

## Direct Deposit Request

Over 14,000 Prairie farmers are getting their CWB payments deposited directly into their accounts rather than receiving printed cheques in the mail.

There is no cost for this service.

### How can Direct Deposit work for you?

- **FASTER.** You get access to your money earlier.
- **SECURE.** There is nothing to be lost or misplaced.
- **ACCURATE.** The full amount of the payment is deposited into the account of your choice at your financial institution. This makes for more accurate record keeping and facilitates reconciliation of your financial information. As well, you will be mailed a statement providing payment details.
- **ADVANCE NOTICE.** You will know it is coming. Notification by e-mail, automated telephone message or fax will be provided before a payment is made.

### Concerned about how to defer when you are getting Direct Deposit?

- You can defer payments by calling the CWB toll-free line before the deposit is made.
- You can defer payments for up to one year.
- The best way to defer is to call the CWB in advance and indicate that all payments after a certain date are to be deferred. This information becomes part of the CWB's database and saves you the trouble of notifying the CWB each time you want a payment deferred.
