The purpose of this survey is to collect commercial slaughter data not collected by Agriculture Canada. The information is used in measuring farm production, per capita consumption of meat and in the preparation of supply-disposition balance sheets for livestock. Farm organizations, governments, private business and research institutions rely on this data for planning, developing, recommendations and modelling.

New Brunswick residents please note:

To avoid duplication of enquiry this survey is conducted under co-operative agreements for the sharing of information in accordance with:

- Section 12, Statistics Act, with the New Brunswick Department of Agriculture and Rural Development.

Report all animals slaughtered during the last 6 months.

Include all animals slaughtered for others.

DO NOT include animals slaughtered for you in some other plant.

The slaughter information you supply is kept strictly confidential.
