

CALCULATION OF TAX FOR 1994 – MULTIPLE JURISDICTIONS

- Use this form to calculate your tax if:
 - you resided in a province on December 31, 1994, and all or part of your business income for the year was earned and is allocable to a permanent establishment outside that province or outside Canada; or
 - you were a non-resident carrying on business in one or more provinces.
- If you ceased to reside in Canada during 1994, your province of residence on December 31, 1994, is the province you lived in on the last day you resided in Canada.
- Attach one completed copy of this form to your 1994 income tax return.
- If an allocation of the federal forward averaging tax credit is being made, also complete and attach one copy of Form T2203A.
- If minimum tax applies, complete and attach Forms T691A and T691.

Part I – Income Allocated to Various Jurisdictions

Net income (from line 236 of your return)	1.	
Net income from self-employment including partnership income from line 122, and lines 135 to 143 of your return (excluding losses)	2.	
Excess income (line 1 minus line 2; if negative, enter "0")	3.	

Note: In column 2 below, allocate to your province of residence any net income from self-employment from line 2 above that is not allocable to a permanent establishment.

Note: In column 3 below, allocate to your province of residence the amount from line 3, if any. If line 3 is zero, calculate the allocations in column 4 by applying the percentages of the incomes allocated to the jurisdictions (including your province of residence) in column 2, to the net income on line 1. In column 5 below, determine the percentage for each jurisdiction on the basis of the income allocated in column 4.

(1) Jurisdiction	(2) Allocation of net income from self-employment (line 2 above)	(3) Excess income (line 3 above)	(4) Income allocated to jurisdiction (column 2 plus column 3)	(5) % of income allocated to jurisdiction

Explanatory Notes for Foreign Tax Credit

- * **Non-business income tax paid to a foreign country** is the total income or profits taxes paid to that country (or to a political subdivision of the country) for the year (excluding business income tax), minus any part of such taxes that is deductible under subsection 20(11), or deducted under subsection 20(12) of the *Income Tax Act*. It does not include any part of such taxes that can reasonably be attributed to amounts that:
 - any other person or partnership received or is entitled to receive from the foreign country;
 - relate to employment income from that country for which you claimed an overseas employment tax credit;
 - relate to taxable capital gains from that country for which you claimed a capital gains deduction;
 - were deductible as exempt income under a tax treaty between Canada and that country; or
 - were taxable in the foreign country because you were a citizen of that country, and relate to income from a source within Canada.
- ** **Net foreign non-business income¹** is the total non-business income from the foreign country before deducting the foreign tax, minus allowable expenses and deductions relating to the foreign income (other than any deduction you claimed in respect of a dividend you received from a controlled foreign affiliate). Reduce this amount by any income from that foreign country for which you claimed a capital gains deduction, and by any income from that country that was deductible as exempt income under a tax treaty between Canada and that country. Also, reduce this amount by any part of employment income from that country for which you claimed an overseas employment tax credit. If the net foreign non-business income is greater than the net income, use the amount of net income in the calculation.
- *** **Net income²** is the amount on line 236 of your return (or if you filed a Form T581 election, it is the amount on line 7 of that form) minus any:
 - amounts deductible as an employee home relocation loan deduction (line 248 of your return);
 - amounts deductible as a stock option and shares deductions (line 249 of your return);
 - amounts deductible as an other payments deduction (line 250 of your return);
 - net capital losses of other years claimed (line 253 of your return);
 - capital gains deduction claimed (line 254 of your return); and
 - foreign income deductible as exempt income under a tax treaty, or deductible as net employment income from a prescribed international organization (included on line 256 of your return).
- **** **Federal tax** is the federal tax before the federal foreign tax credit (from line 18 of this form) plus any:
 - overseas employment tax credit (line 11 of this form); and
 - dividend tax credit (line 12 of this form);
 and minus any:
 - refundable Quebec abatement (for residents of Quebec only) (line 26 of this form); and
 - tax adjustments for CPP/QPP disability benefits for previous years (included on line 8 of this form).
- † **Business income tax paid to a foreign country** is the total of business income or profits taxes paid to that country (or to a political subdivision of the country) for the year and the unused foreign tax credits for that country for the seven taxation years before and the three taxation years immediately after this taxation year. It does not include any part of the business income tax that can be reasonably attributed to an amount that any other person or partnership has received or is entitled to receive from that country, or was deductible as exempt income under a tax treaty between Canada and that country.
- †† **Net foreign business income¹** is the total business income from the foreign country minus allowable expenses and deductions relating to the foreign income, and minus any part that was deductible as exempt income under a tax treaty between Canada and that country. If the net foreign business income is greater than the net income, use the amount of net income in the calculation.
- ††† **Basic federal tax** is the federal tax before the federal foreign tax credit (from line 18 of this form) plus any:
 - overseas employment tax credit (line 11 of this form); and
 - dividend tax credit (line 12 of this form);
 and minus any:
 - tax adjustments for CPP/QPP disability benefits for previous years (included on line 8 of this form), and
 - federal surtax (line 17 of this form).

¹ **Note:** If you were a resident of Canada for part of the year, only include the income for the part of the year when you were a resident of Canada.

² **Note:** If you were a resident of Canada for part of the year, include the income for the part of the year when you were a resident of Canada, and your taxable income earned in Canada (before deductions in paragraphs 115(1)(d) to (f) of the *Income Tax Act*) as reported on your Canadian income tax return, for the part of the year when you were not a resident of Canada.
