency (Net of Hedging Activities) under GAAP. The amount is after tax, and will agree to that reported on Page 20.42, line 46.

## Line 10 – Capital Available: Accumulated Other Comprehensive Income (Loss) Included in Capital Available of Regulated FI Subsidiaries

Report Accumulated Other Comprehensive Income (Loss) included in Capital Available of Regulated FI Subsidiaries. The amount is after tax, and will agree to that reported on Page 20.42, line 47.

# <u>Page 30.70 <mark>-</mark> Line 30 – Blank line</u>

This line is for future use only.

#### Line 11 – Capital Available: Capital Available reported by Regulated FI Subsidiaries

Report total capital available in regulated financial institution subsidiaries calculated using the applicable sectoral test of the Canadian parent P&C insurer's jurisdiction.

#### Line 12 – Capital Available; Less: Accumulated net after-tax fair value gains (losses) arising from changes in the company's own credit risk.

Report the net after tax impact of changes in fair value due to changes in the company's own credit risk for the company's financial liabilities that are classified as under GAAP as Held for Trading.

 Line 14 – Capital Available; Less: Balance Sheet Value of Investments in Regulated FI Subsidiaries

Report the balance sheet value of investments in regulated financial institution subsidiaries.

# - Line 17 – Capital Available; Less: Assets with a Capital Requirement of 100%

Report the total of:

- 1. Investment in Subsidiaries, Affiliates, Partnerships, "Other" (Page 30.71, line 33, column 02);
- 2. Deferred Policy Acquisition Expenses, "Other" (Page 30.71, line 78, column 02);
- 3. Future Income Taxes, "Other" (Page 30.71, line 81, column 02);
- 4. Goodwill and other Intangibles (Page 30.71, line 85, column 02);
- 5. Reinsurance Recoverable from Unregistered Reinsurers in excess of Non-owned Deposits (Page 70.38, line 89, column 14); and
- 6. The amount, if any, of Miscellaneous Assets (Page 50.50, line 38) that exceeds 1% of Total Assets.

## - Line 20 – Minimum Capital Required: Balance Sheet Assets

Report the total capital required for Balance Sheet Assets per Page 30.71, line 89, column 03.

## <u>Page 30.70</u> - Line 22 – Minimum Capital Required: Unearned Premiums/Unpaid Claims/Premium Deficiencies

Report the sum of the capital required on Unearned Premiums, Unpaid Claims and Premium Deficiencies as follows:

#### Unearned Premiums

The capital requirement for Unearned Premiums is determined on a net basis (net of reinsurance, Salvage and Subrogation, and Self Insured Retentions) and is the sum of the following:

- for all lines of business, except Accident and Sickness insurance and Mortgage insurance, multiply the greater of the net unearned premiums and 50% of the net written premiums in the last 12 months by 8%;
- for Accident and Sickness insurance, multiply the net exposure with the factor that corresponds to the type of coverage and length of premium guarantee remaining. See Section IX for additional instructions and a sample worksheet; and
- for Mortgage insurance, refer to Section V, Jurisdictional Requirements.

## Unpaid Claims

The capital required on Unpaid Claims is determined on a net basis (net of reinsurance, Salvage and Subrogation, and Self Insured Retentions) and is the sum of the following:

- Personal property & commercial property, multiply the net unpaid claims by 5%;
- Automobile Liability & personal accident, multiply the net unpaid claims by 10%;
- Automobile Other, multiply the net unpaid claims by 5%;
- Accident and Sickness insurance, multiply the net exposure with the factor that corresponds to the length of benefit period remaining and the duration of the disability. See Section IX for additional instructions and a sample worksheet; and
- all other lines of business, multiply the net unpaid claims by 15%.

## Premium Deficiencies

The capital required on Premium Deficiencies is determined by multiplying Premium Deficiencies by 8%

# **<u>Page 30.70</u>** - Line 24 – Minimum Capital Required: Catastrophes

The capital required is the sum of the capital required for each type of Catastrophes as follows:

1. *Earthquake* 

Include an amount equal to the appropriation of capital that is required pursuant to the OSFI/Autorité earthquake exposure guidelines.

2. *Mortgage Insurance (refer to Section V, Jurisdictional Requirements)* 

Multiply the single premium by the factor that corresponds to the original term of the policy (in years) and the completed policy duration in years.

3. Nuclear

Include an amount equal to 100% of net premiums written, less commissions.

In the absence of meaningful statistical data on the severity and frequency of losses, this capital requirement may be cancelled after twenty years.

## - Line 26 – Minimum Capital Required: Reinsurance Ceded to Unregistered Insurers

Record the sum of the amount entered in column 17 on line 89 of Page 70.38.

## Line 27 – Minimum Capital Required: Capital Required reported by Regulated FI Subsidiaries

Report the capital required for regulated financial institution subsidiaries using the applicable sectoral test of the Canadian parent P&C insurer's jurisdiction.

# - Line 28 – Minimum Capital Required: Structured Settlements, Letters of Credit, Derivatives and Other Exposures

Multiply the Net Possible Credit Exposure (net of any collateral or guarantees) by the appropriate credit conversion and capital factor. See Section IX for additional instructions on calculating the capital required for these Exposures, and a sample worksheet.

# Page 30.71 - Capital Required for Balance Sheet Assets

Report the Balance Sheet Value of all assets, except loans, in column 02. For loans, amortized cost is reported on the appropriate lines with an adjustment at line 19 to reflect the sum of the differences between the balance sheet value and amortized cost of these loans.

Multiply the amount in column 02 by the Factor (%) in column 01 to determine the Capital Required in column 03. Shaded lines in the Capital Required column denote items that are risk weighted at 0% or whose capital requirements are captured elsewhere in the return.

# - Lines 03 to 22, <mark>50</mark> – Grading of Investments and Receivables

All investments reported in lines 03 to 22 (except lines 15 and 19), as well as Receivables reported in line 50 must be categorized as Government Grade, Investment Grade or Not-Investment Grade according to their counterparty risk.

In the case of an asset backed by a guarantee or collateral, the long-term issuer credit rating or, in the case of a government, the long-term sovereign risk rating, of the guarantor is used to determine the category.

The following should be used to grade the counterparty risk:

## 1. Government Grade

Includes securities issued by, loans made to, or securities or loans guaranteed by, and accounts receivable from:

- the federal government or an agent of the Crown;
- a provincial or territorial government of Canada or their agent;
- a municipality or school corporation in Canada; and,
- the central government of a foreign country where:
  - the security is rated AAA or, if not rated,
  - the long-term sovereign credit rating of that country is AAA.

## 2. Investment Grade

A security is treated as Investment Grade if it's rating (excluding securities that are included in the Government Grade category) meets or exceeds the rating listed in the table below. If a rating is not available, or where the rating of the security, or guarantor, is less than the rating listed in the table, it will be assigned a Not-Investment Grade factor.

An insurer wishing to use the rating of another rating agency should seek the approval of the primary Regulator.

Asset/Guarantor Ratings					
Rating Agency	<b>Commercial Paper</b>	<b>Bonds &amp; Debentures</b>	<b>Preferred Shares</b>		
	(at least as high as)				
Moody's Investor	P-1	А	Aa		
Service					
Dominion Bond	R-1 (low)	А	Pfd-2		
<b>Rating Service</b>					
Standard and Poor's	A-	А	AA		
Corporation					

## Page 30.71 - Lines 03 to 22 – Grading of Investments (cont'd)

## 3. Not-Investment Grade

Includes any item not included in the Government Grade or Investment Grade categories or where a credit rating is not available.

## - Lines 03 to 12 – Investments: Term Deposits, Bonds and Debentures

Report Treasury Bills, Commercial Paper and other **term deposits, bonds and debentures** in these sections.

## - Lines 13 to 18 – Loans (at amortized cost)

Loans are reported at amortized cost for the purpose of calculating capital required.

## - Line 19 – Loans (at amortized cost): Adjustment to reflect difference between amortized cost and Balance Sheet value of loans

Report the difference between the sum of lines 13 to 18, plus any loans recorded in "Other Investments", less the total balance sheet value of loans reported on Page 20.10.

## - Line 30 – Investment in Real Estate

See instructions for Page 40.70.

## - Line 32 – Investment in Subsidiaries, Affiliates, Partnerships – Regulated Financial Institutions

Report the balance sheet value of investments in regulated financial institution subsidiaries. This amount should equal that reported on page 30.70, line 14, column 1.

# Page 30.71 - Line 33 – Investment in Subsidiaries, etc. - Other

Report the Balance Sheet Value of all subsidiaries, affiliates and partnerships other than subsidiaries reported on line 32.

## - Line 35 – Other Investments

The Balance Sheet Value (column 02), is the sum of:

- derivatives, recognized letters of credit and guarantees, and
- Other non-financial investments including, but not limited to, precious metals, coins and art.

#### The Capital Required (column 03) is the sum of:

- derivatives, recognized letters of credit and guarantees multiplied by 0 (as capital is determined on page 30.70, line 28, "Structured Settlements, Letters of Credit, Derivatives and Other Exposures").
- Other non-financial investments including, but not limited to, precious metals, coins and art, multiplied by 15%

## - Line 54 – Receivables: Instalment Premiums (net yet due)

Include instalment premiums receivable (see Instructions for Page 20.10, line 22) arising from the recording of premiums in advance of the services being provided.

## - Line 58 – Receivables: Insurers - Unregistered

Complete column 02 (Balance Sheet Value) of this line only. The Capital Required for receivables and recoverables from unregistered insurers is calculated on page 70.38 and reported on page 30.70, line 26.

## - Line 63 – Recoverables from Reinsurers – Unregistered

Complete column 02 (Balance Sheet Value) of this line only. The Capital Required for receivables and recoverables from unregistered insurers is calculated on page 70.38 and reported on page 30.70, line 26.

## - Line 75 – Real Estate for Insurer's Own Use

See instructions for Page 40.70.

# <u>Page 30.71</u> - Line 77 – Deferred Policy Acquisition Expenses: Commissions

The Capital Required (column 03) is equal to the greater of:

- the balance sheet value of Commissions per column 02 less Unearned Commissions (page 20.20, line 14), multiplied by 35%; and
- \$0.

Any excess adjustment for Unearned Commission cannot be recognized as capital.

## - Line 78 – Other

Complete the Balance Sheet Value (column 02) of this line only. The Capital Required is reported on Page 30.70, line 17 "Assets with a Capital Requirement of 100%"

## - Lines 80 – Future Income Taxes – Discounted Reserves & Unrealized Gains

Future Income Tax debits arising from discounting of claims reserves for tax purposes, or from unrealized capital gains, that are recoverable from income taxes paid or payable for three immediately preceding fiscal years (including the year being reported on), may be reported on line 80.

## - Line 81 – Future Income Taxes - Other

Complete the Balance Sheet Value (column 02) of this line only. The Capital Required is reported on Page 30.70, line 17, "Assets with a Capital Requirement of 100%"

## - Line 85 – Other Assets – Goodwill & Other Intangibles

Complete the Balance Sheet Value (column 02) of this line only. The Capital Required is reported on Page 30.70, line 17, "Assets with a Capital Requirement of 100%"

#### - Line 86 – Other Assets (net of Goodwill and Other Intangibles)

Capital Required (column 02) is equal to:

35% of the lesser of:

- a. Miscellaneous Assets (see Page 50.50, line 38); and
- b. 1% of Total Assets

Any excess of miscellaneous Assets over 1% of Total Assets is to be reported on Page 30.70, line 17, "Assets with a Capital Requirement of 100%"

# <u>Page 30.71</u> - Line 89 – Total

The total per column 02 must agree with the total per Page 20.10, column 01.

## **<u>Page</u>** 40.07 to 40.80 – Investment Exhibits (General Comments)

When completing this section, please note that all pages are not required to be filed in all jurisdictions. All insurers except those incorporated in Quebec file Pages 40.07, 40.70 and 40.80 only. Insurers incorporated in Quebec file Pages 40.10 - 40.80.

See Jurisdictional Requirements, Section V.

#### Subsidiaries, Affiliates or Partnerships

Subsidiaries, Affiliates or Partnerships are to be reported on Page 50.40.

#### Foreign Currency

All amounts must be denominated in Canadian dollars using the appropriate exchange rate in effect at the reporting date.

# Page 40.07 - Summary of Investments

See also "Page 40.07 to 40.80 – Investment Exhibits (General Comments)"

For each investment category listed in the summary the balance sheet value of the total investments should be reported in the columns based on their classification under CICA handbook section 3855.

Federally regulated insurers should refer to OSFI's Accounting Guideline D-10 "Accounting for Financial Instruments Designated as Fair Value Option".

## Column 01 – Held for Trading

Report the balance sheet value of investments classified as Held for Trading under GAAP, CICA Handbook Section 3855.19(f)(i).

## - Column 03 – Available for Sale

Report the balance sheet value of investments classified as Available for Sale under GAAP, CICA Handbook Section 3855.9(i), including items that are measured at Amortized Cost.

## <mark>- Column 05 – Hedges</mark>

Report the Balance Sheet Value of derivative instruments that are part of designated cash flow or fair value hedging relationships under GAAP, CICA handbook section 3865. For a Fair Value Hedge, also report the Balance Sheet Value of the hedged item. For a Cash Flow Hedge the Balance Sheet Value of the hedged item should be reported in column 09.

## - Column 07 – FV Option

Report the Balance Sheet Value of investments designated as Held for Trading ("Fair Value Option") under GAAP, CICA Handbook Section 3855.19 (f) (ii).

## Column 09 – Amortized Cost

Report the Balance Sheet Value of investments measured using amortized cost including investments classified as Held to Maturity under GAAP, CICA Handbook Section 3855.19 (g), Cash Flow Hedges, and the Balance Sheet Value of Real Estate Investments.

## Column 12 – Balance Sheet

Sum of columns 01, 03, 05, 07, and 09.

## Page 40.07 - Column 15 – Realized Gains (Losses)

Record all pre-tax realized gains and losses on the sale of investments, hedge ineffectiveness, any permanent write-down of investments, including impairment losses on investments classified as Available for Sale, and all allowances for loan impairments.

## - Column 16 – Income excluding FV Option

Record pre-tax income from investments including interest income, dividend income, unrealized fair value gains (losses) from items classified as Held for Trading & Fair Value Hedges and amortization. Do not include income from fair value gains (losses) for investments in column 07 FV Option.

## Column 19 – Unrealized Gain/Loss From FV Option

Record pre-tax unrealized gains (losses) on investments recorded in column 07 FV Option designated as Held for Trading ("Fair Value Option") under GAAP, CICA Handbook Section 3855.19 (f) (ii).

#### Aggregate Holdings

## **<u>Page 40.07</u>** - Lines 01 and 02 – Deposits, Bonds and Debentures

Include items such as Treasury Bills, commercial paper, short-term unsecured promissory notes issued by financial institutions and industrial corporations, interest bearing deposits with a deposit-taking institution, bank deposit certificates, trust company guaranteed investment certificates, bonds and debentures.

Deposits, bonds and debentures that mature, or can be repurchased by the issuing company, in one year or less must be recorded on Line 01. All others (including perpetual bonds) must be included on Line 02.

#### - Lines 03 and 04 – Mortgage Loans

Report only those residential and commercial mortgage loans where the total value of the loan(s) outstanding on the property is less than 75% of the market value of the property at the time of writing the loan on line 03. All other mortgages must be recorded on line 04.

The balance sheet value reported for each mortgage loan is the net balance sheet value after deducting any allowance for loan impairment.

# Page 40.07 - Lines 10 and 11 – Preferred Shares

Record preferred shares that are treated as debt under GAAP on line 10 and all other preferred shares on line 11.

## - Line 20 – Investment Real Estate

Complete each column for all Investments in Real Estate reported on Page 40.70. See also instructions for Page 40.70.

## - Line 30 – Other Investments

Complete each column for all investments reported on Page 40.80. See also instructions for Page 40.80.

## - Line 39 – Total Investments

Amount reported in column 12 must equal page 20.10, line 19, column 01.

## - Line 40 – Out of Canada

The following criteria should be used to determine whether an investment should be classified as "Out of Canada":

- Cash/deposits held through a Canadian financial institution located outside Canada (e.g. U.S. branch) or through a foreign financial institution.
- Securities where the instruments are physically located outside Canada (e.g. with foreign depositories/custodians).
- "book-based only" securities held/cleared through a foreign depository (e.g. the Depository Trust Company) where either:
  - 1) the insurer/owner is a direct member of the foreign depository; or
  - 2) the financial institution custodian that represents the insurer, and that is a direct member of the foreign depository, is not a Canadian financial institution located in Canada.
- Mortgage loans on property physically located in Canada where documentation evidencing indebtedness is located outside Canada.
- Mortgage loans on property physically located outside Canada.
- Real estate physically located in Canada where documentation evidencing ownership is located outside Canada.
- Real estate physically located outside Canada.
- Other investments physically located in Canada where documentation evidencing ownership/indebtedness is located outside Canada.
- Other investments physically located outside Canada.

# Page 40.07 - Line 40 – Out of Canada (cont'd)

Investments not meeting these criteria should not be included.

Only column 12 is to be completed for this item.

Record the total balance sheet value of all investments included in Total Investments (Line 39) that are held outside of Canada in column 12.

The total **balance sheet** value of invested assets out of Canada (column 12) will agree with the amount reported on page 90.21, line 19 where completed. See detailed instructions for page 90.21 to determine whether page 90.21 needs to be completed.

## - Line 41 – Foreign Pay Securities

Investments in Canadian and foreign bonds, debentures, shares and other investments whose principal, interest, dividends or payments are denominated in a currency other than Canadian dollars.

Only column 12 is to be completed for this item. Record the total balance sheet value of all investments included in Total Investments (Line 39) that are in Canadian and foreign bonds, debentures, shares and other investments whose principal, interest, dividends or payments are denominated in a currency other than Canadian dollars.

## Individual Holdings

This section is to be completed for all investments except Government Grade Investments. (For the definition of Government Grade Investments see Page 30.71 – Capital Required for Balance Sheet Assets – Lines 03 to 22, 50 – Grading of Investments and Receivables: Government Grade).

# - Lines 50 and 51 – Largest and 2<sup>nd</sup> Largest Exposure to an Entity or Connected Group

Record the largest (and second largest) exposure to an entity or a connected group of entities that is not a government grade investment.

The exposure is the sum of all loans to and investments in (including debt, equity and derivative securities) that entity or connected group of entities.

## Page 40.07 - Lines 50 and 51 – Largest and 2<sup>nd</sup> Largest Exposure to an Entity or Connected Group (cont'd)

An entity is connected with another entity in respect of loans if any 2 of the following 3 conditions are or would be met:

- the source of repayment of the loans would be wholly or substantially dependent on a common source of money;
- the loans would be, in substance, a single loan or would substantially serve the same purpose in the same or a related transaction;
- the loans would be dependent on the same security.

# - Lines 60 and 61 – Largest and 2<sup>nd</sup> Largest Exposure to a Pooled Holding

Pooled holdings are investments in a unit of a composite pool of investments. It includes a company's investments in mutual funds, segregated funds, MBS securities, and other similar securitized assets.

Investments in pooled holdings must be recorded on those lines that best describe the underlying assets of the pool. For example, a \$100 investment in a mutual fund that in turn invests:

- entirely in bonds, 20% short term and 80% long term, will be recorded as \$20 on line 01 and \$80 on line 02.
- 40% of its assets in long term bonds and 60% of its assets in common shares will be recorded as \$40 on line 02 and \$60 on line 15.

The investment objectives of the fund may be used as a proxy for determining the composition of the investments provided that the fund has a history of investing in accordance with its investment objective.

Record the largest (and second largest) investment in any one or group of related mutual funds or other pooled holdings that is not a government grade investment. A fund or other pooled holding is related when the management or ownership of the pooled holding is common.

## <u>Page 40.10</u> - Insurers incorporated in Quebec - Summary of Investments

Investments in subsidiaries or affiliates are to be reported on Page 50.40 and <u>not</u> in this Summary.

For each investment category listed in the summary the balance sheet value of the total investments should be reported in the columns based on their classification under CICA handbook section 3855.

Quebec regulated insurers should refer to the notice about « Fair Value Option » allowing financial intruments to be designated as « Held for Trading » on their initial mesurement. Bulletin de l'Autorité des marchés financiers :section financial institutions, 2006-09-15, Vol. 3 n°37.

## - Column 10 – Held for Trading

Report the balance sheet value of investments classified as Held for Trading under GAAP, CICA Handbook Section 3855.19(f)(i).

## - Column 12 – Available for Sale

Report the balance sheet value of investments classified as Available for Sale under GAAP, CICA Handbook Section 3855.9(i), including items that are measured at Amortized Cost.

## <mark>- Column 14 – Hedges</mark>

Report the Balance Sheet Value of derivative instruments that are part of designated cash flow or fair value hedging relationships under GAAP, CICA handbook section 3865. For a Fair Value Hedge, also report the Balance Sheet Value of the hedged item. For a Cash Flow Hedge the Balance Sheet Value of the hedged item should be reported in column 18.

## <mark>- Column 16 – FV Option</mark>

Report the Balance Sheet Value of investments designated as Held for Trading ("Fair Value Option") under GAAP, CICA Handbook Section 3855.19 (f) (ii).

## <mark>- Column 18 – Amortized Cost</mark>

Report the Balance Sheet Value of investments measured using amortized cost including investments classified as Held to Maturity under GAAP, CICA Handbook Section 3855.19 (g), Cash Flow Hedges, and the Balance Sheet Value of Real Estate Investments.

# Page 40.10 - Column 20 – Balance Sheet Value

Sum of columns 10, 12, 14, 16, and 18.

## - Column 22 – Income excluding FV Option

Record pre-tax unrealized gains (losses) on investments recorded in column 10, "Held for Trading", interest income, dividend income, and amortization. Do not include pre-tax unrealised gains (losses) on investments recorded in column 16, "Fair Value Option".

## -Column 24 – Recognized Gains (Losses)

Record all pre-tax recognized gains and losses on the sale of investments, hedge ineffectiveness, any permanent write-down of investments, including impairment losses on investments classified as Available for Sale, and all allowances for loan impairments.

#### Column 26 – Gain/Loss from FV Option

Record pre-tax unrealized gains (losses) on investments recorded in column 16, Fair Value Option (designated as Held for Trading) under GAAP, CICA Handbook Section 3855.19 (f) (ii).

## - Line 61 - Other Investments

Only income from investments normally reported on page 40.10, column 10 to 20 is to be reported on line 61, columns 22 to 26.

"Other Revenue" is to be reported on page 20.30, line 43 and not as "Other Investment " on page 40.10

#### - Line 99 - Total Foreign Pay Securities

This line requires the total balance sheet value for all Canadian and foreign bonds, debentures, shares and other investments whose principal, interest, dividends or payments are denominated in a currency other than Canadian. This information will allow the monitoring of an insurer's exposure in non-Canadian pay securities.

Insurers should contact their primary Regulator regarding restrictions or limitations on investments in foreign pay securities.

# <u>Page 40.20</u> - Insurers incorporated in Quebec - Term Deposits

Term deposits normally include items such as Treasury Bills and commercial paper. Term deposits could include, for example, an interest bearing deposit with a bank or other financial institution for a specific minimum period, not exceeding five years. This would include bank deposit certificates, trust company guaranteed investment certificates, etc. Commercial paper could include short-term unsecured promissory notes issued by financial institutions and industrial corporations. Other instruments of indebtedness, apart from mortgages, should be included with "Bonds and Debentures".

## Pages 40.30 and 40.35 - Insurers incorporated in Quebec - Bonds and Debentures

Bonds and Debentures must be listed alphabetically within each currency of payment and under the following categories:

Government	<ul> <li>Canada-Federal</li> <li>Canada-Provincial</li> <li>United States of America</li> </ul>			
	- Other			
Municipal				
Public Authority				
School	•			
Corporate				
Other				

Each category must be subtotalled. The subtotals, when combined from Pages 40.30 and 40.35, must agree in total with the corresponding categories on Page 40.10.

Investments in perpetual bonds must be included with bonds and debentures maturing in more than five years, on Page 40.35.

## Pages 40.40 and 40.45 - Insurers incorporated in Quebec - Mortgage Loans

In listing the details of their mortgage portfolios, insurers are to list insured and uninsured mortgages separately.

The balance sheet value reported for each mortgage loan is the balance sheet value after deducting any allowance for loan impairment.

Mortgage loans that are not "residential" should be further identified with the letter "N". ("Residential" mortgage loans are those held in one-to-four unit residential buildings).

## Pages 40.50 and 40.60 - Insurers incorporated in Quebec - Preferred and Common Shares

Investments in subsidiaries and affiliates are not to be included in these exhibits, but are to be reported on Page 50.40.

# Page 40.70 - Real Estate

The split between investment real estate and real estate for own use as shown on this page is in keeping with the balance sheet treatment under GAAP.

If an insurer owns a building, part for its own use and part for investment purposes, then if the usage in part multiplied by the cost of the building:

- is not material, report the entire amount as an Investment Real Estate or as Real Estate For Own Use, depending on its main use;
- is material, the total amount must be apportioned between Investment Real Estate and Real Estate For Own Use segments according to the actual use of the property.

Insurers should indicate which of the real estate items have been allocated between the two categories.

Properties should be listed in accordance with the province or country of location, with sub-totals where applicable. The list should follow the alphabetical order of provinces and territories first, followed by countries other than Canada, where applicable.

Amounts shown in columns 04, 05 and 06 are gross (i.e. including encumbrances, which are shown separately on Page 20.20, line 11).

#### Page 40.80 - Other Investments

Include, where permitted, investments in non-financial investments including, but not limited to, precious metals, coins and art.

Also include positive mark to market derivative instruments and other recognized financial investments not included in other investment categories including letters of credit and guarantees. For these items attach to the insurer's Annual Return the following details for each type and class of instrument held during the year and outstanding at year-end:

- notional amount and remaining term to maturity;
- the underlying assets;
- whether it is an over-the-counter or exchange traded instrument;
- whether the instrument is held for
  - (i) trading purposes
  - (ii) hedging purposes, or
  - (iii) other purposes; and
- the maximum credit risk exposure for each type of instrument.

The notional principal amount is:

- the stated notional amount, except where the stated notional amount is leveraged or enhanced by the structure of the transaction. In these cases, insurers must use the actual or effective notional amount when determining potential future exposure;
- nil, where the credit exposure on single currency floating/floating interest rate swaps would be evaluated solely on the basis of their marked-to-market value; or
- for contracts with multiple exchanges of principal, the sum of the remaining payments.

See also Section IX, Appendix (k) or contact your primary Regulator for further information.

Do not include investments in Subsidiaries, Affiliates, Partnerships, Real Estate For Own Use, etc., on this page.

# <u>Page 50.20</u> - Receivable from/payable to Agents and Brokers

To be completed for direct written business only. All amounts receivable from/payable to <u>affiliated</u> brokers must be shown with amounts receivable from/payable to subsidiaries and affiliates on Page 50.40, not on this page.

Only information respecting agents and brokers whose accounts represent 10% or more of the total year-end amounts receivable/payable, or whose annual premium volume is 10% or more of total direct written premium, needs to be listed separately.

The number of agents and brokers reported must be the total of all agents and brokers (other than affiliates) that have written at least one policy during the statement year.

#### - Other Receivables

Only amounts that represent 10% or more of the total (Line 89) need to be listed separately.

# <u>Page 50.30</u> - Receivable from/payable to Other Insurers

Amounts receivable from/payable to other insurers should include accounts from insurance companies, reinsurers, mutuals, and other insurers where the amounts represent more than 10% of the total. Accounts representing less than 10% may be aggregated. However, amounts receivable from/payable to subsidiary or affiliated insurers must be shown on Page 50.40 in detail.

Amounts due from/to reinsurance intermediaries must be disclosed for each insurer, and not as agent or broker balances.

#### <u>Page 50.40</u> - Investment in and Amounts receivable from/payable to Subsidiaries, Affiliates and Partnerships

Refer to the definition of the terms "subsidiary" and "affiliate" in Section III.

#### - Column 01 – Name of Entity and Description of Shares

For financial institutions incorporated in Canada, include the name of the entity and a description of the:

- share (preferred/common, conversion/redemption rights);
- loan or advance (secured/subordinated, conversion/redemption rights, maturity); and,
- receivable (insurance/reinsurance/trade)

for any subsidiary or affiliate that is a financial institution (bank, insurance, loan or trust corporation) incorporated in any jurisdiction within Canada.

For all other entities, include the above details for any subsidiary or affiliate that is a financial institution incorporated outside Canada, and all subsidiaries, affiliates and partnerships that are not financial institutions, regardless of the jurisdiction of incorporation.

#### - Column 03 - % Owned

Means the percent of the total shares of the type being reported, that the investment represents.

# - Columns 02 - 08 - Investments

Investments in common and preferred shares of, and loans or advances to subsidiaries, affiliates or partnerships must be identified separately. For loans to subsidiaries, affiliates or partnerships complete columns (06), (07) and (08) only.

# - Column 09, 10, 11 – Receivable/Payable

Amounts receivable from/payable to subsidiaries and affiliates arising out of insurance, reinsurance and any other activities must be shown for each company.

# Page 50.50 - Other Assets and Liabilities, and Unrecognized Assets and Liabilities

#### Other Assets

#### - Line 38 – Miscellaneous Assets

Includes automobiles, furniture and equipment, leasehold improvements, computer hardware and software, prepaid expenses and all "Other Assets" (recorded on Page 20.10, line 88) except Goodwill and Other Intangible Assets.

#### **Other Liabilities**

# - Line 50 – Self-Insured Retention Portion of Unpaid Claims

Report any Self-Insured Retention (SIR) portion of unpaid claims. For additional information on Self-Insured Retention, refer to Section IV of the Instructions.

#### - Line 60 – Subordinated Indebtedness

Report all indebtedness of the insurer that, by its terms, provides that the indebtedness will, in the event of the insolvency or winding-up of the insurer, be subordinate to all policy liabilities of the insurer and all other liabilities except those that by their terms, rank equally with or are subordinate to such indebtedness.

Note that any repayment of Subordinated Indebtedness must first be authorized by the insurer's primary Regulator.

# - Lines 70 and 71 – Preferred Shares - Debt

Include only those preferred shares that are to be treated as debt under the CICA Handbook. Preferred shares considered to be equity are recorded on page 20.20, line 41.

#### - Line 88 – Miscellaneous Liabilities

Include items such as: negative mark to market derivative instruments, non-owned assets held on deposit by the insurer, and all Other Liabilities recorded on Page 20.20, line 28, except the Self-Insured Retention Portion of Unpaid Claims, Subordinated Indebtedness and Preferred Shares – Debt.

#### Page 50.50 - Line 88 – Miscellaneous Liabilities (cont'd)

For negative mark to market derivative instruments, attach to the insurer's Annual Return the following details for each type and class of instrument held during the year and outstanding at year-end:

- notional amount and remaining term to maturity;
- the underlying assets / liabilities;
- whether it is an over-the-counter or exchange traded instrument;
- whether the instrument is held for
  - (i) trading purposes
  - (ii) hedging purposes, or
  - (iii) other purposes; and
- the maximum credit risk exposure for each type of instrument.

#### The notional principal amount is:

- the stated notional amount, except where the stated notional amount is leveraged or enhanced by the structure of the transaction. In these cases, insurers must use the actual or effective notional amount when determining potential future exposure;
- nil, where the credit exposure on single currency floating/floating interest rate swaps would be evaluated solely on the basis of their marked-to-market value; or
- for contracts with multiple exchanges of principal, the sum of the remaining payments.

See also Section IX, Appendix (k) or contact your primary Regulator for further information

# <u>Page 50.50</u> – Other Assets and Liabilities, and <u>Unrecognized</u> Assets and Liabilities (cont'd)

# Unrecognized Assets And Liabilities

# - Lines 91 and 95 – Unrecognized Assets and Liabilities

Record the notional principal amount of all <u>unrecognized</u> assets and liabilities (except those reported on page 70.40 – Non-owned Assets held on Deposit and Letters of Credit) and attach the following additional information with the insurer's Annual Returns.

The notional principal amount is:

- the stated notional amount, except where the stated notional amount is leveraged or enhanced by the structure of the transaction. In these cases, insurers must use the actual or effective notional amount when determining potential future exposure;
- nil, where the credit exposure on single currency floating/floating interest rate swaps would be evaluated solely on the basis of their marked-to-market value; or
- for contracts with multiple exchanges of principal, the sum of the remaining payments.

The following details for each type and class of instrument held during the year and:

- a) outstanding at year-end:
  - notional amount and remaining term to maturity;
  - the underlying assets / liabilities;
  - whether it is an over-the-counter or exchange traded instrument;
  - whether the instrument is held for
    - (i) trading purposes
    - (ii) hedging purposes, or
    - (iii) other purposes; and
  - the maximum credit risk exposure for each type of instrument.
- b) not outstanding at year end:
  - notional amount;
  - the underlying assets / liabilities;
  - whether it is an over-the-counter or exchange traded instrument; and
  - whether the instrument was held for:
    - (i) trading purposes
    - (ii) hedging purposes, or
    - (iii) other purposes.

See also Section IX, Appendix (k) or contact your primary Regulator for further information.

# Page 60.10 - Unearned Premiums

Unearned premiums established at year end must be sufficient to cover future claims and general expenses related to the unexpired term of the policies. The method of calculation adopted should be applied consistently from year to year.

The unearned premiums and mid-terminal reserves for accident and sickness business must be included with unearned premiums throughout the return.

For additional information on the classes of insurance, refer to Section IX, Appendix (e).

#### Page 60.30 - Claims and Adjustment Expenses - Paid, Current Year and Unpaid, Current and Prior Year

Classes of insurance must not be grouped in this exhibit.

The amounts shown must include both the internal and external claims adjustment expenses. Based on historical experience and other factors that may affect the ultimate incurred claims, a provision must be included for IBNR claims.

#### - Column 05 and 06

These two columns must include the gross amount of salvage and subrogation estimated to be recoverable from third parties (see summary and example below).

#### - Column 07

This column must include the portion of salvage and subrogation estimated to be recoverable from third parties that will be payable to reinsurers in accordance with their treaties (see summary and example below).

#### **Reporting salvage and subrogation - summary:**

Item	Where reported
Gross amount of recoverables from third parties	Page 20.10, line 37 Page 60.30, column 05 or 06 Page 60.41*
Portion of recoverables due to reinsurers	Page 20.10, line 31 Page 60.30, column 07 Page 60.41*

\* or Page 60.40 if the insurer is not reporting Unpaid Claims on a discounted basis

# Page 60.30 - Claims and Adjustment Expenses - Paid, Current Year and Unpaid, Current and Prior Year (cont'd)

#### **Reporting salvage and subrogation - example:**

Assuming an insurer has an unpaid claim of \$100,000 and an estimated salvage of \$20,000, the following is an example of the reporting method if the insurer has a 60-40 quota-share treaty with a reinsurer:

Amount reported	100 000	32 000	20 000	80 000	32,000	48 000
Salvage		(8 000)	20 000	(20 000)	(8 000)	(12 000)
Claims	100 000	40 000		100 000	40 000	60 000
	Unpaid Claims & Adjustment Expenses 20.20.13.01	Recoverables on Unpaid Claims 20.10.31.01	Other Recoverables 20.10.37.01	Unpaid Claims - Direct or Assumed 60.30.89.05 or 60.30.89.06	Unpaid Claims - Ceded 60.30.89.07	Unpaid Claims - Net 60.30.89.08

#### - Column 09

This column must include the total unpaid claims (claims, adjustment expenses, and IBNR), net of reinsurance, as reported on the Annual Return for the prior year (lines 51 and 52, column 12, Page 60.41, or Page 60.40 if the insurer is not reporting Unpaid Claims on a discounted basis).

#### - Column 10

This column must include the net payments made during the current year relative to all claims and adjustment expenses for all prior years.

# <u>Page 60.30</u> - Column 13 – Investment Income on Unpaid Claims of Prior Years (to be completed by insurers reporting Unpaid Claims on a discounted basis)

Amounts reported in this column are equal to the product obtained by multiplying the average for the year of net unpaid claims and adjustment expenses of prior years (the average of columns 09 and 15) times the Investment Yield (Page 10.60, line  $46^{(1)}$ ).

If the following formula applies:

(A+B+C+D-E-F) > Average Total Investments

(Page 20.10, sum of lines 01, 02 and 19)

where:

A = the average  $net^{(2)}$  unpaid claims and adjustment expenses for the year B = the average  $net^{(2)}$  unearned premiums for the year

C = the average unearned commissions for the year

D = the average premium deficiency for the year

E = the average deferred policy acquisition expenses for the year, and

F = the average receivables from agents and brokers, policyholders and

instalment premiums for the year.

Then the Investment Yield should first be multiplied by the following ratio:

(1) Insurers may select a different methodology/investment yield than this default (e.g. companies allocating specific assets to their liabilities or with a material amount of investment income from Facility Association).

(2) Net of reinsurance and salvage and subrogation.

# - Column 15

This column must include the total unpaid claims and adjustment expenses, net of reinsurance, determined at the end of the current period, for all prior years.

#### **Classes of Insurance**

For additional information on the classes of insurance, refer to Section IX, Appendix (e).

# <u>Page 60.40</u> - Net Claims and Adjustment Expenses-Run-off

The excess or deficiency in the unpaid claims must be calculated at each prior year end.

Amounts shown on lines 50-59 must be taken from the insurer's claims records for the current year, and allocated by loss year. Lines 01-49 must be completed on the basis of the figures entered in the Annual Returns of the prior years, unless there has been a prior period adjustment. The prior period adjustments must be allocated to the proper loss year.

Incurred but not reported (IBNR) claims must include their related adjustment expenses allocated to each of the years included in the run-off.

IBNR has been clarified in Section III. Regulators are aware that the term may have had somewhat different meanings for different insurers. For example, some insurers consider this amount to be pure IBNR, that is, only estimated claims that have not been reported. Others may include some "development" reserves or other bulk adjustments. Regulators require that the amount reflect both elements.

The allocation of the total amount of IBNR by year will allow Regulators to review the appropriateness of the allocations and to monitor changes over time.

Just as paid claims are allocated by year of loss in this exhibit, internal adjustment expenses applicable to the settlement of prior years' claims must be allocated to the proper year of loss.

The amount of the Excess or (Deficiency) for a particular year of loss or period is determined by taking the opening unpaid claims and IBNR as shown at the top of the column and subtracting the subsequent paids and the ending unpaid claims and IBNR.

The Excess or (Deficiency) ratio is determined by dividing the amount of the Excess or (Deficiency) by the opening unpaid claims and IBNR. The ratio should be limited to two decimal points.

#### <u>Page 60.41</u> - Net Claims and Adjustment Expenses-Run-off - Discounted (to be completed by insurers reporting Unpaid Claims on a discounted basis)

The basis for actuarial liability valuation will be altered as a result of the new financial instruments standards commencing in 2007, and it will require several years to accumulate complete run-off information on the new basis. It is recognized that for a period of time there will be data inconsistencies in the run-off data. The inconsistencies will be small in comparison to the potential development in unpaid claims and, therefore, the information in this exhibit will continue to be valuable and all columns in this exhibit should be completed.

# Page 60.41 - Net Claims and Adjustment Expenses-Run-off - Discounted (cont'd)

Amounts shown on lines 50-53 must be taken from the insurer's claims records for the current year, and allocated by loss year. Lines 01-49 must be completed on the basis of the figures entered in the Annual Returns of the prior years, where applicable, unless there has been a prior period adjustment. The prior period adjustments must be allocated to the proper loss year.

Incurred but not reported (IBNR) claims must include their related adjustment expenses allocated to each of the years included in the run-off.

IBNR has been clarified in Section III. Regulators are aware that the term may have had somewhat different meanings for different insurers. For example, some insurers consider this amount to be pure IBNR, that is, only estimated claims that have not been reported. Others may include some "development" reserves or other bulk adjustments. Regulators require that the amount reflect both elements.

The allocation of the total amount of IBNR by year will allow Regulators to review the appropriateness of the allocations and to monitor changes over time.

Just as paid claims are allocated by year of loss in this exhibit, internal adjustment expenses applicable to the settlement of prior years' claims must be allocated to the proper year of loss.

The amount of the Excess or (Deficiency) for a particular year of loss or period is determined by taking the opening unpaid claims and IBNR as shown at the top of the column and subtracting the subsequent paids and the ending unpaid claims and IBNR, and adding the related investment income.

The Excess or (Deficiency) ratio is determined by dividing the amount of the Excess or (Deficiency) by the opening unpaid claims and IBNR. The ratio should be limited to two decimal points.

# Page 60.41 - Lines 13, 23, 33, 43 and 53 - Investment Income from Unpaid Claims & Adjustment Expenses (including IBNR)

Report the product obtained by multiplying the average net<sup>(1)</sup> unpaid claims and adjustment expenses (including IBNR) for the year times the Investment Yield selected for the particular calendar year. For the current reporting year, the sum of all prior accident years' investment income allocation on exhibit 60.41, column 10, line 53 must equal the investment income allocated to prior years' claims for the year on exhibit 60.30, column 13, line 89. (Refer also to the Instructions for Page 60.30, column 13, where applicable).

(1) Net of reinsurance and salvage & subrogation.

# Page 60.50 - Adjustment Expenses

As mentioned in connection with completing Page 60.40, the portion of internal adjustment expenses applicable to prior years' claims must be written off against previously established loss provisions. Again, in principle, this is no different from external adjustment expenses, although it may be somewhat more difficult to determine how internal adjustment expenses must be apportioned to prior years' claim provisions. Insurers should have their cost accounting systems set up to estimate actual internal claims adjustment expenses, by year of claim. Alternatively, insurers may wish to allocate internal adjustment expenses in respect of prior years' losses on the basis of actual losses paid by year of claim.

Reinsurers that reimburse adjustment expenses on claims ceded to them must report these reimbursements as "claims incurred" (not as "adjustment expenses" in this exhibit).

Lines 02 and 20 are used to adjust lines 01 and 19 for the effect of reinsurance ceded. Lines 01 and 19 include direct and assumed adjustment expenses.

Line 59 relates to the adjustment expenses included on line 10 of the Statement of Income.

Line 69 must agree with Page 80.20, line 89, column 06.

# <u>Page 67.10</u> - Provincial and Territorial Exhibit of Premiums Written

# - Line 01 – Licensed (Y/N)

Insurers must answer "Yes" or "No" in each of Columns 01-14, based on whether or not the insurer was licensed in the applicable jurisdiction as at the end of the year of the Annual Return.

# - Line 99 - Dividends

Dividends must be reported on a direct incurred basis.

# Pages 67.10 to 67.30 - Provincial and Territorial Exhibits of Premiums and Claims

Insurers are reminded that, unless otherwise directed, a copy of the Annual Return must be filed with all provinces and territories where the insurer is licensed. In addition, a copy of Pages 67.10, 67.20 and 67.30 must be filed with provinces and territories for which direct premiums and/or incurred claims are shown and in which the insurer is not licensed.

For instructions on the completion of Page 67.15, refer to Section V, *Jurisdictional Requirements*: Quebec (V-6)

For additional information on the classes of insurance, refer to Section IX, Appendix (e).

# Page 70.10 - Premiums and Claims - Reinsurance Ceded

The purpose of this exhibit is to compare claims incurred for each type of reinsurance ceded arrangement to premiums earned in respect of each arrangement. In this way the Regulator can assess the approximate profitability of business ceded to reinsurers by type of reinsurance and by major line of business.

Although this exhibit is best completed line by line for each of the regular classes of insurance, any reasonable groupings by lines of business will be acceptable.

# **<u>Page 70.10</u>** - **Premiums and Claims - Reinsurance Ceded** (cont'd)

Each column is intended to capture premiums earned and claims incurred data concerning a distinct type of reinsurance arrangement entered into by the insurer. For example, in column 02, all the premiums earned for quota share treaties should be included even if there is more than one quota share treaty. The other columns should be completed in the same manner, i.e. all premiums earned for surplus treaties are included together in column 03, etc.

The amount reported on line 89, column 06, "total premiums earned" must be equal to the total premiums ceded to reinsurers plus or minus the change in reinsurance ceded unearned premiums for the year.

# Page 70.21 - Summary of Reinsurance

Regulators must be in a position to ascertain that the business ceded/assumed is actually being reported in the Canadian Annual Return of the assuming/ceding insurer. The objective of this exhibit is to ensure that no reinsurance transaction has the effect of reducing the amount of assets that should properly be available in Canada for the protection of policyholders. Insurers must report each affiliated company separately.

In respect of business ceded to/assumed from non-affiliated insurers, where ceded/assumed premiums ceded/assumed claims incurred by a single insurer are less than 10% of the total ceded/assumed premiums ceded/assumed claims incurred, such business can be grouped and shown together on a single line.

With respect to reinsurance of out-of-Canada business only, reinsurers regulated in an OECD country may be recognized as "registered" on the basis of financial soundness, provided that the reinsurance agreements are recognized by the regulatory agencies of the countries in question. The primary Regulator (in Canada) retains the authority to disqualify such reinsurance if not satisfied with the financial condition of the reinsuring company.

Line 91, columns 02 to 05 must equal the corresponding amounts reported on Page 70.38, line 89, columns 02 to 05.

# <u>Page 70.35</u> - Insurers licensed in Quebec - Reinsurance Ceded to Unregistered Insurers

The margin to be added in column 06 is in respect only of unearned premiums ceded to, and outstanding losses recoverable from unregistered assuming insurers. The margin requirement does not apply to additional policy provisions, to amounts receivable from the assuming insurer, or to actuarial liabilities of non-cancellable accident and sickness policies and reserves for instalment claims under accident and sickness policies.

The figures shown in column 07, "Receivable from Assuming Insurer", must include all receivables except for "Outstanding losses recoverable from assuming insurer" shown in column 05.

"Payable to assuming insurer" in column 08 must include deposits held in the insurer's bank account; these deposits must also be reported as other liabilities on page 50.50.

Non-owned deposits held on behalf of an unregistered assuming insurer and reported in column 12 of the exhibit must be valued at market value as at the end of the statement year, including the amount of investment income due and accrued respecting these deposits.

Letters of credit (LOC) available for use, to the extent and under the conditions set out by Quebec must be reported in column 13. For additional information on LOC/Deposits of Reinsurers, refer to Section IV, "Special Topics", and Section V, "Jurisdictional Requirements" (Quebec).

# <u>Page 70.38</u> – Reinsurance Ceded to Unregistered Insurers

With respect to reinsurance of out-of-Canada business only, reinsurers regulated in an OECD country may be recognized as "registered" on the basis of financial soundness, provided that the reinsurance agreements are recognized by the regulatory agencies of the countries in question. The primary Regulator (in Canada) retains the authority to disqualify such reinsurance if not satisfied with the financial condition of the reinsuring company.

# - Column 06 – 10% Margin on unearned premiums and outstanding losses recoverable

This margin is only in respect of unearned premiums ceded to, and outstanding losses recoverable from unregistered assuming insurers.

# - Column 07 – Receivable from assuming insurer

Include all receivables except for "Outstanding losses recoverable from assuming insurer" recorded in column 05.

#### Page 70.38 - Column 08 – Payable to assuming insurer

Include deposits held in the insurer's bank account; these deposits must also be reported as "Miscellaneous Other Liabilities" on page 50.50, line 88.

Amounts payable to assuming reinsurers may be deducted from amounts receivable and recoverable in the calculations in columns 14 and 15 only where there is a legal and contractual right of offset.

Federally registered insurers are not to include any amounts payable to affiliated assuming insurers.

#### - Column 12 – Non-owned deposits held as security from assuming insurer

Complete only in cases where a special trust account under the control of the primary Regulator has been established with a Canadian trust company in respect of the unregistered reinsurance under a "trust" agreement prescribed by the Regulator.

Non-owned deposits held on behalf of an unregistered assuming insurer must be valued at market value as at the end of the statement year, including the amount of investment income due and accrued respecting these deposits.

#### - Column 16 – Letters of credit held as security from assuming insurer

LOC's may be used to reduce capital otherwise required up to a limit of the total margin on unearned premiums and outstanding losses recoverable (column 06, line 89). For additional information on LOC/Deposits of Reinsurers, refer to Section IV, *Special Topics*.

# Page 70.40 - Non-owned Assets held on Deposit and Letters of Credit

Securities held as non-owned deposits should be valued at market value as at the end of the statement year, including the amount of investment income due and accrued respecting these securities.

All other unrecognized assets and liabilities are to be recorded on Page 50.50.

#### Page 80.10 - Commissions

Insurers are required to calculate and report separately deferred commissions, and unearned commissions for the classes of insurance listed on this page. Net commissions attributable to the year must also be reported for these classes.

Deferred commissions must include commissions paid on direct business and on reinsurance assumed.

Unearned commissions arise from commission revenue on reinsurance ceded. The total unearned commissions must be reported on Page 20.20, line 14.

The split of net commissions (line 79, column 10) between commission expense and commission income, is to be shown on lines 80 and 81.

All commissions, including contingent and other non-deferrable commissions, must be shown on this page. Non-deferrable commissions are those that cannot be readily identified as exclusively relating to and varying with the acquisition of premiums and therefore are not recoverable.

All commissions in respect of individual non-cancellable accident and sickness policies and any renewal commission in respect of other accident and sickness policies must be reported as other non-deferrable commissions.

# Page 80.20 - Expenses – Insurance Operations

An expense classification is included in Section IX - Appendix (b).

This exhibit should be completed on an incurred basis for all expenses including internal adjustment expenses.

Insurers should analyse their operations to identify all operating expenses that are allocable to the acquisition of business. Accordingly, acquisition expenses that are deferred at the end of the year are to be reported in column 01; acquisition expenses that are not deferred or are attributable to the current year, including deferrals of the previous year, are to be reported in column 02. Expenses that should be reported in column 02 include:

- Expenses that vary directly with and are directly related to the acquisition of business (new and renewal premiums written during the accounting period) and can be associated directly with specific revenues; for example:
  - Agency
  - Inspections and investigations
  - Management fees
  - Regulatory assessments
- Other expenses which may vary indirectly with the acquisition of business but are directly related to the premiums written during the period in which they are incurred; for example:
  - Salaries and Employee Benefits of employees in underwriting and policy issue
  - Occupancy
  - Bureaus and Associations
  - Information Technology

Expenses that are not allocated to the acquisition of business (excluding adjustment and investment expenses) are to be reported in column 04.

Any management agreement that also provides for underwriting service and/or claims service and/or investment service must be apportioned to the appropriate type of operating expense on a reasonable basis. Management fees included on line 60 relate to services provided by outside parties, whether with related or non-related parties.

Line 89, column 06 must agree with Page 60.50, line 69.

# Page 90.15 and 90.62 – Out-of-Canada Operations

All insurers that transacted any business in any foreign jurisdiction are required to complete Pages 90.15 and 90.62.

#### Pages 90.21 to 90.70 - Out of Canada

For most insurers that transact out of Canada business, the amount of foreign business is not of significance in assessing their overall financial condition. Therefore, rather than requiring <u>all</u> insurers to complete the out of Canada portion of the Annual Return, the following guidelines should be considered:

- (i) An insurer is required to complete the "Out of Canada" exhibits on Pages 90.21 to 90.70 only if its business covering risks outside of Canada constitutes more than 10 % of either gross or net claims, incurred or unpaid, or 10 % of gross or net premiums written.
- (ii) Insurers not required to complete Pages 90.21 to 90.70 should exclude those pages from their filed Annual Return.

For additional information regarding completion of Pages 90.21 to 90.70, refer to the instructions for completing corresponding exhibits for the insurer's "Total" operations.

# Page 90.21 - Assets – Out of Canada

See Instructions for Page 20.10

Investment income due and accrued (line 02), other investments (line 10), receivables (lines 20 through 27), investment in subsidiaries and affiliates (line 40), other assets (line 88), deferred policy acquisition expenses (line 43) and future income taxes (line 44) should be treated as being "In Canada" unless any one of these separate asset items *individually* represents more than five per cent of total non-consolidated assets, as reported on line 89 of page 20.10. Where an individual asset item represents more than five per cent of this sum, the criteria used to segregate "In Canada" and "Out of Canada" amounts should be used.

# Page 90.22 - Liabilities – Out of Canada

See Instructions for Page 20.20

# Page 90.23 - Statement of Income – Out of Canada

See Instructions for Page 20.30

# Page 90.64 - Net Claims and Adjustment Expenses – Run-Off – Out of Canada

See Instructions for Page 60.40

#### <u>Page 90.66</u> - Net Claims and Adjustment Expenses – Run-Off – Out of Canada Discounted

See Instructions for Page 60.41

# <u>Page 90.70</u> - Reinsurance Ceded – Out of Canada

See Instructions for <u>Page 70.38</u>, and the following comments.

# - Column 03 – Country of Business

Refers to the location of the risk. In the case where the assuming insurer participates on risks located in more than one foreign country, the countries should be identified separately and all columns completed on a country-of-business basis.

#### - Column 05 – Claims and Adjustment Expense Incurred by Assuming Insurer

Claims and adjustment expenses must include appropriate provisions for incurred but not reported (IBNR) losses.

# Page 99.10 - Affidavit Verifying Annual Return

Insurers should check with their primary Regulator for jurisdictional requirements.

# **SECTION VIII**

# Instructions

The set of Instructions issued in 1996 is a complete replacement of pages previously issued. Lines that include changes from the previous edition have been highlighted with a vertical bar in the left margin.

All readers are encouraged to completely review the 1996 edition.

The **Forms Committee** of the Canadian Council of Insurance Regulators is interested in your comments on any aspect of the Instructions. Please direct your comments to:

Office of the Superintendent of Financial Institutions Regulatory Information Division 255 Albert Street, 12th floor OTTAWA, K1A 0H2

Attention: Chairperson, CCIR Forms Committee

# **Interim and Annual Returns**

The Interim and Annual Returns also include some significant revisions for 1996; a revised edition of the Annual Return P&C-1 form was distributed to insurers in June 1996. A few minor corrections have been made to the June 1996 edition, and these are included in the *sample* Returns at the back of the Instructions (after Section X).

Most Regulators are no longer issuing "blank forms", since most insurers are expected to prepare and print Returns to conform with the standards established in the Instructions and illustrated in the *sample* Returns.

Insurers will be advised of any future changes to the Interim and Annual Returns by way of updates to the Instructions, together with copies of the applicable relacement pages for the *sample* Returns.

# Yukon

Acting Superintendent of Insurance Consumer and Safety Services C-5 Government of Yukon Box 2703 Whitehorse, YT Y1A 2C6

TEL: (867) 667-5257 FAX: (867) 667-3609 www.gov.yk.ca

# Federal

Regulatory Information Division Office of the Superintendent of Financial Institutions Canada 255 Albert Street 12th Floor Ottawa, ON K1A 0H2

TEL: (613) 990-<mark>1889</mark> FAX: (613) 991-6248 www.osfi-bsif.gc.ca The pages of the Interim Return contain the same datapoints as the corresponding pages of the Annual Return. The Annual Return Filing Specifications contained in Appendix (g) are therefore also applicable to the Interim Return with two modifications: the File Name and the Validation Report.

# File Name

The last digit of the eight-digit file name should be replaced with "1", "2" or "3" indicating the 1st, 2nd or 3rd Quarter. For example: the File Name for the First Quarter of 2008 would be: CA234081.NUM.

# Validation Report

The report for the Interim Return is the same as the Annual Return with the exception of three datapoints. For example:

Validation Report (P&C-1 Interim) ABC Insurance Company									
This report has been generated from the follo	owing data file:

# Contents:

Introduction Defining Various Forms of Data File Naming and Record Layout Crosscheck Routines File Submission Validation Report

# Introduction

These Annual Return Filing Specifications have been prepared to give detailed technical guidance to insurers and software vendors in developing systems for capturing Annual Return data for filing with Regulators.

The Specifications were designed initially for electronic filing by diskette or CD-Rom; however, they may be expanded later to include electronic filing through communication networks.

The Specifications define the characteristics of the data to be submitted and have been designed to be as generic as possible.

The American Standard Code for Information Interchange (ASCII) is used as the data representation standard. Those familiar with systems will know that ASCII can be generated by spreadsheet-based systems and by systems developed in more traditional mainframe or microcomputer-based programming environments.

Specific guidelines on how to transmit files to Regulators are also included in the Specifications.

The Specifications refer to the detailed set of Crosscheck formulae provided in the software package or on OSFI's website. These formulae are to be used as the minimum number of tests within Annual Return preparation software to pre-validate data before the file is submitted.

The Specifications are subject to revision and improvement. Any queries or suggestions should be addressed to the Regulatory Information Division of your Primary Regulator listed in Appendix (a) of Section IX.

# **Defining Various Forms of Data**

The current Annual Return form (P&C-1) consists of **numeric data** in many different formats: whole numbers; amounts rounded to thousands; decimals; ratios and percentages. In addition there is **text data** and **Yes/No answers** to questions. All data, including the required text data and Yes/No answers, will continue to be included in the hard copy Annual Return; diskette/CD-Rom filing or electronic filing via a secure means provided by their Regulator of numeric and text data is a supplement to the complete hard copy Annual Return.

The **data representation standard** used is ASCII (see previous page). Data can be assembled in ASCII format from either spreadsheets or other data processing applications.

These Specifications require that:

- a) The data reporting **file** (the complete set of data recorded on the **file**) consist of ASCII Standard Delimited Format ("SDF") fixed-length **records**;
- (b) The **file** be given a unique file name, as described under <u>File Naming and Record</u> <u>Layout</u> (see next page), to identify the insurer and the year of reporting;
- c) Each **record**, consisting of a **datapoint address** and a **numeric amount or text**, follow the record layout described under <u>File Naming and Record Layout</u> (see next page);
- d) Each **datapoint address** contained in a record be defined using the common threeelement system:

**pppp**(page) / **ll**(line) / **cc**(column) (see examples under <u>File Naming and Record Layout</u>).

As illustrated under <u>File Naming and Record Layout</u> (see next page), all numeric and text data will be represented in the file in the same formats as prescribed in the Instructions for completing the forms (i.e., figures rounded to thousands should be represented in thousands; ratios to two decimal places should be represented as such, dates should be in the dd/mm/yyyy format etc.). Negative figures in the data will be represented in the file with a leading minus sign.

Note: two "inside datapoints" are located on the Statement of Income, Page 20:30: 20304005 "Ancillary Operations Expenses"

20306005 "Income Taxes on Extraordinary Items"

# **Crosscheck Routines**

To benefit fully from receiving data on files, Regulators must be assured that the data is tested by a set of crosscheck routines. These tests should be designed to ensure that, as a minimum, the relationships of datapoints provided in the software package or on OSFI's website are tested.

Insurers who generate annual returns from their internal systems, or from purchased commercial software, should ensure that these tests are included as an integral part of the return generation programs.

# File Submission

The procedures for submitting a file to the Regulator are as follows:

The file is to be sent with the hard copy on or before the due date prescribed for the filing of the Annual Return. The file should be well protected in special-purpose diskette or CD-Rom shipping packaging.

The file must be clearly labelled with the name of the insurer, the year being reported on, the name of the file, the date the file was created and the name and telephone number of a contact person.

Suggested label:	ABC Insurance Company - 2007			
	File: CA23407A			
	Date: 28/02/2008 Phone: (416) 737-1110			
	Contact: I.M. Able			

File Transmittal Form

A "File Transmittal Form" (in the format of Appendix (h) in Section IX of these Instructions) is to be completed and submitted with the data filed with the primary Regulator and any other Regulators who may request a copy of the file.

#### Document Filing Checklist

This report lists other annual regulatory documents that have been enclosed with the filing.

#### Validation Report

This report is also to be submitted with the ASCII file and transmittal form (see next page).

# Validation Report

A **Validation Report** containing a pre-selected sample of datapoints must be generated and printed at the same time that the ASCII file is produced and filed.

The purpose of this report is to give Regulators initial assurance that the file has been produced from the same data used to generate the hard copy.

Insurers are asked to ensure that the printing of this report is incorporated into the programs written to generate the file.

The validation report is to be filed in the format below:

Validation Report (P&C-1) ABC Insurance Company

#### Introduction

The Annual Return Instructions are generally applicable to most aspects of the Interim Return.

The Instructions that follow are intended to cover only those features unique to the Interim Return. If additional information or assistance is required, the insurer's Primary Regulator should be contacted at the address listed in Appendix (a).

#### **Filing Deadlines / Requirements**

The Interim Return is to be completed and filed with the applicable Jurisdiction (Regulator) on or before the due dates as follows:

Jurisdiction (Regulator)	Hard Copy <u>Required</u>	<mark>File</mark> Required	Insurer/Reinsurer*	Period <u>Ended</u>	Due Date
Federal	No	One	Federally <b>registered</b> Insurers and reinsurers	Jan 31/Mar 31 Apr 30/June 30 July 31/Sept 30	Within 45 days Within 45 days Within 45 days
Quebec	One	One	Insurers <b>licensed</b> in Quebec, except reinsurers*	June 30	Aug 15
Quebec	One	One	Reinsurers* <b>licensed</b> in Quebec	June 30	Sept 30
Ontario	One	One	Insurers <b>incorporated</b> in Ontario	Mar 31 June 30 Sept 30	May 15 Aug 15 Nov 15
Alberta	One	One	Insurers <b>incorporated</b> in Alberta	Mar 31 June 30 Sept 30	May 15 Aug 15 Nov 15
BC	One	One	Insurers <b>incorporated</b> in BC	Dec 31/Mar 31 June 30/Sept 30	Within 45 days Within 45 days

\*Insurers whose certificates of registry are limited to reinsurance

#### **Standard Format**

Insurers are to complete the latest version of the Interim Return approved by the Canadian Council of Insurance Regulators or similar computer-generated pages that conform in appearance, size and content (where required), together with a file (where required). (See pages IX-13 and IX-23 for Filing Specifications and Filing Deadlines / Requirements).

The Interim Return includes the following pages:

Cover page	Certification
Page 20.10	Assets
20.20	Liabilities and Equity
20.30	Statement of Income
20.40	Statement of Retained Earnings; Reserves
<mark>20.42 …</mark>	Comprehensive Income (Loss) and AOCI (Loss)
30.40	*Minimum Excess Assets over Liabilities (Quebec)
30.45	*Required Margin on Net Unearned Premiums (Quebec)
30.47	*DPAE & Unearned Commission Adjustment (Quebec)
30.70	Minimum Capital Test (MCT)
30.71	MCT: Capital Required for Balance Sheet Assets
<mark>40.07 …</mark>	Summary of Investments
40.80	*Other Investments (Quebec – Interim Return only)
60.20	Premiums and Claims
67.10	Premiums Written
67.20	Premiums Earned
67.30	Claims Incurred
70.35	*Reinsurance Ceded to Unregistered Insurers (Quebec)
	Reinsurance Ceded to Unregistered Insurers
00.10	<b>a · · ·</b>

80.10 ... Commissions

\* Only Insurers who are required to file an Interim Return with Quebec are to complete these pages. All other insurers should not file hard copies of pages 30.40, 30.45, 30.47, 40.80 and 70.35.

The name of the insurer and the date of the return should be printed on every page.

# **Certification:** Cover page / File Transmittal Form

The **certification** must be signed by an Officer whose name would normally appear on Page 10.10 of the Annual Return, preferably the chief financial officer who could be contacted if the Regulator has any questions about the Interim Return.

#### **Generally Accepted Accounting Principles (GAAP)**

The Interim Return should be prepared in accordance with GAAP and with the statutory provisions that were applied in the preparation of the most recent Annual Return that the insurer filed with its Canadian Insurance Regulator(s).

#### **Comparative Amounts**

Wherever applicable, comparative amounts for the equivalent period ending in the previous year must be entered in the "prior" column.

Note: On page 20.40, the prior period amounts entered on lines 01 and 89, column 02, are the beginning of <u>year</u> and end of <u>period</u> balances, respectively. Thus, unlike the Annual Return, line 01, column 01 is <u>not</u> equal to line 89, column 02.

Quebec Exhibits (Pages 30.40, 30.45, 30.47, 40.80 and 70.35)

These pages are to be completed by all **Insurers Licensed in Quebec**.

The words "current year" and "preceding year" in the note at the bottom of page 30.45 are to be understood as periods of 12 months ending as at the date of the Interim Return.

The Quebec exhibits are only to be included in Interim Returns filed with Quebec.

# **Quebec Incorporated Insurers**

Insurers incorporated in the Province of Quebec are **not** required to complete Page 40.07.

#### Additional Filings/Detail

The frequency of reporting referred to in these Instructions (semi-annual, quarterly) may be increased for certain insurers, depending on circumstances. Insurers will be advised directly by Regulators who require additional reporting and/or detail.

The capital required for structured settlements, letters of credit, derivatives and other exposures is calculated in a manner similar to the on-balance sheet assets in that the credit risk is multiplied by a counterparty risk factor to arrive at the capital required.

However, unlike most assets, the face amount of structured settlements, letters of credit, derivatives and other exposures does not necessarily reflect the amount of the credit risk. To approximate this credit risk, the face amount/cost of the instrument, net of any collateral or guarantees, is multiplied by a credit conversion factor. The credit conversion factor differs depending on the type of instrument: Structured Settlements (50%); Letters of Credit (financial 100%, performance 50%); Derivatives (100%); and Other Exposures (0% where the commitment less than 1 year; 50% where the commitment is 1 year or more and draw down is uncertain, 100% for other items).

The determination of the counterparty risk categories and the approach for determining the eligibility of collateral and guarantees is the same as it is for other assets.

The following worksheet may be used to calculate the capital requirement to be entered on line 28 of page 30.70. The worksheet does not need to be filed with the regulator, although the regulator may ask for details supporting the figures used to arrive at the capital required figure reported.

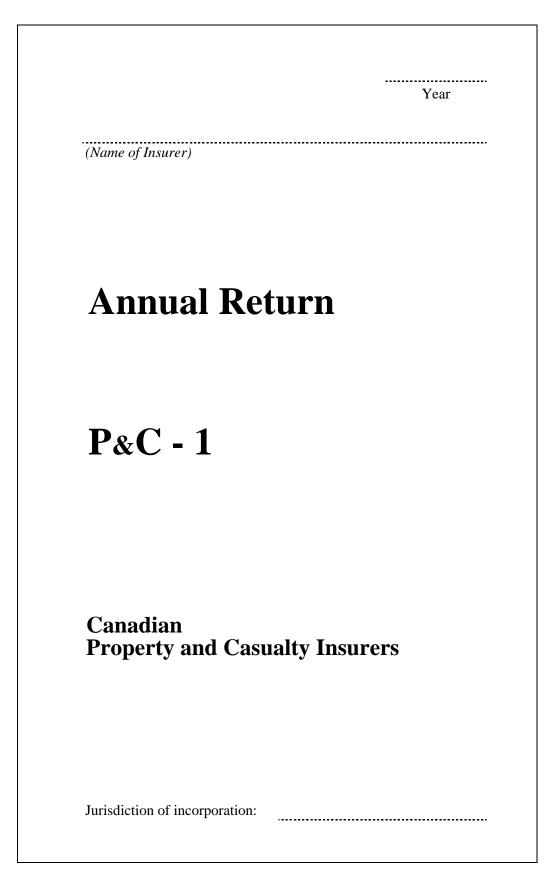

For further clarification, P&C insurers should consult their primary regulator.

#### Worksheet – Capital Required: Structured Settlements, Letters of Credit, Derivatives and Other Exposures (\$000)

#### Certification

I,(print or type)	certify that, to the best of my
knowledge, the attached return presents f	airly the financial position of the Insurer
as at and	the results of its operations for the
months then ende	d in accordance with the Canadian generally
accepted accounting principles and statut	tory provisions that were applied in the
preparation of the most recent Annual Re	eturn that the Insurer filed with its
Canadian Insurance Regulator(s).	
	Signature
Date	Title (Officer)

Uniform Return approved by the Canadian Council of Insurance Regulators
