	Transport Canada Marine Safety	Issue Date: October, 1999 Approved by: AMSP	Ref: 13008E-INF-1- 1 Page: 1 of 32
	TP 13008 E	<i>TRAINING STANDARDS FOR MARINE FIRST AID AND MARINE MEDICAL CARE</i>	Revision No: 01

Scope and Application

1.1 Purpose

- (1) As signatory to the Standards of Training Certification and Watchkeeping (STCW) Convention of 1978 as amended in 1995, Canada is obliged to ensure that seafarers responsible to provide medical first aid and medical care on board Canadian ships, are suitably trained and qualified to render such assistance.

1.2 Scope

- (1) The STCW78 Convention as amended in 1995 by regulation VI/1, VI/4 and sections A-VI/1, A-VI/4 of the mandatory Code specify the requirements of minimum standards of competence in medical first aid and medical care.

1.3 Effective date

- (1) The training program as outlined in this Transport Canada, Marine Safety Publication (TP 13008) received Canadian Marine Advisory Council (CMAC) approval in May, 1997 and its contents became effective with the coming into force of the *Marine Certification Regulations* on July 30, 1997.

1.4 Authority

- (1) The *Marine Certification Regulations* Section 6 (SOR/97-391) made pursuant to the *Canada Shipping Act* (R.S.AC.1985, c.s-9) as amended.

1.5 Documents replaced

- (1) This document replaces Ship Safety Bulletin 3/94, dated March 8, 1994.

	Transport Canada Marine Safety	Issue Date: Approved by:	October, 1999 AMSP	Ref: 13008E-INF-1- 2 Page: 2 of 32
TP 13008 E		<i>TRAINING STANDARDS FOR MARINE FIRST AID AND MARINE MEDICAL CARE</i>		Revision No: 01

General Criteria

2.1 Course approval conditions

- (1) National organizations seeking Transport Canada (TC), Marine Safety approval to conduct courses in Marine Basic First Aid and Advanced First Aid and Marine Medical Care must meet the following conditions:
- (2) Organizations presently holding authorization from Labour Canada (OSH) to deliver Basic First Aid (8 hours) and Advanced (Standard) First Aid (16 hours) will receive Transport Canada (TC), Marine Safety (MS) approval to deliver courses as contained in this document on submission of an application together with course curriculum and current authorization. To obtain TC, Marine Safety approval for delivering Marine Medical Care training as contained in this document, organizations shall be required to submit to Marine Safety the course curriculum for review before approval may be granted.
- (3) Comply with the program as outlined in this document.
- (4) Provide commitment that program will be available in major centres where applicable with marine colleges as a focal point.
- (5) Instructors delivering programs must be qualified and accredited by the organization requesting approval.
- (6) Organization to supply TC, Marine Safety with copies of their certificates indicating the period of validity of the certificate.
- (7) On-going approval from TC, Marine Safety must be obtained by the organization before 31 August of each year.

	TP 13008 E	<i>TRAINING STANDARDS FOR MARINE FIRST AID AND MARINE MEDICAL CARE</i>	Revision No: 01

Marine Basic First Aid

3.1 Number of trainees in a course

- (1) The number of trainees in a course must not exceed 12 when under the supervision of one accredited instructor.

3.2 Course goal

- (1) Every seafarer who is designated to apply immediate basic first aid in the event of accident or illness on board to demonstrate competence to undertake the tasks, duties and responsibilities described in the subjects listed below.

3.3 Course outline

Subjects		Lecture Time Including Exercises
		Hours
1.1	ASSESSMENT OF NEEDS OF CASUALTIES and threats to own safety	1.0
1.2	APPRECIATION OF BODY STRUCTURE AND FUNCTIONS	1.0
1.3	UNDERSTANDING OF IMMEDIATE MEASURES TO BE TAKEN IN CASES OF EMERGENCY, including the ability to:	
	1.3.1 Position Casualty	0.5
	1.3.2 Apply Resuscitation Techniques	1.5
	1.3.3 Control Bleeding	1.0
	1.3.4 Apply Appropriate Measures of Basic Shock Management	0.5
	1.3.5 Apply Appropriate Measures in Event of Burns, and Scalds, including accidents caused by electrical current	0.5
	1.3.6 Rescue and Transport a Casualty	
	1.3.7 Improvise Bandages and Use Materials in Emergency Kit	0.5
		0.5
1.4	Examination	1.0
Total		8 hours

Marine Medical Care

5.1 General

- (1) This level of training may be presented supplementary to the Marine Advanced program, or as a combined program facilitating the training of any individual to the level of Marine Medical Care without prerequisite requirements. A combined program will include content of both courses for a total of 66 hours.

5.2 Number of trainees in a course

- (1) The number of trainees in a course must not exceed 12 when under the supervision of one accredited instructor.

5.3 Course goal

- (1) Every seafarer who is designated to apply medical care in the event of an accident or illness on board to demonstrate competence to undertake the tasks, duties and responsibilities described in the subjects listed below.

5.4 Course outline

	Subjects	Lecture Time Including Exercises
3.1	CARE OF CASUALTY involving: 3.1.1 Head/spinal injuries 3.1.2 Injuries to ear, nose, throat and eyes 3.1.3 External and internal bleeding 3.1.4 Fractures, dislocations and muscular injuries 3.1.5 Pain relief 3.1.6 Techniques of sewing and clamping 3.1.7 Management of acute abdominal conditions 3.1.8 Minor surgical treatment 3.1.9 Dressings and bandaging	20 hours (3 hrs) (2 hrs) (1 hr) (3 hrs) (1 hr) (1 hr) (2 hrs) (1 hr) (2 hrs)
3.2	ASPECTS OF NURSING 3.2.1 General principles 3.2.2 Nursing care	2 hours
3.3	DISEASES including: 3.3.1 Medical conditions and emergencies 3.3.2 Sexually transmitted diseases	3 hours

	Transport Canada Marine Safety	Issue Date: Approved by:	October, 1999 AMSP	Ref: 13008E-INF-1- 22 Page: 22 of 32
	TP 13008 E	<i>TRAINING STANDARDS FOR MARINE FIRST AID AND MARINE MEDICAL CARE</i>		Revision No: 01

Marine Medical Care (Cont'd)

Subjects		Lecture Time Including Exercises
3.4	3.3.3 Tropical and infectious diseases ALCOHOL AND DRUG ABUSE	2 hours
3.5	DENTAL CARE	1 hour
3.6	GYNAECOLOGY, PREGNANCY AND CHILDBIRTH	2 hours
3.7	MEDICAL CARE OF RESCUED PERSONS	5 hours
3.8	DEATH AT SEA	1 hour
3.9	HYGIENE	1 hour
3.10	DISEASE PREVENTION including: 3.10.1 Disinfection, disinfestation, deratting 3.10.2 Vaccinations	1 hour
3.11	KEEPING RECORDS AND COPIES OF APPLICABLE REGULATIONS 3.11.1 Keeping medical records 3.11.2 International and national maritime medical regulations	2 hours
3.12	EXTERNAL ASSISTANCE, including: 3.12.1 Radio medical advice 3.12.2 Transportation of the ill and injured, including helicopter evacuation 3.12.3 Medical care of sick seafarers involving co- operation with port health authorities or outpatient ward in port	2 hours
3.13	EXAMINATION	8 hours
		Total 50 Hours

Note: Program content for this level of training will be structured to facilitate flexibility in program delivery (e.g. the 50 hour program may be delivered in two separate but related teaching blocks).

Marine Medical Care (Cont'd)

Competence	Knowledge, Understanding And Proficiency	Methods Of Demonstrating Competence	Criteria For Evaluating Competence
Apply medical care to the sick and injured while they remain on board	3.1.2 INJURIES TO EARS, NOSE, THROAT AND EYES Ability to: <ul style="list-style-type: none"> • Assess injuries to ears, nose and throat and determine the seriousness of each according to signs and symptoms • Determine care appropriate to common injuries to ear, nose and throat • Assess types of eye injury and related dangers of same • Assess situations where removal of foreign objects in the eye (or area around the eye) should not be attempted • Provide appropriate care for removal of foreign objects from the eye • Provide appropriate care for injury to the eye or the immediate area around the eye • Provide appropriate care for burns to the eye(s) 	Assessment of evidence obtained from practical instruction and demonstration. Where practicable, approved practical experience at a hospital or similar establishment	Identification of symptoms is based on the concept of clinical examination and medical history. Protection against infection and spread of diseases is complete and effective. Treatment of injury or condition is appropriate and conforms to accepted medical practice and relevant national and international medical guides. The dosage and application of drugs and medication complies with manufacturer's recommendations and accepted medical practice. The significance of changes in patient's condition is promptly recognized. Personal attitude is calm, confident and reassuring.
