#### Purpose of the Survey

To obtain information on the status of energy industries in Canada. The results will be used by industry associations to gauge the size and importance of the industry and by government in establishing informed energy policies. The information may also be useful to individual businesses in decision-making.

#### Confidentiality

Statistics Canada is prohibited by law from publishing any statistics which would divulge information obtained from the survey that relates to any identifiable business, without the previous written consent of that business. The data reported will be treated in strict confidence, used for statistical purposes and published in aggregate form only. The confidentiality provisions of the Statistics Act are not affected by either the Access to Information Act or any other legislation.

#### Inquiries

If you require assistance in the completion of this questionnaire or have any questions regarding the survey, please contact us:
