**Correct pre-printed information if necessary.**

### PURPOSE OF THE SURVEY

The purpose of this survey is to obtain information on the supply of, and demand for, energy in Canada. This information serves as an important indicator of Canadian economic performance and is used by all levels of government in establishing informed policies in the energy area. In the case of public utilities, it is used by governmental agencies to fulfil their regulatory responsibilities. The private sector likewise uses this information in the corporate decision-making process.

### CONFIDENTIALITY

Statistics Canada is prohibited by law from publishing any statistics which would divulge information obtained from this survey that relates to any identifiable business without the previous written consent of that business. The data reported will be treated in strict confidence, used for statistical purposes and published in aggregate form only. The confidentiality provisions of the Statistics Act are not affected by either the Access to Information Act or any other legislation.

### DATA SHARING AGREEMENTS

To reduce response burden and to ensure uniform statistics, Statistics Canada has entered into agreements with various agencies and government departments for the joint collection and sharing of data. Under Section 12 of the Statistics Act, agreements exist with the Ministry of Employment and Investment of British Columbia and with the Alberta Energy and Utilities Board for all activity covered by this survey occurring within their respective provincial boundaries. An agreement also exists with Natural Resources Canada with respect to all activity covered by this survey.

Section 12 agreements shall not apply to your return if an officer of your company objects in writing to the Chief Statistician and mails the letter to the Manufacturing, Construction and Energy Division of Statistics Canada together with the completed questionnaire. **Please specify the department among those listed below from which data shall be withheld.** Note that there is no right of refusal with respect to sharing of data with the Alberta Energy and Utilities Board and Saskatchewan Energy and Mines. The information is collected in Alberta under the Statistics Act and on behalf of the Board under the authority of the Coal Conservation Act and Regulations or the Oil and Gas Conservation Act and Regulations. In Saskatchewan, the information is collected under the Statistics Act and on behalf of the Department pursuant to the Saskatchewan Oil and Gas Conservation Act and Regulations, 1985 and the Saskatchewan Mineral Resources Act.

### INSTRUCTIONS

- If you did not produce, use or ship any coal during the month, please check box  and return this form.
- Statistics Canada and the provincial agencies listed below participate in the joint collection of these data. Therefore, please complete and return this form to Statistics Canada and a copy to the appropriate agency by the **TENTH DAY** following the month under review.

	2.29.			4.29.
	2.29.			4.29.
	2.29.			4.29.
Shipments from port to British Columbia customers .....	2.38			4.38
Adjustments (state cause)/To or from other producers (specify) (raw = 2.20 + 2.27 - 2.28 - 2.29 - 2.38) (clean = 4.20 + 4.27 - 4.28 - 4.29 - 4.38) .....	2.30		XXX	4.30

**Notes:** (a) Mine and preparation plant values should be F.O.B. and should NOT include any outward transportation charges.  
 (b) Port shipment should be F.O.B. and include port loading and handling costs but NOT outward transportation charges.  
 (c) The value of shipments to port (lines 2.19, 2.20, 4.19, 4.20) should reflect the real market value. Therefore a value based on the estimated selling value at the port minus transportation costs from the mine would be appropriate.

<b>Estimated Export Marketing Expenses</b>	average cost/metric tonne
Transportation to port .....	_____
Loading and handling at port .....	_____
Other port ( <i>specify</i> ) .....	_____
