Announcements

As of March 1, 2006, the eHealth Conferences Database is no longer available on the Health Canada eHealth Resources Web site. However, the [eHealth Resources Conferences](#) Web page continues to be updated on a regular basis with new conference information in the subject areas of ICTs, telehealth, telemedicine, electronic health records and privacy as it relates to health. This month over 45 new conferences and events were added.

Please note that during the month of March the eHealth Online Literature Database and the Canadian eHealth Initiatives Database will be offline for what we hope will be a short period only. We do not know the specific period at the time of publication. We thank users in advance for their patience.
