**USE OF DATA REPORTED:**  
Data collected in the surveys on capital and repair expenditures are included in the publications "Private and Public Investment in Canada - Catalogue 61-205" and in "Capital Expenditures by Type of Asset - Catalogue 61-223". The data are used by Statistics Canada as input to the System of National Accounts. The information is also used by the Bank of Canada, Finance Canada, Industry Canada, provincial agencies, trade associations, universities and international organizations for macroeconomic policy development and/or analysis and as a measure of regional activity.

**CONFIDENTIALITY:**  
"Statistics Canada is prohibited by law from publishing any statistics which would divulge information obtained from this survey that relates to any identifiable business without the previous written consent of that business. The data reported on this questionnaire will be treated in confidence, used for statistical purposes and totals published in a format that safeguards confidentiality as required by the *Statistics Act*. The confidentiality provisions of the *Statistics Act* are not affected by either the Access to Information Act or any other Legislation."

**LEGAL REQUIREMENT:**  
The information sought in this questionnaire is collected under the authority of the *Statistics Act*, Revised Statutes of Canada, 1985, Chapter S19. Everyone is required to provide this information.

**FEDERAL-PROVINCIAL AGREEMENTS TO SHARE INFORMATION:**

In order to avoid duplication and ease the burden on respondents, Statistics Canada has entered into the following data sharing agreements concerning this survey:

**Under section 11 of the *Statistics Act*** with the statistical bureaus of Newfoundland and Labrador, Nova Scotia, New Brunswick, Quebec, Ontario, Manitoba, Saskatchewan, Alberta and British Columbia. Statistics Canada only enters into section 11 agreements with provincial statistical agencies that have statistics acts similar to the federal act. These agencies have the authority to collect this information and the same provisions for confidentiality and penalties for disclosure of information as the Federal Statistics Act;

**Under section 12 of the *Statistics Act*** with the Newfoundland and Labrador Department of Mines and Energy, the Prince Edward Island Department of the Provincial Treasury, the Nova Scotia Department of Natural Resources, the New Brunswick Department of Natural Resources and Energy, the Ontario Ministry of Northern Development and Mines, the Manitoba Industry, Trade and Mines, the Saskatchewan Department of Energy and Mines (*see below*), the British Columbia Ministry of Employment and Investment, the Northwest Territories Bureau of Statistics, the Nunavut Bureau of Statistics, the Yukon Bureau of Statistics and Natural Resources Canada. The agreements we have with these agencies require that they keep the information confidential and use it only for statistical and research purposes. Under section 12, respondents may object to the sharing of their information with any of these agencies by giving notice in writing to the Chief Statistician and by returning their letter of objection along with the completed questionnaire in the enclosed envelope.

Further to the section 12 agreement with the Saskatchewan Department of Energy and Mines, Statistics Canada is collecting the information for itself pursuant to the *Statistics Act* and on behalf of the Saskatchewan Department of Energy and Mines pursuant to *The Mineral Resources Act (Saskatchewan)*. In this case, respondents do not have the right to object to sharing their information since the party to the Agreement is authorized by law to require the respondent to provide the information.
