Administrative Guidance

1. OSFI may require capital instruments reviewed post-issuance and that are found not to comply with OSFI Guidance to be eliminated from total capital or reclassified as a different tier of capital. Where the FRE has applied for and received a capital confirmation, OSFI will consider whether the material submitted with the application contained a material misstatement of the facts or omission of the facts in reaching its decision.
2. The terms and conditions of the innovatives and the preferred shares must meet all the requirements to qualify as capital pursuant to OSFI Guidance.
3. A confirmation of capital quality is not a legislative requirement or OSFI Guideline requirement. A request to confirm capital quality is at the discretion of the FRE.

² Officer is defined in section 2 of the *Bank Act*, *Trust and Loan Companies Act* and *Insurance Companies Act*.

-
4. This confirmation is subject to a user pay fee as set out in the [Charges for Services Provided by the Office of the Superintendent of Financial Institutions Regulations 2002](#).

The information requirements and administrative guidance are intended to satisfy typical capital confirmations. They have been derived from OSFI's experience in assessing capital confirmations. Financial Institutions who provide all information and material requested can generally expect a more timely assessment of their capital confirmation. As appropriate to the circumstances, OSFI may request additional information, take into account other matters, impose terms and conditions, or require undertakings.
