## Survey of Canadian Portfolio Investment (BP-54)

STC/IFE-261-75072

**Information required** : Detailed portfolio holdings of securities as of **December 31st, XXXX**.

**Definition** : Portfolio investment is defined as investment in equity or debt securities undertaken for the sake of investment income or capital gains. Unlike direct investors, portfolio investors have no significant influence on the orientation and management of the enterprise in which they invest.

**Submission format** : See enclosed record layout

**Collection Method** : In a single file using Excel, Lotus, or ASCII with delimiters, data may be submitted by e-mail: [cpiabop@statcan.ca](mailto:cpiabop@statcan.ca) or on diskette to the address shown on the fax cover sheet. If you use the services of a custodian, please inform them of the submission date.

*Information sent via facsimile or electronic mail, when in transit, may encounter risk of disclosure. Upon receipt, Statistics Canada will confirm the reception of your submission. Thereafter, Statistics Canada will assure the confidentiality of the information.*

**Use of the data** : This survey is conducted to determine the amount and types of securities owned by Canadian Portfolio Investors. The data are combined with other data on international assets and liabilities to provide financial markets and domestic and international regulators with sound information on the evolving liability structures of countries and the distribution of these liabilities by industry and type of security.

*The aggregate data are published in "Canada's International Investment Position (Catalogue no. 67-202-XIE)".*
