Health Services Branch H-2
Government of Yukon
Box 2703
Whitehorse, Yukon Y1A 2C6

Note: Yukon physicians, pharmacists, and nursing stations will be forwarded a copy of the Yukon Formulary automatically.

Formulary information can be found on the internet at: www.hss.gov.yk.ca
(See Programs & Services, Insured Health & Hearing Services, Related Link-Formulary)

PREFACE

The Yukon Drug Programs Formulary has been established to:

- i) Provide coverage to Yukon residents for pharmaceutical products that qualify under the respective program regulations as established under the Health Act.
- ii) Minimize the cost of benefits provided under the respective programs based on current efficacy, price and therapeutic alternatives information.
- iii) Encourage the rational use of prescription drugs.

THE FORMULARY

The Yukon Drug Programs Formulary is a listing of therapeutically effective prescription drugs of proven high quality that have been approved for coverage. It is compiled by the Health Services Branch with the advice of the Yukon Formulary Working Group.

The Director, Health Care Insurance will give final approval of new pharmaceutical products for inclusion to the Yukon Drugs Program Formulary based on the advisement of the Yukon Formulary Working Group. The eligibility of a given product for each program is indicated in the Formulary.

DRUG REVIEW PROCESS

The Yukon Formulary Working Group is responsible for making a recommendation for a drug to be excluded or included in the Formulary, and recommends criteria for drugs covered by Exception status.

Submissions for new chemical entities and new combination products should be forwarded to the Common Drug Review Directorate. In the Common Drug review process, clinical and pharmacoeconomic drug evaluations and recommendations from CEDAC will be forwarded and reviewed by the Yukon Formulary Working Group for consideration. For more information about the CDR and CEDAC, visit <http://www.cadth.ca>

Evaluations, as provided by the Saskatchewan Formulary Committee and the Saskatchewan Drug Quality Assessment Committee, will be reviewed by the Yukon Formulary Working Group as required for information.

Membership on the Yukon Formulary Working Group is by the appointment of the Director of Health Care Insurance, and will include a pharmacist, a physician, pharmaceutical program manager, program officers and other such consultants as may be considered necessary from time to time. This group meets on a monthly basis to review drug requests, criteria and other formulary issues. In addition, Exception Drug applications are also reviewed. (See page VIII "Exception Drug Status")

Any decision of the Yukon Formulary Working Group can be appealed. Letters of appeal can be sent to the respective programs at the address noted on page (III).

POLICY FOR FORMULARY DELETION

The Director, Health Care Insurance may delete or delist any product from the Yukon Drug Programs Formulary under the following circumstances:

After review of a recommendation from the Yukon Formulary Working Group to delist a product for any of the following reasons:

- a) where the standards of quality and/or production have altered and are not considered to meet accepted standards;
- b) where new information demonstrates that the product does not have adequate therapeutic benefit;
- c) where undesirable effects of the product make the continued listing of the product inappropriate;
- d) where new products possessing clearly demonstrated therapeutic advantages have been listed, thereby making the continued listing of the product unnecessary;
- e) where new drugs do not meet, for any reason, the unique needs and/or requirements of Yukon residents;

Where there are undesirable financial, supply or administrative implications to continued listing of a product, the Director Health Care Insurance, in consultation with the Yukon Formulary Working Group, may delete or delist a drug from the Formulary.

ADVERSE DRUG REACTIONS

Forms and information can be obtained by contacting Health Canada, Drugs & Health Products www.hc-sc.gc.ca

RELEASE OF PATIENT DRUG PROFILES

Patient profiles will be sent to physicians for review on a request basis.

Yukon Physicians and Pharmacists wishing to obtain a drug profile for patients in their care may do so by submitting a written request, stating the patient's name, address, date of birth and health services number to the respective drug program.

ELIGIBILITY FOR CHRONIC DISEASE PROGRAM

The Chronic Disease Program provides prescription drug benefits to Yukon Health Care registrants who have a specific chronic disease or a serious functional disability as provided under the Chronic Disease and Disability Benefits Regulations. Those who have the cost of prescription drugs covered by another private insurance must use that plan first. Clients must pay the first \$250.00 per annum per individual to a maximum of \$500.00 per family, effective on the 1st of April each year.

Those residents eligible to receive benefits under the Chronic Disease Program may apply to the Chronic Disease Program for a reduction or waiver of the deductible depending on income and family size. The application for reduction of the deductible must be renewed each fiscal year based on the most current information, and be approved prior to benefits being received under the program.

ELIGIBILITY FOR CHILDREN'S DRUG & OPTICAL PROGRAM

The Children's Drug & Optical Program is a program to assist low income families with the cost of prescription drugs and eye care for children under the age of 19 years.

Low income families with children ages 0 to 18 years are covered. If a family has other insurance, that insurance must be used first. A benefit card will be issued for each eligible child. The card will be effective from the date of enrollment to March 31 of the same fiscal year. Families must re-apply each fiscal year. The benefit card must be presented prior to service and the program will be billed directly.

A family may be responsible for paying a portion of the costs every year (deductible). Once the deductible has been paid, the child will be enrolled in the program. The Children's Drug & Optical Program will cover the remaining expenses.

The maximum deductible is \$250 per child, \$500 per family. The deductible may be waived depending upon income and number of people in the family.

ELIGIBILITY FOR PHARMACARE PROGRAM

The Pharmacare Program provides prescription drug benefits to Yukon Health Care registrants who have registered and are eligible for Pharmacare. This program provides coverage for Yukon residents at least 65 years of age and spouses aged 60 years or older. Those who have the cost of prescription drugs covered by another agency or private insurance must use that plan first.

ELIGIBILITY FOR PALLIATIVE CARE COVERAGE

Patients considered to be palliative will be fully covered under the Chronic Disease Program or Pharmacare Program and have their deductible waived. When making application for a patient, physicians will be required to specify life expectancy. Only those applications which fall within the following definition will qualify.

*Patients eligible for palliative coverage are those in late stages of terminal illness (life expectancy measured in months) for whom treatment aimed at cure or prolongation of life is no longer deemed appropriate, but for whom care is aimed at improving or maintaining the quality of remaining life (e.g. management of symptoms such as pain, nausea and stress). **This coverage is not intended for cases where active treatment is being continued in the hope of remission or recovery.***

PRESCRIPTIONS

PRESCRIPTION QUANTITIES

The respective drug programs will not pay for more than a three month supply of benefits at one time. There must be an interval of 75 days between dispensing 3 month supplies. Physicians shall exercise their professional judgment in determining the course and duration of treatment for their patients.

REIMBURSEMENT OF DRUGS

When clients covered through Chronic or Pharmacare, leave the Yukon Territory for more than 183 (six months) consecutive days, drug and benefit costs are not eligible for reimbursement, starting on the date of departure. A one month extension will be considered on application to the Director of Health Care Insurance where the Yukon is the location of the applicant's only principal residence. On return to the Territory, the resident may re-apply for coverage under the respective program.

Receipts older than 1 year will not be allowed for reimbursement.

MAILING

Payment will **not** be made for any drug or supply that is mailed from an address outside of the Yukon.

LOWEST COST ALTERNATIVE - PRESCRIPTIONS

Yukon Drug Programs Formulary benefits will be based on the lowest priced interchangeable brand available. Health Canada's Notice of Compliance and Declaration of Equivalence are reviewed for designation of interchangeability. Professional fees included in the cost paid by the respective programs will not exceed \$8.75 or the dispensing fee charged to the Public, whichever is less, as negotiated with the Pharmacy Society of Yukon. Patients will be responsible for any incremental costs associated with the selection of a higher cost brand.

NO SUBSTITUTION- PRESCRIPTION DRUG COVERAGE

It is recognized that rare cases may exist when the lowest cost alternative drug may not be tolerated due to allergies of non-medicinal ingredients, etc. In such cases, the physician may request a specific brand of drug in an interchangeable category for a particular patient. A written exception drug application form is required with medical reason(s) for no substitution. If approved, the respective program will be responsible for the full cost.

EXCEPTION DRUG STATUS

Application Process

Yukon physicians **only** may apply for Exception Drug Status. Applications must be submitted in writing, and must provide sufficient details to permit thorough, objective assessment. Comprehensive supporting information must be provided. **Please refer to “Exception Drug Status Table” (Green pages) for criteria.**

Initial 30 DAY Approval

When a physician prescribes an Exception drug, an Exception Drug Status Application must be submitted. To provide coverage until the application is reviewed, a 30-day approval for the patient may be requested by the pharmacist. The pharmacist must phone the respective drug program advising them. If the patient is active, the Exception drug will be covered for 30 days providing the drug is listed in the Formulary. All new drugs will be reviewed according to the Common Drug Review process before listing in the Formulary.

If the drug requires a “specialist recommendation” according to Exception criteria, the 30-day coverage will not be granted unless the specialist information is provided.

EXCEPTION DRUGS REQUIRING RECOMMENDATION OF A SPECIALIST (See detailed criteria in “Exception Drug Status Table” – Separate green pages)

Acitretin

Botulinum Toxin Type A

Clozapine

Dextroamphetamine

Epoetin alfa (see table)

Etanercept

Filgrastim

Glatiramer

Infliximab

Interferon alfa 2a(see table) & Interferon alfa 2b(see table)

Interferon beta-1A & Interferon beta-1B

Methylphenidate

Modafinil

Oxcarbazepine

Peginterferon alfa 2b (see table) & Ribavirin/interferon alfa 2b(see table)

Tacrolimus

Application Review for Exception Drug Status

The Formulary Working Group will review applications for Exception Drug status on a monthly basis

The Formulary Working Group's decision will be communicated to the physician and the patient. Only the physician will be informed as to the therapeutic reasons for non-approval.

If a 30-day approval was granted and the Exception application was approved, the client will continue to be covered. If declined, the program would discontinue payment after 30 days.

Note: Exception Drug Status coverage will remain in effect until such time as the physician requests a change in the status, or until reassessment is required. There are some Exception drugs that have specific time periods for coverage listed with criteria. **See "Exception Drug Status Table" (Green pages)**

Applications for Exception Drug Status should be sent to:

PHARMACARE AND EXTENDED BENEFITS – Drugs NOT covered by regulations

Over the counter drugs (OTC's) are generally not covered by the Pharmacare Program, except for palliative care and those listed in the Pharmacare OTC Inclusion List.

PHARMACARE OVER-THE-COUNTER (OTC) DRUG INCLUSIONS

Some OTC drugs will be included under the Yukon Pharmacare Plan when a prescription is provided by a Physician: **(Please check Formulary for specific DIN's)**

1. Drugs used to manage heart and vascular diseases (i.e. Nitrostat, ASA)
2. Analgesics for symptomatic relief of arthritic conditions.
3. Gastrointestinal antispasmodics.
4. Muscle relaxants.
5. Therapeutic Vitamins (single-entity) including:
 - Niacin
 - Vitamin A
 - Vitamin B6
 - Vitamin B12
 - Vitamin D
6. But excluding Multivitamin supplements.
6. Therapeutic minerals including:
 - Calcium
 - Iron
 - Magnesium (Exception status)
 - Potassium
7. Compounds (Must have one ingredient that requires a prescription.)
8. Other specific products including:
 - Antifungals - Clotrimazole
 - Ketoconazole
 - Miconazole
 - Nystatin
 - Benzoyl Peroxide
 - Eurax
 - Hydrocortisone 0.5%
 - Insulin
 - Zostrix

CHRONIC DISEASE AND DISABILITY - Drugs NOT covered by regulations

There are several drugs which are not covered under the Chronic Disease Drug Formulary. A physician can send a request in writing to have a drug considered for formulary inclusion. This request will be reviewed by the Formulary Working Group.

The following classes of drugs are not covered under the Chronic Disease Program:

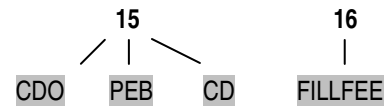

1. Antibiotics unless used in conjunction with therapy of a chronic disease, i.e. COPD, indwelling bladder catheters, cystic fibrosis, etc.
2. All over the counter drugs (OTC's) except for palliative care items.
3. Postmenopausal hormonal replacement therapy and other hormonal therapy (see exception table).
4. Prescriptions for allergies, allergic rhinitis, etc.
5. Any prescription drug not used specifically for the approved disease state covered under the Chronic Disease Program.

LEGEND

1. Therapeutic drug classification.
2. Therapeutic drug sub-classification.
3. Generic name of drug.
4. Drug strength and dosage form.
5. The Drug Identification Number (DIN), which has been assigned by the Health Canada.
6. Where there is more than one drug product listed under a drug strength and dosage form the products listed are considered interchangeable for determination of payment purposes under all drug programs. Unless Exception Drug Status has been approved for brand name, only the lowest priced interchangeable generic is covered and patients will be responsible for any incremental cost associated with the selection of a higher cost brand. (Products of same strength that are not interchangeable will not be sorted together.)
7. Brand name of drug product
8. Unit that will be used for pricing formula.
9. Prices indicated represent the manufacturer's wholesale price
10. Three-letter identification code assigned to each manufacturer.
11. The symbol <C> indicates that this is a Controlled Drug (Schedule G of the Food and Drugs Act and Regulations). The symbol <N> indicates that this is a Narcotic Drug (Narcotic Control Act and Regulations).
12. The strengths of active ingredients are listed in the same order as the ingredients.
13. The size of vials or injectables is listed in brackets.
14. Products of the same strength that are not interchangeable will not be sorted together (formerly designated by asterisk).
15. Identification code for the drug plan shown in the column below.
 - CDO - Children's Drug & Optical Plan
 - PEB - Pharmacare & Extended Benefits
 - CD - Chronic Disease Program
16. FILLFEE column identifies whether a dispensing fee will be paid for the respective drug product.
 - Y – eligible for a dispensing fee
 - N – no dispensing fee will be paid
17. The letter code within the drug plan column indicates coverage.
 - E - product is "exception drug status" and coverage must be applied for
 - N - product is NOT a benefit under the respective drug plan
 - Y - product is a benefit under the respective drug plan

EXCEPTION DRUG STATUS TABLE

CHRONIC DISEASE PROGRAM (CHRN)

PHARMACARE PROGRAM (PEB)

08:00 ANTI-INFECTIVE AGENTS

<p><u>08:12.02 – Aminoglycosides</u> Tobramycin Inhalation Solution</p>	CHRN	For Cystic Fibrosis patients who do not tolerate injectable Tobramycin when used for inhalation.
Tobramycin iv	CHRN PEB	For treatment of resistant organisms or other special circumstances.
<p><u>08:12.04 – Antibiotics (Antifungals)</u> Fluconazole, Ketoconazole, Nystatin, Terbinafine</p>	CHRN	Treatment in immuno-compromised patients. Treatment of a condition secondary to an approved chronic disease.
Itraconazole	CHRN PEB	For sever fungal infections unresponsive to other therapy (secondary to approved chronic condition).
<p><u>08:12.06 - Antibiotics (Cephalosporins)</u> Cefuroxime, Ceftazidime, Cefazolin, Ceftriaxone, Cefixime, Cefprozil</p>	CHRN	For treatment of resistant organisms or other special circumstances. Treatment of a condition secondary to an approved chronic disease. (Anticipated duration entered on application form).
<p><u>08:12.12 – Antibiotics (Macrolides)</u> Azithromycin, Clarithromycin</p>	CHRN	
<p><u>08:12.16 – Antibiotics (Penicillins)</u> Amoxicillin-Clavulanate, Pivmecillinam Piperacillin / Tazobactam</p>	CHRN	
<p><u>08:12.24 - Antibiotics (Tetracyclines)</u> Minocycline</p>	CHRN	For treatment of RA on recommendation of Rheumatologist .

<p>08:18.00 – Antivirals Ribavirin/ Inteferon alfa-2b Ribavirin/ Peginterferon alfa-2b Ribavirin/ Peginterferon alfa-2a</p> <p>Acyclovir, Famcyclovir, Valacyclovir</p>	<p>CHRN PEB</p> <p>CHRN</p>	<p>Positive Hepatitis C serology and ALT > 1.5 times normal for 6 months without any other cause for Hepatitis (i.e. Alcohol), and on recommendation of Gastroenterologist or Infectious Disease Specialist. Review on case by case basis. COVERAGE WILL BE PROVIDED FOR 1 YEAR. (Coverage for one course of treatment only.)</p> <p>Treatment of immuno-compromised patients.</p>
<p>08:18.08 – Antiretroviral Agents Tenofovir</p>	<p>CHRN</p>	<p>For HIV pts who are intolerant or failed alternative nucleoside reverse transcriptase inhibitors on Specialist recommendation.</p>
<p>08:22.00 – Quinolones Levofloxacin, Norfloxacin Cipro (p.o.)</p> <p>Moxifloxacin</p> <p>Cipro (i.v.)</p>	<p>CHRN</p> <p>CHRN PEB</p> <p>CHRN PEB</p>	<p>For treatment of resistant organisms or those not responding to alternative agents when treating a condition secondary to an approved chronic disease. (Anticipated duration entered on application form).</p> <p>For treatment of resistant organisms (as above) and when alternate quinolones (generic Cipro, Levofloxacin) cannot be used.</p> <p>When unable to tolerate oral form.</p>
<p>08:40.00 - Miscellaneous Anti-Infectives Atovaquone</p>	<p>CHRN</p>	<p>For treatment of resistant organisms or other special circumstances. Treatment of a condition secondary to an approved chronic disease.</p>

10:00 ANTI-NEOPLASTIC AGENTS

<p><u>10:00.00 – Antineoplastic Agents</u> Interferon alfa-2a, Interferon alfa-2b, Peginterferon alfa-2b</p> <p>Rituximab</p>	<p>CHRN PEB</p> <p>CHRN PEB</p>	<p>Positive Hepatitis C serology and ALT > 1.5 times normal for 6 months without any other cause for hepatitis (i.e. Alcohol), and on recommendation of Gastroenterologist or Infectious Disease Specialist. COVERAGE WILL BE PROVIDED FOR 1 YEAR (Coverage for one course of treatment only.)</p> <p>For severe RA, when used in combination with methotrexate and when failure of anti-TNF trial. Coverage for 6 months. Retreatment considered for patients who have achieved a response, followed by loss of effect after an interval of no less than 6 months since dose.</p>
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

12:00 AUTONOMIC DRUGS

<p><u>12:04.00 – Parasympathomimetic (Cholinergic) Agents</u> Donepezil, Galantamine, Rivastigmine</p>	<p>CHRN PEB</p>	<p>For mild or moderate Alzheimer’s, (with MMSE score 10-26), initiated by a Specialist. Reviewed on a case by case basis. Review every 6 months and reapply with MMSE score each time.</p>
<p><u>12:08.08 - Antimuscarinics/ Antispasmodics</u> Tiotropium</p>	<p>CHRN PEB</p>	<p>Cases reviewed individually: For patients not adequately controlled on optimum doses of Ipratropium. Provide history of all short acting bronchodilator therapy (SABA, anticholinergic, combination,etc) and other treatment (LABA, corticosteroids,etc.)</p>

<p><u>12:12.00 – Sympathomimetic Agents (Adrenergic)</u></p> <p>Long-acting Beta-2 Agonists (Salmeterol, Formoterol)</p> <p>Combination Therapy : Brand names ADVAIR (Fluticasone + Salmeterol)& SYMBICORT (Budesonide + Formoterol)</p> <p>Salbutamol Diskus</p> <p>Epinephrine</p> <p>Midodrine</p>	<p>CHRN PEB</p> <p>CHRN PEB</p> <p>CHRN PEB</p> <p>PEB</p> <p>CHRN</p>	<p>Treatment of asthma in patients on concurrent steroid therapy. Treatment of COPD.</p> <p>1) For treatment of asthma in patients not adequately controlled on steroid therapy.</p> <p>2) For treatment of COPD in patients who are not controlled on long-acting beta-2 agonists alone.</p> <p>3) On recommendation of Specialist.</p> <p>Cases reviewed individually: For patients unable to use salbutamol aerosol inhaler.</p> <p>Cases reviewed individually: For patients at very high risk of anaphylaxis.</p> <p>Orthostatic hypotension secondary to approved chronic condition.</p>
<p><u>12:16.00 – Sympatholytic Agents (Antimigraine Drugs)</u></p> <p>Flunarizine, Triptans</p>	<p>CHRN</p>	<p>Treatment secondary to an approved Chronic Disease.</p>
20:00 BLOOD FORMATION & COAGULATION		
<p><u>20:04.04 – Iron Preparations</u></p> <p>Fer-in-Sol Syrup</p> <p>Iron Polysaccharide Complex (Triferexx) & Iron Injection</p>	<p>PEB</p> <p>CHRN PEB</p>	<p>Patients unable to swallow solid oral dosage forms.</p> <p>On recommendation of a Specialist, for renal failure / dialysis.</p>

<p><u>20:16.00 – Hematopoietic Agents</u></p> <p>Epoetin Alfa</p> <p>Darbepoetin</p> <p>Filgrastim, Pegfilgrastim</p>	<p>CHRN PEB</p> <p>CHRN PEB</p> <p>CHRN PEB</p>	<p>For anemia in chronic renal disease on recommendation of Nephrologist. For anemia in HIV or transplant patients on recommendation of Specialist. For cancer: non-myeloid malignancies with curative treatment protocols recommended by Cancer Agency.</p> <p>For treatment of anemia in chronic renal disease prior to initiation of dialysis on recommendation of Specialist.</p> <p>On recommendation of Hematologist or Specialist. For cancer: restricted to curative treatment protocols recommended by Cancer Agency.</p>
<p><u>20:24.00 – Hemorrhologic Agents</u></p> <p>Clopidogrel</p>	<p>CHRN PEB</p>	<p>1) For the prevention of cerebrovascular (e.g. stroke, TIA) and non-cerebrovascular ischemic events in patients who have a contraindication to ASA.</p> <p>2) For treatment of patients who have experienced a TIA or stroke while on ASA.</p> <p>3) For prevention of thrombosis when prescribed following intracoronary stent placement. Coverage provided for maximum one year.</p> <p>4) For reduction of recurrent risk of MI in patients with acute coronary syndrome (ie. unstable angina or non-STEMI) concurrently with ASA. Coverage provided for maximum one year.</p>
24:00 CARDIOVASCULAR DRUGS		
<p><u>24:06.00- Antilipemic Drugs</u></p> <p>Ezetimibe</p>	<p>CHRN PEB</p>	<p>For patients intolerant to statins or patients not managed on optimum doses of statins.</p>

<p><u>24:12.00- Vasodilating Drugs</u> Dipyridamole / ASA</p>	<p>CHRN PEB</p>	<p>For treatment of patients who have had a stroke or TIA while on ASA.</p>
28:00 CENTRAL NERVOUS SYSTEM DRUGS		
<p><u>28:08.04 – Non-Steroidal Anti-Inflammatory Agents</u> Celecoxib Meloxicam</p>	<p>CHRN</p>	<p>Treatment of approved chronic disease where NSAIDS's are contraindicated or patient on concurrent Warfarin or Prednisone therapy. For treatment failure or intolerance to at least 3 listed NSAIDS's in Formulary. Additionally, for OA patients, a failure of adequate Acetaminophen trial <u>must be documented</u>.</p>
<p><u>28:08.08 – Opiate Agonists (Narcotic Analgesics)</u> Codeine Long Acting Codeine / Acetaminophen (Ratio-Emtec)</p>	<p>CHRN CHRN PEB</p>	<p><u>Note: Chronic program: All opiate agonists require physician request on application, specific to chronic condition.</u></p> <p>Treatment in approved conditions where the use of immediate release Codeine preparations are no longer effective.</p> <p>For patients with contraindication or intolerance to caffeine.</p>
<p><u>28:12.12 – Anticonvulsants (Hydantoins)</u> Levocarnitine</p>	<p>CHRN</p>	<p>Recommended by a Specialist.</p>
<p><u>28:12.92 – Miscellaneous Anticonvulsants</u> Oxcarbazepine</p>	<p>CHRN PEB</p>	<p>For patients intolerant to Carbamazepine or when other drugs in formulary are ineffective.</p>

<p><u>28:16.08 – Psychotherapeutic Agents (Antipsychotic Agents)</u></p> <p>Clozapine</p>	<p>CHRN PEB</p>	<p>Treatment of schizophrenia on recommendation of Psychiatrist.</p>
<p><u>28:20.00 – Respiratory & Cerebral Stimulants</u></p> <p>Dextroamphetamine, Methylphenidate</p> <p>Methylphenidate (extended release)</p> <p>Modafinil</p>	<p>CHRN PEB</p> <p>CHRN PEB</p> <p>CHRN</p> <p>PEB</p>	<p>Treatment of psychiatric disorder on recommendation of Psychiatrist or Pediatrician.</p> <p>Treatment of psychiatric disorder on recommendation of Psychiatrist or Pediatrician and where other forms of Methylphenidate have been ineffective.</p> <p>On the advice of a Neurologist or sleep disorder Specialist for approved chronic condition.</p> <p>On the advice of a Neurologist or sleep disorder Specialist.</p>
<p><u>28:24.08 – Anxiolytics, Sedatives & Hypnotics (Benzodiazepines)</u></p> <p>Alprazolam, Bromazepam, Chlorazepate, Diazepam, Flurazepam, Lorazepam, Oxazepam, Temazepam</p>	<p>CHRN</p>	<p>For short term only treatment of approved psychiatric condition, or muscle relaxant for appropriate condition.</p>
<p><u>28:24.92 - Miscellaneous Anxiolytics, Sedatives & Hypnotics</u></p> <p>Chloral Hydrate</p>	<p>CHRN</p>	<p>Treatment of approved psychiatric condition.</p>
<p>40:00 ELECTROLYTIC, CALORIC & WATER BALANCE</p>		
<p><u>40:12.00 – Replacement Agents</u></p> <p>Magnesium Glucoheptonate</p> <p>Magnesium</p>	<p>CHRN</p> <p>PEB</p>	<p>Treatment of hypomagnesemia secondary to an approved chronic disease (renal / dialysis).</p> <p>Treatment of hypomagnesemia.</p>

Phosphate Effervescent	CHRN	For renal / dialysis.
<u>40:28.00 – Diuretics</u> Bumetanide, Ethacrynic Acid	CHRN PEB	Patients unable to tolerate Furosemide.
Lasix Special	CHRN PEB	As recommended by a Specialist .
48:00 COUGH PREPARATIONS		
<u>48:24.00 - Mucolytic Agents</u> Dornase Alfa (Pulmozyme)	CHRN PEB	On recommendation of Specialist (Cystic Fibrosis).
52:00 EYE, EAR, NOSE & THROAT PREPARATIONS		
<u>52:08.00 - EENT Anti-Inflammatory</u> Prednisolone	CHRN	Ophthalmic conditions secondary to approved chronic disease.
<u>52:24.00 - Mydriatics</u> Atropine	CHRN	Palliative only.
<u>52:28.00 - Mouthwashes & Gargles</u> Benzydamine (ie.Tantum) Chlorhexidine	CHRN	For use in immuno-compromised patients at risk of mucosal breakdown.
<u>52:36.00 - Miscellaneous E.E.N.T. Drugs</u> Alphagan P	PEB	For patients intolerant to Benzalkonium Chloride.

56:00 GASTROINTESTINAL DRUGS

<p><u>56:12.00 – Cathartics & Laxatives</u> Lactulose</p>	<p>CHRN PEB</p>	<p>For hepatic encephalopathy.</p>
<p><u>56:22.00 – Anti-Emetics</u> Granisetron, Ondansetron</p>	<p>CHRN PEB</p>	<p>For use with emetogenic chemotherapy. Approval for 1 year, then renew as required.</p>
<p><u>56:40.00 – Miscellaneous Gastrointestinal Drugs</u> Omeprazole (generic brands - Apo, Ratio), Rabeprazole Lansoprazole, Pantoprazole, Losec Losec MUPS Lansoprazole, Pantoprazole, Losec (Note: generic Omeprazole and Rabeprazole do not require exception form.) Ranitidine</p>	<p>CHRN CHRN CHRN PEB CHRN</p>	<p>For treatment of peptic ulcer disease or chronic GERD <u>secondary to an approved chronic disease</u>, and where H2 blockers are contraindicated or ineffective. For treatment of patients with high risk of GI complications when NSAID therapy cannot be avoided for approved chronic disease.</p> <p>Criteria listed above. Include reasons generic Omeprazole or Rabeprazole <u>could not be used</u>.</p> <p>For pediatric G-tube if compounded preparation inappropriate. Approval for 1 year.</p> <p>For treatment of peptic ulcer disease or chronic GERD, and where H2 blockers are ineffective. For treatment of patients with high risk of GI complications when NSAID therapy cannot be avoided. For the treatment of H. Pylori. ** Must include reasons why generic Omeprazole or Rabeprazole cannot be used.</p> <p>For conditions secondary to an approved chronic disease (Note: Ranitidine 150 mg available OTC).</p>

68:00 HORMONES & SYNTHETIC SUBSTITUTES

<p><u>68:08.00 - Androgens</u> Testosterone</p>	<p>CHRN</p>	<p>Coverage for hormonal replacement required for an approved chronic condition (e.g. primary hypogonadism, pituitary disorders) Cases reviewed individually.</p>
<p><u>68:16.04 – Estrogens</u> Estrogens Estradiol</p>	<p>CHRN</p>	<p>Coverage only for hormonal replacement required for approved chronic disease. Cases reviewed individually.</p>
<p><u>68:16.12 – Raloxifene</u> Raloxifene</p>	<p>CHRN</p>	<p>For treatment of osteoporosis in women unable to tolerate listed Bisphosphonates.</p>
<p><u>68:20.08 – Anit-Diabetic Drugs (Insulins-Human Biosynthetic)</u> Novolin Set</p>	<p>CHRN PEB</p>	<p>Patients unable to use other insulin devices.</p>
<p><u>68:20.92 – Anti-Diabetic Drugs</u> Pioglitazone, Rosiglitazone</p>	<p>CHRN PEB</p>	<p>Treatment of diabetes in patients who are not adequately controlled on Sulfonylureas or Metformin or for patients intolerant to Metformin.</p>
<p><u>68:24.00 – Parathyroid</u> Calcitonin Calcitonin</p>	<p>PEB CHRN PEB</p>	<p>For the treatment of fracture with bone pain for a maximum duration of 3 months. For treatment of osteoporosis in patients unable to tolerate listed Bisphosphonates.</p>

68:32:00 - Progestins Progestins	CHRN	Coverage only for hormonal replacement required for approved chronic disease. Cases reviewed individually.
84:00 SKIN & MUCOUS MEMBRANE PREPARATIONS		
84:04.08 – Anit-Infectives (Anti-Fungals) Ketoconazole	CHRN	Treatment in immuno-compromised patients for approved chronic disease.
84:06.00 - Anti-Inflammatory Agents Halobetasol	CHRN PEB	For treatment of patients refractory to or intolerant of other listed products.
84:36.00 – Miscellaneous Skin & Mucous Membrane Agents Acitretin	CHRN PEB	For treatment of severe psoriasis on recommendation of Dermatologist .
Imiquimod	CHRN PEB	For cancer pts when surgical treatment is not an option.
86:00 SMOOTH MUSCLE RELAXANTS		
86:12.00 – Genitourinary Smooth Muscle Relaxants Oxybutynin XL (long-acting)	CHRN PEB	Used when multiple dosing of Oxybutynin Chloride causes problems with side effects or efficacy.
Tolterodine Extended-Release (Unidet)	CHRN PEB	For patients intolerant to Oxybutynin or when multiple dosing causes problems with side effects or efficacy.
88:00 VITAMINS		
88:08.00 – Vitamin B Complex Cyanocobalamin	CHRN	Treatment of pernicious anemia. For dialysis patients.

Leucovorin Calcium (Folic Acid)	CHRN PEB	For folic acid deficiency from long term drug treatment (SMX / trimethoprim).
Pyridoxine	CHRN	For dialysis patients.
Replavite	CHRN PEB	For dialysis patients.
<u>88:16.00 - Vitamin D</u> Ostoforte	CHRN	For treatment of hypoparathyroidism.
<u>88:29.00 - Calcium</u> Calcium Citrate	PEB	Used when Calcium Carbonate is inappropriate.
92:00 UNCLASSIFIED THERAPEUTIC AGENTS		
<u>92:00.00 – Unclassified Therapeutic Agents</u> Alendronate, Etidronate, Risedronate	CHRN	As per osteoporosis guidelines (from the green pages). <i>(see Footnote 1 end of Table).</i>
Note: Liquid form	CHRN PEB	Only if unable to use solid oral form.
Botulinum Toxin Type A	CHRN PEB	For treatment of dystonias and other neuromuscular spasticity problems. Botox requires written prior approval and the recommendation of a Specialist .
Etanercept	CHRN PEB	On recommendation of a Rheumatologist .
Imatinib	CHRN PEB	For treatment of chronic myeloid leukemia in the chronic phase, in persons for whom Interferon is ineffective, contraindicated or not tolerated. For treatment of chronic myeloid leukemia in the blastic or accelerated phase. Approval for 1 year, then renew.

92:00.00 – Unclassified Therapeutic Agents

1)Infliximab – For Moderate to Severe Crohn’s Disease

**CHRN
PEB**

For patients who demonstrate continuing symptoms despite the use of optimal, conventional therapies such as 5-ASA agents, glucocorticoids and immunosuppressive therapy. A **Specialist’s** recommendation is required. The application requires an outline of the treatment plan. Review on a case by case basis.

COVERAGE WILL BE PROVIDED FOR 6 MONTHS.

(After initial 6 months, a **Specialist** recommendation is required for an extended exception period. Renewal each year required.)

2)Infliximab – For Fistulizing Crohn’s

**CHRN
PEB**

For patients with symptomatic enterocutaneous and perineal fistulae, enterovaginal fistulae and entervesical fistulae. A **Specialist’s** recommendation is required. The application requires an outline of the treatment plan. Review on a case by case basis.

COVERAGE WILL BE PROVIDED FOR 6 MONTHS.

(After initial 6 months, a **Specialist** recommendation is required for an extended exception period. Renewal each year is required.)

3)Infliximab, Adalimumab – For Rheumatoid Arthritis

**CHRN
PEB**

For patients with active rheumatoid arthritis who have failed on at least 2 DMARDS. Treatment should be combined with an immunosuppressant. A **Rheumatologist’s** recommendation is required.

Interferon beta -1A, Interferon beta-1B, Glatiramer

**CHRN
PEB**

For MS patients with a relapsing-remitting disease course on advice of **Specialist**.

<p><u>92:00.00 – Unclassified Therapeutic Agents</u></p> <p>Leflunomide</p> <p>Methadone</p> <p>Methadone (Metadol Tablets)</p> <p>Montelukast</p> <p>Rizatriptan</p> <p>Sevelamer</p>	<p>CHRN PEB</p> <p>CHRN PEB</p> <p>CHRN PEB</p> <p>CHRN PEB</p> <p>CHRN PEB</p> <p>CHRN PEB</p>	<p>For treatment of rheumatoid arthritis in patients who are not adequately controlled or are intolerant to at least two other DMARDs or as recommended by a Specialist.</p> <p>For pain management of approved chronic condition when prescribed by an authorized physician.</p> <p>For pain management or special circumstances when prescribed by an authorized physician.</p> <p>Case by case basis when patient unable to use liquid or other circumstances. For palliative patients.</p> <p>Treatment of asthma in patients on concurrent steroid therapy.</p> <p>Treatment secondary to an approved chronic disease.</p> <p>For treatment of patients in end stage renal disease with intolerance to aluminum or calcium containing phosphate binding agents.</p>
<p><u>92:00.00 – Unclassified Therapeutic Agents</u></p> <p>Tacrolimus Topical, Pimecrolimus</p> <p>Zafirlukast</p>	<p>PEB</p> <p>CHRN PEB</p>	<p>On the advice of a Dermatologist.</p> <p>Treatment of asthma in patients on concurrent steroid therapy.</p>

OSTEOPOROSIS GUIDELINES

Footnote 1: In order for patients to be eligible for coverage for osteoporosis treatment, the physician submitting the application must provide either the results of a **bone density test**, or list at least **four** of the following risk factors that pertain to the patient.

High Risk Factors:

- significant family history
- genetic predisposition (Asian or Caucasian descent)
- thin, small frame
- past menopause
- early menopause, before age 45
- prolonged use of osteopenic medication
- low trauma fracture
