2002/03/01:

Scott LaPlante was arrested at the CKL Lindsay detachment at 4:26pm. This was all conducted on video. He acknowledged his rights and chose not to speak to a lawyer at that time. He indicated he didn't understand what was happening and this was made clear to him what the allegations before him were and what he would be charged with. LaPlante was very uneasy during this conversation. It was put to him certain aspects of the investigation-involving his actions which he could not recall happening. He then requested to speak with his wife, Phyllis before he said anymore to police. After this conversation in private Scott stated directly to Cst Lee and Hayes, "At this time I'm not denying it, or saying we did it. We have to speak with a lawyer"

The interview was completed with Scott being released on video by undertaking and PTA with the following conditions:

-remain within CKL

-no communication directly or indirectly with Robert Edmonds or his entire family.
