Survey Objective
The purpose of this survey is to help Transport Canada to monitor fuel consumption and the impact of vehicle usage on the environment.

Instructions
Please verify that the information on the label on page 2 is correct and write any corrections on the label.
Please report only for the vehicle identified on the label.
As soon as you receive the questionnaire, please record the date and the current odometer reading.
Please answer the questions and report all fuel purchases made for the reporting period indicated on the label.
Please return the questionnaire as soon as you have recorded **two fill-ups** (by fill-up, we mean that the gas tank was full after your purchase). If you do not fill-up twice, please return the questionnaire after making **five fuel purchases** or when the **return date** indicated on the label **has passed**. Record the date and the odometer reading before returning the questionnaire.
Please seal the questionnaire and return by mail. No stamp is required.

Definitions
The **odometer** is the instrument on the front dash or panel of your vehicle which measures the distance that your vehicle has been driven to date.
Please provide the **odometer reading** at the time of the fuel purchase. It is not necessary to report the tenths.
The **fuel gauge** is the instrument on the front dash or panel of your vehicle that indicates the amount of fuel left in the fuel tank. Please indicate the amount of fuel in the fuel tank just prior to your fuel purchase and again after your fuel purchase by putting an X in the box that best describes the amount of fuel indicated by the gauge.
You may record the quantity of fuel purchased by either indicating the volume pumped (number of litres or gallons) or the total price.
