The *Federal Child Support Guidelines* include tables of monthly child support amounts for each province and territory, and the rules for calculating the child support amounts. These tables were updated and came into force on May 1, 2006.

Les *Lignes directrices fédérales sur les pensions alimentaires pour enfants* comprennent des tables indiquant le montant mensuel des pensions alimentaires pour enfants pour chaque province et chaque territoire ainsi que les règles à suivre pour calculer les pensions alimentaires. Ces tables ont été mises à jour et sont entrées en vigueur le 1^{er} mai 2006.

These Simplified Tables provide an easy method to determine child support for incomes rounded to the nearest \$100. They are based on the Regulation Tables, which give the monthly child support amounts in \$1000 increments of income and a percentage to calculate child support amounts between the increments to be added to the base amounts.

Les tables simplifiées constituent une méthode facile pour déterminer les pensions alimentaires pour enfants pour chaque tranche de revenu arrondi aux 100 \$ près. Elles sont fondées sur les tables réglementaires qui indiquent les montants mensuels par tranches de revenu de 1 000 \$ ainsi que le pourcentage servant à calculer les pensions alimentaires pour les fractions de revenu situées entre chaque tranche. Ce pourcentage s'ajoute aux montants de base.

This document provides information on how to use the attached Federal Child Support Amounts: Simplified Tables, for Newfoundland and Labrador.

Le présent document montre comment utiliser les tables simplifiées pour Terre-Neuve-et-Labrador.

THE FOLLOWING STEPS WILL HELP YOU USE THE TABLES:

VOICI LES ÉTAPES À SUIVRE :

STEP 1

Determine the total annual income, before taxes, of the person who is paying, or will pay, child support.

ÉTAPE 1

Quel est le revenu annuel total, avant impôts, de la personne qui verse ou versera la pension alimentaire pour enfants?

Annual income is the money a person earns from employment, self-employment and income from investments. This includes all sources of income identified in your tax return (for example: salary, wages, commissions, Employment Insurance, social assistance). If you are unsure, your Canada Revenue Agency Notice of Assessment (or Re-assessment) may give you an indication of annual income, or please consult the Department of Justice Canada publication, *The Federal Child Support Guidelines: Step-by-step*. For the purposes of determining child support, round your income amount to the nearest hundred dollar amount. For example, if your annual income before taxes is \$35,338, then your rounded annual income would be \$35,300.

Le revenu annuel comprend l'argent qu'une personne tire d'un emploi ou d'un travail autonome ainsi que ses revenus de placements, c'est-à-dire les revenus de toutes provenances inscrits dans la déclaration de revenus (par ex., traitement, salaire, commissions, prestations d'assurance-emploi ou d'aide sociale). Dans le doute, reportez-vous à votre avis de cotisation (ou de nouvelle cotisation) de l'Agence du revenu du Canada ou consultez la publication du ministère de la Justice intitulée *Lignes directrices fédérales sur les pensions alimentaires pour enfants – Étape par étape*. Pour déterminer le montant de la pension à verser, arrondissez votre revenu au 100 \$ près; par exemple, si votre revenu annuel avant impôts est de 35 338 \$, votre revenu annuel arrondi sera de 35 300 \$.

STEP 2

Determine the amount of child support to be paid.

ÉTAPE 2

Pension alimentaire pour enfants : combien faut-il verser?

Once you have identified the income level, look for that value in the **Income** column of the Simplified Tables. The amount of child support to be paid at that income will be listed under the number of children for whom you are determining child support.

Après avoir déterminé votre niveau de revenu, trouvez l'équivalent dans la colonne **Revenu** des tables simplifiées. Le montant de la pension alimentaire à verser figure dans la colonne qui indique le nombre d'enfants visés par la pension.

For example, if the person who is paying support lives in Newfoundland and Labrador, has an income of \$35,300 a year and has two children, the amount of child support would be \$509 each month.

Prenons l'exemple d'une personne habitant Terre-Neuve-et-Labrador qui doit verser une pension alimentaire. Si cette personne gagne un revenu de 35 300 \$ et a deux enfants, elle devra verser une pension de 509 \$ par mois.
