NOTE: In most instances where a grain company operates two or more primary elevators at one location, the operations have been combined under a single manager. This has been aided by the trading of elevators between companies. As a result of a move towards greater economy and efficiency, the 331 elevators licensed as at August 1, 2007 reflect 325 'operating units'. The above table indicates this pattern, according to the major companies. The bracketed figures indicate the licensed elevators. It should be recognized that this statement reflects a constantly changing situation and is based upon the latest available data.

NOTA: Dans la plupart des cas, lorsqu'une compagnie de grain exploite deux silos primaires ou plus au même endroit, les exploitations sont combinées et relèvent d'un seul exploitant. L'échange de silos entre compagnies a favorisé cette politique. En vue d'accroître les avantages économiques et l'efficacité des opérations, les 331 silos agréés séparément au 1 août 2007 représentent 325 <unités d'exploitation>. Le tableau ci-dessus indique ce mode de développement pour les compagnies les plus considérables. Les chiffres entre parenthèses indiquent les silos agréés. Il faut se rappeler que c'est une situation qui évolue sans cesse et qui est fondée sur les plus récentes données disponibles.

**Decrease In The Number of Primary Elevator Licences. /
Diminution du nombre de licence de silos primaires**

Effective the 1984-85 crop year the Canadian Grain Commission allowed operators of primary elevators to licence two or more adjacent facilities, which were under the control of a single manager, as a single primary elevator.

Dès le début de la campagne agricole 1984-85, la Commission canadienne des grains a accepté de délivrer une seule licence aux exploitants de deux silos ou plus lorsque ceux-ci étaient gérés par une seule personne et étaient attenants.

As a result of this policy and the continued rationalization of the primary elevator system, the number of licences issued declined dramatically, going from 2,800 in 1983-84 to 1,967 on August 1, 1984.

Suite à cette nouvelle politique et à la consolidation du réseau de silos primaires, le nombre de silos agréés passa de 2 800 en 1983-84 à 1 967 au 1^{er} août 1984.
