RELEASES OF NEW RECORDINGS

Please indicate the number of new recordings released by your organization.

Report only your own recordings or those for which you have exclusive distribution rights (a license or lease agreement) for the release and distribution of recordings for others. Exclude those releases where the recordings are distributed on behalf of another Canadian organization under buy-and-sell arrangements or on a consignment basis and imported finished products.

If your organization is a subsidiary or affiliate company, you should report the release and distribution of recordings in cases where the copyright ownership is retained by your parent company, even if a licensing agreement does not exist.

Count as only one release recordings that are released in more than one format, but which all have the same catalogue number.

EXCLUDE MUSIC VIDEO RECORDINGS/VIDEO GAMES PRODUCTIONS AND SINGLES.

9. Indicate the number of new recordings (compact discs, tapes, etc.,) released by your organization for the reporting period according to the origin of the master of the releases. For recordings by more than one artist (e.g., compilations), count the recording as a Canadian release if 50% or more of the artists are Canadian. Recordings released from masters supplied by your parent company should be included under leased masters (line b or c).
