FOREWORD/AVANT-PROPOS

<p>This edition of the <i>Air Traffic Designators</i> is effective January 10, 2005 and replaces the November 2, 2002 edition. It incorporates changes introduced by ICAO Document 8643/32, ICAO Document 8585/130, and corrects known errors. Please ensure that all Air Traffic Services personnel are advised of these changes to <i>Air Traffic Designators</i>.</p>	<p>La présente édition des <i>Indicatifs de la circulation aérienne</i> entre en vigueur le 10 janvier 2005 et remplace celle du 2 novembre 2002. Elle comprend les changements introduits par les documents 8643/32 et 8585/130 de l'OACI et corrige les erreurs connues. Veuillez vous assurer que le personnel de Services de la circulation aérienne est au courant de ces changements aux <i>Indicatifs de la circulation aérienne</i>.</p>

EXPLANATORY NOTES

1. Responsibility for the administration of Aircraft Operating Agency Designators rests with NAV CANADA, Aeronautical Information Services.
2. An air carrier designator is a three-letter code which, when used on approved routes in conjunction with the assigned flight number, serves as the aircraft identification in the Air Traffic Control system.
3. A radio-telephony call-sign is normally the company name or an abbreviation thereof and when used in combination with the assigned flight number serves to identify the aircraft in air/ground communications.

BASIS FOR ASSIGNMENT

1. Three-letter designators and call-signs are assigned to assist Air Traffic Control in the Safe and efficient movement of aircraft.

CRITERIA

1. A three-letter designator is registered only for those aircraft operating agencies which, in the opinion of the State of jurisdiction, have a need for an exclusive designator.
2. Aircraft operating agencies which operate 10 or more scheduled international air operations per week and generate the appropriate flight plans and other related flight operations over the Aeronautical Fixed Telecommunications Network (AFTN) or, 20 or more scheduled domestic round trip air operations per week are eligible for a three-letter designator.
3. As stated in ICAO Document 8585, telephony designators should be pronounceable and suitable phonetically in at least one of the following languages: English, French, Russian or Spanish. The telephony designator should, preferably, resemble the name of the aircraft operating authority or service. The telephony designator should consist of not more than two words and a total of three syllables.

CHANGES IN COMPANY STATUS

1. Operators are required to notify NAV CANADA - Aeronautical Information Services when they:
 - a) suspend or cancel their operations for any reason; and
 - b) change the name, address, or physical location of the company to which a designator and call-sign have been assigned.

NOTES EXPLICATIVES

1. La responsabilité pour l'administration des Indicateurs d'exploitants d'aéronefs relève de NAV CANADA, Services d'information aéronautique.
2. L'indicatif du transporteur aérien est un code à 3 lettres employé pour les routes homologuées de concert avec le numéro de vol assigné et sert à identifier l'aéronef dans le système du contrôle de la circulation aérienne.
3. L'indicatif de radiotéléphonie est ordinairement le nom de la compagnie ou son abréviation utilisée en union avec le numéro de vol assigné et a pour objet d'identifier l'aéronef dans les communications air/sol.

ASSIGNEMENT DE BASE

1. Les indicateurs à 3 lettres et les appels sont assignés pour assister le Contrôle de la circulation aérienne, à l'efficacité et la sécurité du mouvement des aéronefs.

CRITERES

1. Les indicateurs à trois lettres sont enregistrés uniquement aux exploitants d'aéronefs qui assurent des vols de transport aérien et qui, de l'avis de l'Etat compétent, ont besoin d'indicateurs exclusifs.
2. Les exploitants des aéronefs qui offrent des services aériens réguliers de 10 ou plus par semaine et produisent les plans de vols appropriés et les autres exploitants de vol sur le Réseau de service fixe des Télécommunications aéronautiques (AFTN) ou, 20 ou plus voyages réguliers de vols intérieurs aller et retour par semaine sont éligibles pour un indicatif à trois lettres.
3. Tel que stipulé dans le manuel 8585 de l'OACI, l'indicatif téléphonique devrait pouvoir être prononcé facilement et phonétiquement au moins dans l'une des langues suivantes: anglais, espagnol, français ou russe. L'indicatif téléphonique devrait ressembler au nom de l'exploitant d'aéronefs, ou à sa fonction. L'indicatif téléphonique devrait être bref et se composer, si possible, d'un mot de deux ou trois syllables. In ne devrait pas excéder deux mots.

CHANGEMENTS DANS LA SITUATION DE LA COMPAGNIE

1. Les exploitants sont requis d'aviser NAV CANADA, Services d'information aéronautique quand ils:
 - a) retirent provisoirement ou annulent leurs opérations sans raison; et
 - b) changent le nom, l'adresse ou l'emplacement physique de la compagnie avec qui l'indicatif et les appels ont été désignés.

REQUEST

1. Requests for three-letter ICAO designators shall be directed to:

NAV CANADA
Aeronautical Information Services
77 Metcalfe Street, 5th Floor
Ottawa, Ontario
K1P 5L6

2. In order to determine eligibility for an ICAO designator and radio-telephony, the following information is required:
 - a) The name and the address of the company;
 - b) the telephone number;
 - c) the type of aircraft operation or service provided. In the case of a service, provide a list of the operators served;
 - d) a copy of the company/operator published flight schedules;
 - e) a copy of the Operating Certificate issued by Transport Canada; and
 - f) several suggested designators and radio-telephony call signs. Call-signs should be phonetically different from known call-signs in the area of flight operations and should not be similar to Air Traffic Control terminology.

LIMITATIONS

1. The designators are approved for use only on commercial operations as established in the Operating Certificate. When using the aircraft for personal flying, or off the scheduled routes, the pilot must use the Civil Registration of the aircraft.
2. Operators are required to list their call-sign in the "Remarks" portion of their flight plans so that ATC can more readily relate to the designator and telephony.
3. Each designator and radio-telephony assigned should be coordinated in advance to avoid any possible duplication, with the "effective date" of each assignment established with enough lead-time to perform this coordination (never to be less than six weeks from the date of assignment).
4. Designator assignments may be amended or cancelled by Transport Canada where such action is in the interest of facilitating the provisions of air traffic services.

DEMANDES

1. Les demandes pour les indicatifs à 3 lettres de l'OACI doivent être adressées comme suit:

NAV CANADA
Services d'information aéronautique
77, rue Metcalfe, 5^e étage
Ottawa, Ontario
K1P 5L6

2. Afin de déterminer l'admissibilité pour un indicatif de l'OACI et de radiotéléphonie, l'information suivante est requise:
 - a) nom et l'adresse de la compagnie;
 - b) le numéro de téléphone;
 - c) le type d'exploitation d'aéronefs ou le service offert. Dans le cas d'un service, une liste des exploitants est requise.
 - d) une copie publiée des vols réguliers de la compagnie/exploitant;
 - e) une copie du permis d'exploitation émi par Transports Canada; et
 - f) plusieurs indicatifs et appels de radiotéléphonie suggérés. Les indicatifs d'appel doivent être phonétiquement différents de ceux connus dans la zone d'exploitation et doivent différer de la terminologie employée dans le contrôle de la circulation aérienne.

LIMITATIONS

1. Les indicatifs sont approuvés pour l'usage exclusif des opérations commerciales établies et selon le permis d'exploitation. Si l'aéronef est utilisé pour des fins personnelles, ou dévie de son parcours régulier, le pilote doit utiliser la marque d'immatriculation civile de l'aéronef;
2. Les exploitants sont appelés à inscrire leur indicatif d'appel dans la colonne des "Remarques" de leur plan de vol afin que les contrôleurs puissent les relier plus facilement avec l'indicatif et la téléphonie.
3. Tout indicatif et tout indicatif de téléphonie assignés devront être coordonnés à l'avance afin d'éviter toute duplication possible. On doit s'assurer que la date de la mise en vigueur de chaque assignation soit établie de manière à ce qu'un délai suffisant soit accordé pour effectuer la coordination (qui ne doit être jamais moins de six semaines à partir de la date de l'assignation).
4. L'assignation des indicatifs peut être amendée ou annulée par Transports Canada, compte tenu des avantages visant à faciliter les dispositions des services de la circulation aérienne.
