The purpose of this survey is to collect information on livestock and crops. The staticties produced from the survey enable those active in the agricultural sector to observe and assess changes in the industry, measure performance and keep the agricultural community and general public informed of developments. The questions in Section I (Cattle and Calves Supplementary) are sponsored by Agriculture and Agri-Food Canada, to aid in the analysis of the cattle sector and the administration of the BSE adjustment programs including the Cattle Set Aside Program.

Statistics Canada is collecting information concerning the form described on the label. If the operators of this holding manage any other farm(s) entirely separate from this form (i.e., separate accounting books are kept), please do not include any data for the other farm(s) on this question naire.
