Moving Forward – Changing the Safety and Security Culture

- Changing the way we do business
- Integrating safety and security into daily operations
- Shifting culture
- Adopting a new accountability framework

Accountability

- **Within Transport Canada and within the aviation industry**
- **Accountable Executive is critical to enabling cultural change**
- **Action taken against the certificate holder will not result in personal liability**
- **Leadership from the top**

Safety and Security Management

- Modal differences
- Aviation on the cutting edge
- Maintaining public confidence is key
- Public debate is welcome

Safety Management Systems

- An international initiative recognized as the most significant advancement in aviation safety in recent years
- Make a safe system even safer
- Not self-regulation
- Not de-regulation
- Not about reducing oversight

Sharing Best Practices

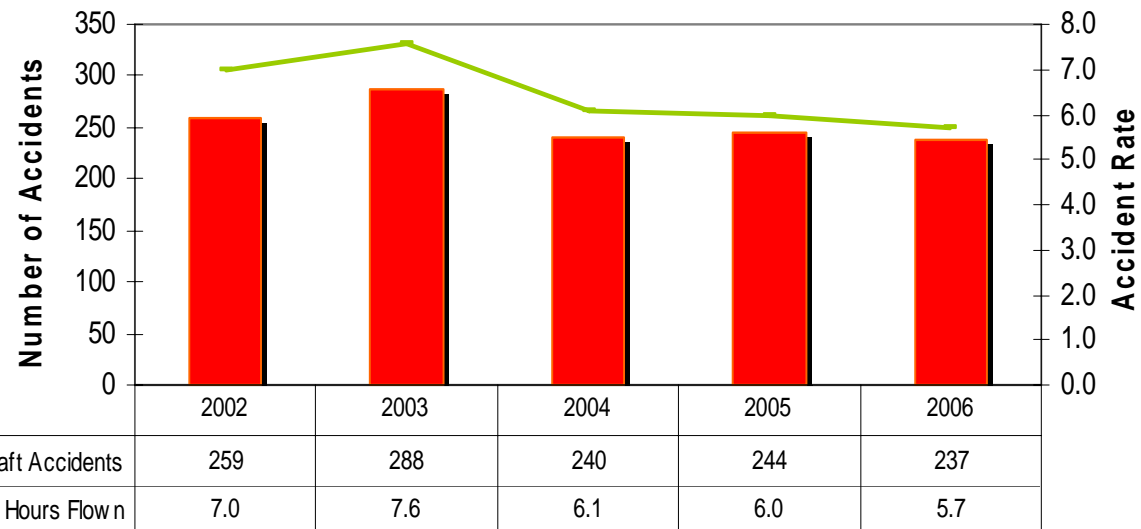

- **Canada is leading the world on SMS in aviation**
- **TC working with the international community – ICAO, U.S., Mexico, Columbia, China**
- **Expanded collaboration with IATA**

Facts and Figures

Canadian-Registered Aircraft Accidents and Accident Rates 2002- 2006
