Wage Settlements

Covering 500 or More Employees

July 2007

Major collective bargaining settlements reached in the month of July 2007 provided base-rate wage adjustments averaging 3.8% annually over the term of the contracts. The results are based on a review of 29 settlements and cover 70,055 employees.

When the parties to these settlements previously negotiated, contract duration averaged 28.2 months and the resulting wage adjustments averaged 2.8%, compared to the 3.8% in their current round of settlements and average contract duration of 36.1 months.

Wage adjustments in the public sector averaged 4.4% for 34,750 employees in 12 agreements. Private-sector wage adjustments averaged 3.3% for 35,305 employees in 17 agreements.

The relatively higher average increase this month was due in large part to the larger wage adjustments in Alberta settlements (averaging 5.2%), including an agreement with the Provincial Health Authorities of Alberta covering 23,500 nurses (accounting for 68% of public sector employee coverage for July). Excluding the Alberta settlements, the remaining agreements across Canada averaged increases of 2.9%.

On a jurisdictional basis, Alberta registered the largest average wage adjustment at 5.2% (5 agreements covering 29,215 employees). The second largest average increase was posted in Saskatchewan at 3.9% (2 agreements covering 1,400 employees). The smallest average wage adjustment was recorded in the federal jurisdiction at 2.6% (4 agreements covering 10,020 employees). The largest concentration of agreements (37.9%) and employees (34.1%) was in Ontario where wage adjustments averaged 2.9%.

On an industry basis, average wage adjustments in July 2007 ranged from a low of 2.0% in the information and culture sector (2 agreements covering 4,380 employees) to a high of 5.7% in primary industries (2 agreements covering 2,760 employees, including Suncor Energy Inc. at 6.3%). The largest concentration of agreements was in the construction sector (31% of all agreements) with wage adjustments averaging 3.3%. The largest concentration of employees was in education health and social services sector (36.5% of all employees) with wage adjustments averaging 4.8%.

Wage adjustments in the July settlements ranged from a low of 1.9% for 3,700 office and technical employees with Bell Aliant Regional Communications, to a high of 6.3% for 2,100 employees with Suncor Energy Inc. in Alberta. Just over 25% of employees received increases in both the 2.0 to 2.9% range and the 3.0 to 3.9% range; and slightly less than 39% received increases in the 5.0 to 5.9% range.
