

**Local Government -
Capital Expenditures
2006 Preliminary
and 2007 Forecast**

Form F18

Confidential when completed

Si vous préférez ce questionnaire en français, veuillez cocher

Collected under the authority of the *Statistics Act*, Revised Statutes of Canada, 1985, Chapter S19.

Completion of this questionnaire is a legal requirement under this Act.

Please update above name and address if necessary

When completed, photocopy for your records and return original in envelope supplied.	To: Statistics Canada OID, JT 2-C14 170, Tunney's Pasture Driveway Ottawa, Ontario K1A 0T6	Target date for receipt: November 15, 2006
--	---	--

This survey is conducted by the Public Institutions Division to augment our series of government finance statistics. It is designed to collect financial information in a form permitting the estimation of financial statistics for all local governments well in advance of final statistical reports. The survey results will be aggregated by function and submitted to several Divisions in Statistics Canada.

Data collected in this survey assist analysts and planners interested in assessing, within each province and territory, the financial activities of government and in determining the resulting employment potential for labour, materials and services. Tabulations may be obtained directly from Public Institutions Division and are included in the publications "Private and Public Investment in Canada" and "Construction in Canada". Results are published in a format that safeguards confidentiality as required by the Statistics Act.

Federal-Provincial Agreements to share information:

To avoid duplication of enquiry and to provide consistent statistics, this survey is being conducted under cooperative agreements, made in accordance with the Statistics Act, Revised Statutes of Canada, 1985, Chapter S19 under Section 11 for the exchange of information with the Statistical bureaus of Newfoundland, New Brunswick, Quebec, Ontario, Manitoba, Saskatchewan, Alberta and British Columbia, for respondents in each of the respective provinces; and under Section 12 for joint collection and sharing information with the Prince Edward Island Department of Provincial Treasury, the Nova Scotia Department of Finance, the Nova Scotia Department of Natural Resources, the Budget Planning and

Economics Division of Alberta Treasury, the Northwest Territories Bureau of Statistics, the Nunavut Bureau of Statistics, the Yukon Bureau of Statistics and Natural Resources Canada.

Statistics Canada only enters into Section 11 agreements with provincial statistical agencies which have statistics acts similar to the federal act. These agencies have the authority to collect this information and have the same provisions for confidentiality and penalties for disclosure of information as the Federal Statistics Act. The agreements with the agencies under Section 12 require that they keep the information confidential and use it only for statistical and research purposes.

Agreements coming under Section 12 of the Canada Statistics Act shall not apply to any respondent who gives notice in writing to the Chief Statistician that he objects to the sharing of the information.

The data sought include preliminary information for 2006 and a forecast for 2007, rounded to the nearest thousand.

Estimation techniques require the data for these two years for every local government surveyed. Where preliminary data for 2006 or forecast data for 2007 are not available, **please provide your best estimates.**

If any questions should arise regarding the completion of this form, please call the Public Institutions Unit at (613) 951-1063 (facsimile: 1-800-755-5514 (toll free) e-mail: piu/uip@statcan.ca).

NOTE: An electronic version of this survey in Excel97 is available. Use above e-mail address for a request.

The requested information INCLUDES data from water and sewer funds but EXCLUDES data from public transit, gas, telephone and electric operations as well as hospitals and schools

Please refer to Reporting Guide on page 5

Standard and custom tabulations of the survey results are available by contacting the Data Dissemination and External Relations Coordinator, Public Institutions Division, at (613) 951-0767.

Goods and Services Tax / Harmonized Sales Tax

We request that the amount of Goods and Services Tax (GST)/Harmonized Sales Tax (HST) to be paid by your municipality be reported NET of the tax credits and rebates on pages 2 through 3 of the questionnaire. We anticipate that some respondents will not be able to report their figures in this manner. Please indicate here (check one box only) how the GST/HST will be reported.

1. Net GST/HST	001
2. Gross GST/HST	002
3. No GST/HST	003
4. Other (specify) _____	004

Examples

- ① A **firehall** is to be constructed in a project spanning both years. The expenditure for the preliminary year is \$100,000 with construction expected to be completed in the forecast year at a further cost of \$250,000.
- ② An existing/used **office building** has been purchased for \$200,000 during the preliminary year for **general government** purposes. A \$125,000 addition is planned to be built during the following year, for the same purpose.
- ③ In the forecast year, two parcels of **land** designated for future development as an **industrial park** are planned to be purchased at a total cost of \$175,000.

Comments: (e.g. reasons for major changes from previously reported data)

THANK YOU FOR THE INFORMATION

Reporting Guide

1. The primary intent of the survey is to measure the amount of new investment in fixed assets, by local governments, on a functional basis.
2. Please report gross capital expenditures in Section A on pages 2 and 3.

Also complete Section B on page 4.
3. Capital expenditures are requested on an accrual basis. A project which spans more than one year should be reported in each year, to the extent of achievement in each year, irrespective of when payment is made.
4. Goods and Services Tax/Harmonized Sales Tax - Report expenditures inclusive of the amount of Goods and Services Tax (GST)/Harmonized Sales Tax (HST) to be paid by your municipality NET of tax credits and rebates.
5. The requested information INCLUDES data from water and sewer funds but EXCLUDES data from public transit, gas, telephone and electric operations as well as hospitals and schools.
6. The data sought comprise preliminary information for 2006 and forecast information for 2007 rounded to the nearest thousand. Where preliminary data for 2006 or forecast data for 2007 are not available please provide your own best estimates.
7. Multi-purpose structures, multi-use or pooled assets should be coded according to principal use.
8. Transfers, grants-in-aid or shared-cost contributions received from the Federal or Provincial governments or their agencies/enterprises for capital purposes should be reported in Section B on page 4 and should not be netted from expenditures reported in Section A.
9. Shared-cost contributions received from other municipal authorities (municipalities, conservation authorities, etc.) should not be netted against the total cost of joint projects. The total cost of such projects should be reported by the municipality responsible for construction. The contributions made toward such projects, by other municipalities should not be considered as capital expenditures by them. Information reported in this manner will prevent duplication of data when returns are aggregated to obtain provincial totals.
10. Shaded areas indicate that no response is required.
12. Buildings, Engineering Structures and Land – Report in the New Assets columns on pages 2 and 3, the total cost of construction (contract and by own employees) including additions, renovation, resurfacing, retrofit, refurbishing, overhauling and rehabilitation to the extent of achievement in each year. The cost of any machinery and equipment which is an integral or built-in feature of the structure (i.e. elevators, heating equipment, sprinkler systems, environmental controls, intercom systems, etc.) should be reported as part of that structure as well as landscaping, other site preparations, associated parking lots, etc. Also include all preconstruction planning and design costs such as engineering and consulting fees, surveying, soil testing, etc., and any materials supplied to construction contractors for installation. Machinery, equipment and furnishings which are housed in structures and which can be removed or replaced without significantly altering the structure should be reported separately in Machinery and Equipment on pages 2 and 3.

Report expenditures for Used Assets and Land in the appropriate columns.
13. Housing Capital Expenditures – Report in the New Assets columns on pages 2 and 3, the total cost of residential housing construction. Include expenditures made on single homes, semi-detached dwellings, row houses, apartments, condominiums, mobile homes, etc. Most of these expenditures are made by municipal housing corporations with the intent of providing affordable housing to low-income individuals. Housing expenditures made by municipalities for their own use (i.e. office or municipal administrative buildings) should be reported in the Central Government function.
14. Machinery and Equipment – Report in the New Assets columns on pages 2 and 3, the total installed cost including major replacement parts, renovation, retrofit, refurbishing, overhauling and rehabilitation of all machinery such as motors, generators, etc., and the delivered cost of movable equipment such as automobiles, trucks, professional and scientific equipment, office furniture and fixtures, etc. whether for your own use or for lease to others.

Report expenditures for Used Assets in the appropriate columns.

Section A: Capital Expenditures

11. Capital Expenditures – Report gross expenditures for new and used buildings and machinery and equipment, as well as engineering structures and land. Include the cost of renovation, resurfacing, retrofit, refurbishing, overhauling and rehabilitation. Include also leasehold improvements and costs charged to capital account such as architectural, legal and engineering fees as well as work done by your own labour force and installation costs for machinery and equipment. Do not deduct receipts for insurance claims or allowances for scrap or trade-ins. Outlays made to maintain the operating efficiency of fixed assets (non-capital repair and maintenance expenditures) such as janitorial service, snow removal, salting and sanding, oil changes and lubrication of vehicles and other machinery should be excluded.
16. Used Assets – Report gross acquisition costs of existing buildings and used machinery and equipment. The purchase of imported used assets should be reported in the New Assets columns.
17. Land – Report gross acquisition costs and include associated legal, surveying and other fees.
18. Function Codes – These identifiers will enable Statistics Canada to release the aggregated survey results by the type of service being provided.

Section B: Capital Grants

19. Report, by function, monies received and expected to be received from the Federal and Provincial governments and their agencies/enterprises to help finance capital expenditures, during these reporting periods. Do not include the amount of Goods and Services Tax (GST)/Harmonized Sales Tax (HST) rebate revenue to be received by your municipality (see item 4).
