

2001 Seed Corn Trade Survey

Confidential when completed

Collected under the authority of the Statistics Act, Revised Statutes of Canada, 1985, chapter S19.

Signature of responsible Officer

Telephone Number

Please correct any mistakes in Name or Address

The purpose of this survey is to provide information on seed corn sales and to aid in the determination of corn acreage in the different areas of Canada. Individual returns are kept confidential but the completed summary of the results will be use by the companies participating, their regional committees, agricultural departments, farm organizations and the general public.

1. Report only sales for planting during 2001.
2. Include imported seed corn in sales figures.
3. Report only seed corn used for grain and fodder (do not include sweet corn).
4. Do not include seed corn shipped as replacement seed at no charge.
5. Report measure in units (eg. sacks, bags).
6. Do not include sales to the seed corn companies on the list. These are already being surveyed. This precaution is to avoid double-counting.

If complete data is not available, please give us your best estimate.

Provinces	Units of Seed Corn Sold for Grain and Fodder		% of Units of Genetically Modified Seed Corn Sold		Estimated Average Retail Price Per Unit				
							001	acres	hectares
Ontario	101		401		201		301		
Quebec	102		402		202		302		
Maritimes	103		403		203		303		
Manitoba	104		404		204		304		
Saskatchewan	105		405		205		305		
Alberta	106		406		206		306		
British Columbia	107		407		207		307		
Total	108				208		308		

Average pounds or kilograms per unit of your sales were:

_____ pounds

_____ kilograms

Please report exports and imports by your firm from July 1, 2000 to June 30, 2001.

Exports of Seed Corn for Grain and Fodder _____ units

Imports of Seed Corn for Grain and Fodder _____ units
