

Special Surveys Division

Compensation Sector Survey

Confidential once completed

Collected under the authority of the
Statistics Act, Revised Statutes of
Canada, 1985, Chapter S19.

Version française au verso

To all employees in the compensation community

The purpose of this demographic study is to gather reliable information on the federal public service compensation community. This information will help the Human Resources Community Secretariat develop a current profile of members of the Compensation Group of human resources so that recruitment, training and development programs will be based on current data.

Your answers will remain confidential pursuant to the Statistics Act and will be used for statistical purposes only. All tables will be verified to ensure that identities are not revealed. If it becomes possible to identify a person using his or her characteristics, Statistics Canada guarantees that this table will not be produced. You will therefore not be identified as an individual.

Although your participation is voluntary, it is essential to ensure the accuracy of the survey results.

Thank you very much for your co-operation.

Marie Horricks
Director
Human Resources Community Secretariat
