PURPOSE OF THE SURVEY

This survey provides a measure of the expenditures made by industry for environmental protection in Canada in response to Canadian and international environmental regulations, conventions and voluntary agreements. The survey also aims at identifying environmental management practices and technologies used in Canadian industry for the purpose of preventing or abating pollution. These data will be aggregated with information from other sources to produce official estimates of environmental potention expenditures.

The results of this survey will be published in the Statistics Canada publication *Environmental Protection Expanditures* in the Business Sector, 2004, Catalogue No. 16F0006XIE.

CONFIDENTIALITY

Statistics Canada is **prohibited by la v** from publishing any statistics which would divulge in formation obtained from this survey that relates to any includinable respondent, without the previous written consent on that respondent. The data reported will be troated in strict confidence, used for statistical purpose and published in aggregate form only. The confidentiality provisions of the *Statistics Act* are not affected by either the *Access to Information Act* or any other legislation.

AUTHORITY

This survey is conducted under the authority of the *Statistics Act*, Revised Statutes of Canada, 1985, Chapter S19. COMPLETION OF THIS QUESTIONNAIRE IS A LEGAL REQUIREMENT UNDER THE *STATISTICS ACT*.

INQUIRIES

If you require assistance in completing this questionnaire or if you have any questions or comments regarding this survey, olevise contact:

Operations and Integration Division Statistics Canada Ottawa, ON, Canada, K1A 0T6

Correct as required

Telephone (toll-free): **1-800-255-7726** Fax: **1-800-755-5514**

Email: enviro.oid.exp@statcan.ca

The questionnaire is available in an electronic spreadsheet format. Please contact the Operations and Integration Division if you prefer to use this reporting option.

In all correspondence concerning this questionnaire, please quote the identification number that appears on the address label.

Important: Please read the Definitions and concepts on page 6 before answering. If your response for an item is zero, please write "0" in the corresponding box rather than leaving the cell blank.

Please return this questionnaire within 30 days of receipt.

If you are unable to do so, kindly inform the Operations and Integration Division of the expected completion date.

Ple	ease report in thousands of Canadian dollars
1.	Reporting year
	Report must cover your most recent fiscal Year Month Day Year Month Day
	year that <u>ended</u> any time between April 1, 2004 and March 31, 2005. From
	If the reporting period is less than 12 months, please indicate the circumstances in the Comments section at the end of the questionnaire.
2.	Pollution prevention, abatement and control and waste management
	2.1 Pollution prevention, abatement and control and waste management expenditures
	If the expenditure is zero, please write "0" in the corresponding box.
	Include
	Expenditures for end-of-pipe pollution abatement and control facilities and equipment Expenditures for pollution provention equipment or facilities integrated to a production process, that provent or
	 Expenditures for pollution prevention equipment or facilities integrated to a production precess, that prevent or minimize the creation of pollutants and waste
	 Expenditures for equipment or facilities related to leak and spill prevention. They may include expenditures on the following: spill containments, dyke extension, accessories (valves, pumps) or emission tietection equipment
	Expenditures for equipment or facilities used for conserving energy or water
	◆ Expenditures for equipment or facilities associated with recirculation, recovery, euse and recycling of materials or
	substances ◆ Expenditures related to operational or process changes aimed at pollution provention. Examples include product
	re-design (e.g., feedstock/raw material substitution), good operating practices (e.g., modification of process, staff training), etc.
	◆ Pollution monitoring expenditures
	♦ Expenditures for hazardous and non-hazardous waste collection, disposal, treatment and recycling done by your
	employees ◆ Purchase of hazardous and non-hazardous waste and se verage management services or any other purchase of
	services reported in Question 5
	Exclude
	• Expenditures specific to workers' health and sai 5.7
	 ◆ Site reclamation and decommissioning expenditures (Question 3) ◆ Research and development expenditures associated with pollution prevention, abatement and control
	Operating expenses Cap 'al xpenditures Total \$ '000 CDN \$ '000 CDN \$ '000 CDN
	101 + 102 = 103
	2.2 From the amount of capital expenditures reported in cell 102, what percentage was spent on
	preventing or a valing each of the following?
	Substances On-site releases to Substances released to land/underground Noise, vibration
	released to air surface waters injection or radiation Other
	$\begin{bmatrix} 201 & & & & & & & & & & & & & & & & & & &$
	<u>%</u> + <u>%</u> + <u>%</u> + <u>%</u> = 100%
	2.3 Does your establishment track the <u>quantity</u> (kg, tonnes, etc.) of non-hazardous solid waste it
	produces?
	Does this establishment record the share of its non-hazardous solid waste that is disposed of
	versus that which is recycled or reused?
	Yes ■ No ²⁰⁵⁵

Page 2 4-2300-58

- 3. Other environmental protection expenditures. If the expenditure is zero, please write "0" in the corresponding box. Include
 - ◆ Expenditures for site reclamation and decommissioning
 - ◆ Expenditures for protection and restoration of wildlife and habitat
 - ◆ Expenditures for environmental audits and assessments
 - Expenditures for training on environmental matters
 - ◆ Administration costs directly associated with environmental protection projects
 - Other expenditures not elsewhere specified required to comply with environmental regulations, conventions, or voluntary agreements

Exclude

◆ Environment-related research and development expenditures

Operating expenses		Capital expenditures		Total
\$ '000 CDN		\$ '000 CDN		\$ '000 CDN
401	+	402	=	403

4. Total expenditures on environmental protection. If the expenditure is zero, please write "0" in the corresponding box. This question is the sum of Questions 2 and 3.

Operating expenses		Capital expenditures		Total
\$ '000 CDN		\$ '000 CDN		\$ '000 CDN
410	+	411	=	412

4.1	In order to help us reduce the need for further follow-up inquiries, please provide a brief explanation
	to account for significant changes in environmental protection expenditures made by your
	establishment (either increased or decreased compared to previous reporting periods).
	(e.g., "We implemented a major product re-design ir ∠?04")

5. Purchase of environmental services

Of the <u>total</u> operating expense: and capital expenditures on environmental protection reported in Question 4 (cell 410 and cell 411), what proportion is of these were purchased from a private contractor or government? Your best estimate is acceptable. If the proportion is zero, please write "0" in the corresponding box.

Include

- All experditures associated with the use of a waste collection and treatment service or a sewerage service provided by a private contractor or a federal, provincial/territorial or local government
- Any other purchase of environmental services provided by a private contractor or a federal, provincial/territorial or local government (examples include the purchase of environmental monitoring services; environmental assessment and audit services; construction and engineering services associated with the installation, repair or maintenance of pollution prevention, abatement and control infrastructure or equipment)

Exclude

- Any expenditures for environmental services provided by your establishment's or company's employees (own-account work)
- Expenditures for on-site recycling

Definitions and concepts

Environmental protection expenditures are defined in this survey as all operating expenses and capital and repair expenditures that are incurred in order to anticipate or comply with Canadian or international environmental regulations, conventions or voluntary agreements. They consist of expenditures for pollution prevention, abatement and control, expenditures for protecting and restoring wildlife and habitat, expenditures for environmental monitoring, environmental assessments and audits, and expenditures reclamation and decommissioning Environmental protection expenditures incurred that are not in response to current or anticipated Canadian or international regulations, conventions or voluntary agreements should be excluded. In addition, expenditures to improve employee health, workplace safety and site beautification should also be excluded.

Environmental conventions or voluntary agreements refer to any formal, multi-party commitment by an industry, an industry association or other body, to meet specific targets in terms of habitat protection, waste reduction, or the elimination or reduction of specific materials that are considered to be harmful or toxic to the natural environment in Canada. Examples include the following: the Montreal Protocol (elimination of CFCs by 1998); the Canada-U.S. Air Quality Agreement; the "Responsible Care" program from the Canadian Chemical Producers Association; the Voluntary Challenge and Registry (VCR) Program on climate change, etc.

Environmental regulations refer to any current Canadian federal, provincial, or municipal law or international legislation that is intended to protect or to restore the environment in Canada. Expenditures related to anticipated legislation may be included as long as its provision, are known.

Pollution prevention, abatement and control (Prac) expenditures include all outlays for the primary purpose of preventing, abating or controlling the releast of pollutants and generation of waste resulting from the operations of this establishment. Expenditures to produce a PAC equipment for sale are excluded as they would appear twice in the

expenditure data produced by Statistics Canada. Expenditures for environment - related research and development are also excluded since they are collected elsewhere in Statistics Canada.

Pollution abatement and control (end-of-pipe) expenditures relate to expenditures on an equipment or a facility not integrated to production. Their sole purpose is to abate or control undesirable substances emitted during normal production activities. These expenditures also include waste management expenditures.

Pollution prevention expenditures include all expenditures for new or significantly modified integrated production processes that prevent or minimize emissions of pollutants and the amount of waste generated.

Environmental monitoring expenditues include all costs related to equipment, supplies, labour and purchased services that are required for the monitoring of pollutants emitted by this establishment (e.g., under the National Pollutant Release Invencey)

Environmental assessments and audits expenditures include expenditures for reviews of current operations for compliance with regulations (audits); expenditures to evaluate the environmental impact of proposed programs or projects (assessments); associated legal and consulting costs.

Site reclamation and decommissioning expenditures include expenditures to clean up environmental damage could from this establishment's operations; decommissioning expenditures made during the year that are associated with the closing down of an establishment or site (even if closing occurred before 2004).

Expenditures for protection and restoration of wildlife and habitat include expenditures made to protect wildlife and habitat from the effects of this establishment's operations or to restore stocks that have been adversely affected by such operations. They exclude expenditures for aesthetic purposes.

How to report

Where precise data are not available, your best estimate is acceptable. If additional information is available in an annual report or an environmental performance report, **please include a copy** when you return the questionnaire.

TO REPORT CAPITAL EXPENDITURES

Include all relevant outlays in 2004 (fiscal year) for machinery and equipment and their installation and repair, as well as for the construction of non-residential facilities (by contractors or own employees). For construction, include all costs associated with demolition, planning and

design (such as engineering and consulting fees), any materials supplied to construction contractors for installation and any costs associated with the purchase of land that are neither amortised nor depreciated.

Exclude any provisions for future environmental liability.

TO REPORT OPERATING EXPENSES

Include expenses in 2004 (fiscal year) related to environmental protection incurred for labour, materials and supplies, maintenance and repair and purchased services (include fuel and electricity expenses for machinery and equipment whose sole purpose was to protect the environment).

Exclude depreciation on machinery and equipment.
