## **Wage Settlements**

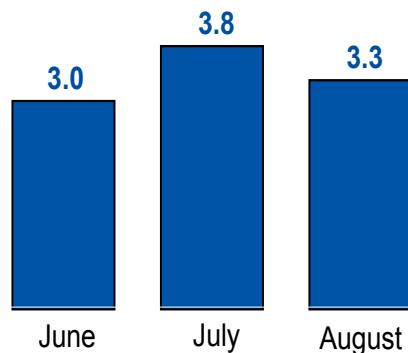

### **Covering 500 or More Employees**

#### **August 2007**

Major collective bargaining settlements reached in August 2007 provided base-rate wage adjustments averaging 3.3% annually over the contract terms, down from the 3.8% average in July. The results are based on a review of 19 settlements covering 30,780 employees.

When the parties to these settlements previously negotiated, the resulting wage adjustments averaged 3.1% and contract duration averaged 37.6 months, compared to the 3.3% in their current round of settlements and the average contract duration of 39.6 months.

**Percentage Wage Adjustments in Major Settlements by Month, 2007**

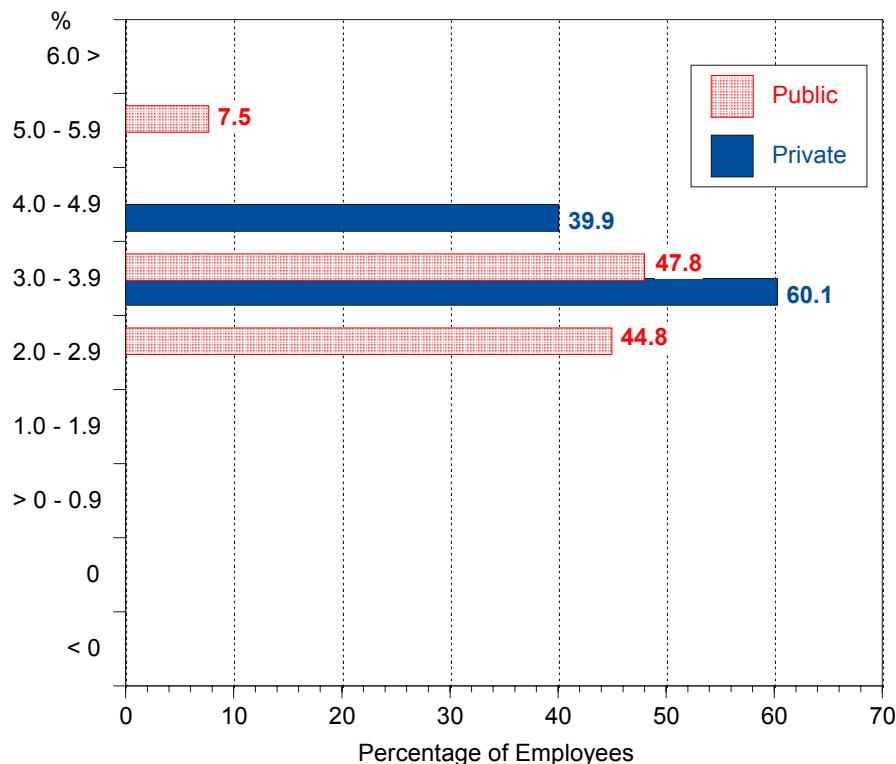

Wage adjustments in the public sector averaged 3.2% for 22,790 employees in 14 agreements. The ATB Financial settlement in Alberta (formerly Alberta Treasury Branches) with a wage adjustment averaging 5.0% influenced the public-sector figure. Excluding the ATB Financial settlement, the remaining agreements averaged 3.0%.

Private-sector wage adjustments averaged 3.7% for 7,990 employees in 5 agreements. The higher private-sector average this month was due to two Algoma Steel settlements in Sault Ste. Marie, Ontario, one of the settlements involved 590 office employees with a wage increase averaging 4.5% and the other, 2,600 production employees with a wage increase averaging 4.8%. These 2 agreements accounted for 46% of the total private-sector employee coverage in August settlements. Excluding the 2 Algoma Steel settlements, the remaining private-sector settlements averaged 3.1%.

On a jurisdiction basis, wage adjustments ranged from a low of 2.6% in Manitoba to a high of 5.0% in Alberta (due to the ATB Financial settlement mentioned above). In the federal jurisdiction, 4 agreements involved 6,180 employees with an average annual adjustment of 2.7%.

On an industry basis, wage adjustments ranged from a low of 2.6% in the education, health and social services sector to a high of 4.7% in the manufacturing sector. The 4.7% figure in manufacturing is an exception and not the norm; this sector, for the month of August, consisted of just the 2 Algoma Steel settlements (with relatively high wage adjustments) mentioned above.

**Percentage Distribution of Employees by Size of Wage Adjustment,  
by Public and Private Sectors, August 2007**

Wage adjustments in the first 8 months of 2007 (January through August) averaged 3.1% for 620,620 employees in 206 agreements; the public-sector average is 3.3% for 263,810 employees in 96 agreements and the private sector average is 3.0% for 356,810 employees in 110 agreements.
