PROVINCE OF PRINCE EDWARD ISLAND ESTIMATES PRESENTATION - EXPLANATORY NOTES

INTRODUCTION

The 2004/2005 Estimates represent the financial plan of the Province for the fiscal year commencing April 1, 2004, and are presented by the Government in support of its request to the Legislative Assembly for authority to spend public monies. This request is formalized through the tabling of the *Appropriation Act 2004*.

The Estimates and the Provincial Treasurer's Budget Address, along with the subsequent reporting of the financial results in the Public Accounts, assist the Legislative Assembly in holding government accountable for the allocation and management of public funds.

For comparative purposes, the Estimates include the 2003/2004 budget and forecast figures, which have been reclassified and adjusted to conform with the 2004/2005 presentation.

GROSS BUDGETING

With the exception of some crown entities as stated on Page 14, expenditures are provided on a gross basis where related revenues are not netted against expenditures. In the case of crown entities, certain revenues are netted against related expenditures; however, Federal Government revenues on cost-shared programs are normally reflected in the Operating Fund on a gross basis along with the related expenditures.

The gross budgeting concept enhances legislative control in that all monies received by the Government are deposited in the Operating Revenue Fund and all disbursements must be appropriated by the Legislative Assembly.

GLOSSARY

Amortization

Amortization is the periodic allocation of the cost of a capital asset over its useful life. In the 2003/2004 fiscal year, the Province has implemented the straight-line method of amortizing tangible capital assets. The straight-line amortization method allocates the annual expense in equal amounts over time; the amortizable amount is divided by the useful life or term of the asset. In the year of an asset's acquisition, amortization is recorded at half the normal rate.

Capital Account

These are expenditures of a significant nature, the benefits of which normally extend beyond one fiscal year. Capital expenditures include construction projects (roads and buildings), major renovation projects, equipment and land acquisitions.

Crown Entities Surplus (Deficit)

This summary mainly includes entities whose results have not been incorporated into the line-by-line detail of the Budget Estimates. Several of these entities such as: Prince Edward Island Liquor Control Commission, Island Waste Management Corporation and Prince Edward Island Grain Elevators Corporation are government business enterprises, which by definition do not rely on government funding to maintain their operations. In accordance with accounting standards, only their bottom line results are reported in the Province's financial statements.

The remaining entities, which are smaller in nature or for trust and reserve purposes, are more dependent on government support. Their financial activities continue to be budgeted on the net basis rather than on the line-by-line method used for other consolidated crown entities. Page 14 provides a list of these entities.

Deficit

A deficit occurs when expenditures exceed revenues for a fiscal year. (See also: Surplus)

Net Debt

Net Debt is the government's liabilities minus its financial assets.

Net Effect of Change in Tangible Capital Assets Policy

The difference between government's current year's tangible capital assets and current year's amortization of government assets. Page 13 provides a breakdown of this number.

Operating Account

The Operating Account represents the largest part of government expenditures and includes the day-to-day operational costs. More specifically, it includes salaries, supplies, debt service costs, and operating grants for various programs and organizations in government, including regional health boards and school boards. With the exception of directly-related revenue intended to offset the cost of capital projects, all operational revenue is reflected in the Operating Account.

Surplus

A surplus is the opposite of a deficit and occurs when revenues exceed expenditures. (See also: Deficit)

Tangible Capital Assets

These are non-financial assets of physical substance that are purchased, constructed, developed or otherwise acquired, and which: (i) are used in the production or supply of goods, delivery of services or program outputs; (ii) have a useful life extending beyond one year; and (iii) are not intended for resale in the ordinary course of operations. Canadian accounting standards for government entities require that the cost of tangible capital assets be amortized over the useful life of each asset.

PRIMARY EXPENDITURE ACCOUNTS

The primary expenditure types set out in the Chart of Accounts and used in this document are listed below. The examples of expenditure included in each primary are not intended to be all inclusive, but do represent the main items.

- (a) Administration rent, telephone, office supplies, postage, property tax and insurance.
- (b) Capital see 'Capital Account' on Page 4.
- (c) Debt debt service costs, bank charges and fees related to debt instruments.
- (d) Equipment office equipment, vehicles, computer equipment and field equipment.
- (e) *Materials, Supplies and Services* field supplies, fuel, utilities, drugs, food, repairs and maintenance.
- (f) Professional and Contract Services consultants, legal services, doctors, dental and nurses' fees, RCMP contract, snow removal contracts and other contract services.
- (g) Salaries remuneration and benefit costs for permanent and casual employees, salaries and indemnities paid to MLA's and Ministers.
- (h) *Travel and Training* travel allowances, air travel, accommodation, vehicle operating and lease costs, in-service training and other training assistance for employees.
- (i) Grants transfer payments to individuals, companies, organizations and quasi-government organizations such as school boards and regional health boards.

REVENUE SOURCES

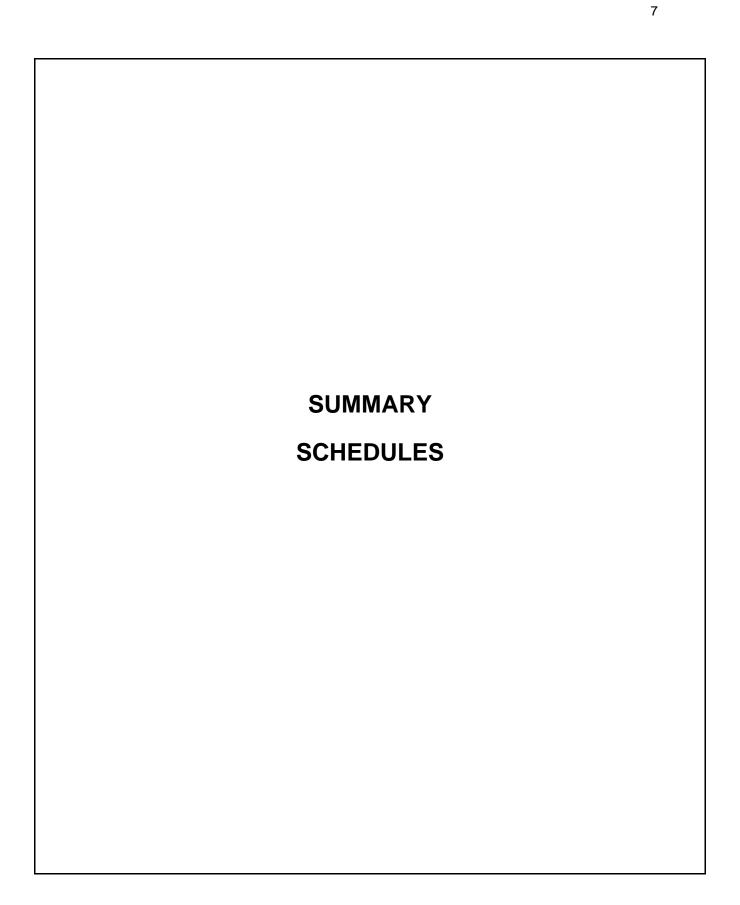

The Chart of Accounts includes six primary revenue sources. One source is federal, with the other five being provincial. In more specific terms, these primary revenue accounts are as follows:

- (a) Federal includes conditional and non-conditional transfer payments from the Federal Government such as Equalization, Canada Health and Social Transfer, and the Canada/Prince Edward Island Infrastructure Program Agreements and various other agreements.
- (b) Licenses and Permits revenues from licenses and permits issued under various provincial acts and regulations, the most significant revenue item being motor vehicle licenses and permits.
- (c) Fees and Services revenue received from fees charged for various services provided by government as well as fines and penalties assessed by the Court.
- (d) Sales revenue received for the sale of goods. The most significant items included in this primary are revenues generated by the Liquor Control Commission, the Lotteries Commission and Golf Links Prince Edward Island Inc.
- (e) Taxes revenue generated under various provincial tax legislation.
- (f) *Investments* interest revenue resulting from loans to government crown corporations, other community-based organizations and deposit accounts.

APPENDICES

The following Appendices have been included in the Estimates Book to supplement the information contained in the main Estimates.

- **Appendix I** Cash Requirements. Appendix I sets out the cash requirements and sources of cash for budgetary and non-budgetary expenditures, loans to Crown Corporations, and other debt transactions.
- Appendix II Schedule of Reclassification of 2003-04 Expenditure and Revenue to Conform to the 2004/2005 Presentation. This Appendix is included to give a better comparison of the 2003/2004 budget and forecast to the 2004/2005 budget in areas where expenditures and revenues have been moved to another or new appropriation vote.

MINISTRY OF AGRICULTURE, FISHERIES, **AQUACULTURE AND FORESTRY**

HON. KEVIN MACADAM Minister

JOHN MACQUARRIE Deputy Minister of

Agriculture and Forestry

LEWIE CREED Deputy Minister of Fisheries and Aquaculture

The mandate of the Ministry is to contribute to economic and community development throughout Prince Edward Island by promoting the growth of successful and sustainable farming, fishing, aquaculture, food processing and forestry businesses; and by identifying and developing market opportunities for primary, value-added and knowledge-based products and services.

HON, PATRICK G. BINNS

Premier & President of Executive Council

LYNN ELLSWORTH

Clerk of the Executive Council

The Executive Council Office provides staff and policy support to the Cabinet, the Strategic Planning Committees, the Legislative Review Committee, the Minister responsible for Acadian and Francophone Affairs and to the Premier in his capacity as both President of the Executive Council and Minister Responsible for Intergovernmental Affairs. As well, a Commission has been established under the auspices of the Executive Council Office to examine electoral boundaries in accordance with Section 8 of the *Electoral Boundaries Act*.

HON. GREG DEIGHAN Speaker

CHARLES MACKAYClerk of the Legislative Assembly

The Legislative Assembly, dating back to 1773, is the most important Government institution on Prince Edward Island. The Legislative Assembly is responsible for making provincial law and for approving, on behalf of Islanders, the money Government requires to carry on the public services of the Province. The Assembly also provides a forum for debate on Government decisions and on the important public issues of the day.

MINISTRY OF TRANSPORTATION AND PUBLIC WORKS

HON. GAIL SHEA Minister

STEVE MACLEAN, P.Eng. Deputy Minister

The mandate of the Ministry is to provide policy advice to the Government on all matters related to transportation and public works; construct and maintain, within available financial resources, a safe, affordable, efficient and environmentally sustainable road system for the movement of people and goods within the Province; and provide services to other government departments in the areas of building construction, provincial land management, building maintenance, accommodations and the provincial waste management system.
