# Natural Gas Transport and Distribution Annual 2001

Deadline for receipt: May 26, 2002

Confidential when completed

Collected under the authority of the Statistics Act, Revised Statutes of Canada, 1985, Chapter S19.

Completion of the questionnaire is a legal requirement under the Act.

Si vous préférez ce questionnaire en français veuillez cocher.  $\Box$ 

Please make any necessary changes in the above name or mailing address

### **Purpose of the Survey**

To obtain information on the status of the energy industries of Canada. This information serves as an important indicator of Canadian economic performance, is used by all levels of government in establishing informed policies in the energy area and, in the case of public utilities, is used by governmental agencies to fulfil their regulatory responsibilities. The private sector likewise uses this information in the corporate decision-making process.

## Confidentiality

Statistics Canada is prohibited by law from publishing any statistics which would divulge information obtained from this survey that relates to any identifiable business, without the previous written consent of that business. The data reported will be treated in strict confidence, used for statistical purposes and published in aggregate form only. The confidentiality provisions of the Statistics Act are not affected by either the Access to Information Act or any other legislation. An exception to this general rule of confidentiality is the disclosure, at the discretion of the Chief Statistician, of identifiable information relating to public utilities, which includes undertakings supplying petroleum or petroleum products by pipeline, and undertakings supplying, transmitting or distributing gas, electricity or steam.

### **Data Sharing Agreements**

To reduce response burden and ensure uniform statistics, Statistics Canada has entered into agreements under section 12 of the Statistics Act with the Ontario Ministry of Energy, Saskatchewan Energy and Mines, the Saskatchewan Bureau of Statistics, British Columbia Ministry of Energy and Mines and the National Energy Board to share the information collected by this survey for their respective jurisdiction.

Under section 12 of the Statistics Act you may refuse to share your information by writting to the Chief Statistician and returning your letter of objection along with the completed questionnaire in the enclosed return envelope. Please specify the department of agency listed above from which data shall be withheld. Note that there is no right of refusal with respect to the sharing of data with Saskatchewan Energy and Mines. In Saskatchewan, the information is collected under the Statistics Act and on behalf of the Department pursuant to the Saskatchewan. Oil and Gas Conservation Act and Regulations, 1985 and the Saskatchewan Mineral Resources Act.

### Inquiries

If you require assistance in the completion of this questionnaire or have any questions regarding the survey, please contact us:

Telephone: 613-951-3567 Fax: 613-951-9499

## Instructions

- (1) Financial data to be given for calendar or fiscal year ending nearest calendar year. If fiscal year used please give period.
- (2) If it is not possible to give exact figures under the stated subdivisions, enter your best estimate and place a notation (est.) after the estimated figures.
- (3) Please insert pipe line distance for main lines separately from parallel lines or loops. Parallel lines are defined as pipe lines which occupy the same right-of-way adjacent to and essentially parallel with the main line, and which have an independent source of pressure, and through which the product carried has a common origin and destination.

Loops are defined as pipe lines which occupy the same right-of-way as the main line, or right-of-way immediately adjacent to and parallel/ with the main line, and which depend upon the main line for a source of pressure, and through which the product carried has a common origin and destination.

Where there is more than one main line, please enter pipe line distance figures separately. Please note statistics compiled from this report are published in the publication "Natural Gas Transport and Distribution", Catalogue 57-205.
