Receive Alberta Legislation Updates to your Desktop

Now you can receive updates to Alberta legislation right to your desktop using RSS. Choose to receive all legislation updates or only the updates to legislation administered by certain ministries, and receive the updated information when it's available.

What is RSS?

Really Simple Syndication (RSS) is a way to distribute and receive headlines and other content to your desktop. Instead of having to go back to a website to see what's new, you can have new information delivered to you. The RSS links on the Queen's Printer website allow you to receive updates to Alberta legislation to your desktop.

Why use RSS?

There are a number of benefits to using RSS, including:

- **You select what news you want.** RSS allows you to select the type of news and information you receive from websites.
- **You determine when you get your news.** Once you download your news reader, you can customize it to go and fetch the news every five minutes, or every hour - depending on how you want it.
- **Cut down on SPAM.** Because RSS requires you to download a news reader, you aren't subscribing to e-mail lists, which can increase your risk of getting unwanted SPAM e-mail.

Getting Started

To use RSS, you need to download an RSS reader and install it on your computer. Then, select an RSS feed that you want to begin receiving, and setup a new legislation update feed.

If you are interested in receiving all legislation updates, your RSS reader may support something called OPML. This format allows you to easily set

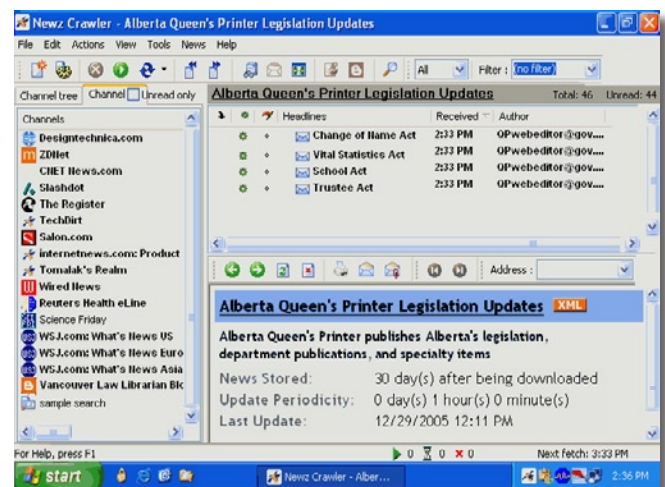

up all feeds from Alberta Queen's Printer. Or, if you only want legislation updates from select ministries, you can select only to receive this information. Once you have downloaded your reader and selected the legislation updates you wish to receive, the RSS reader will go to the Queen's Printer website and download legislation update headlines and links to your RSS reader.

Finding a RSS Reader

An RSS reader is software which runs on your desktop, and pulls RSS feeds that you have setup. Some RSS readers actually install into your e-mail program so that you can receive RSS feeds along with e-mail.

Below you will find links to various RSS readers. The Queen's Printer does not endorse any of these products, this is only a list of some RSS readers on the market (some are free, some have a fee). You can also conduct a search for RSS readers on your favorite search engine.

FOIP Guidelines and Practices Manual (2005)

A survey of ten years of FOIP experience

Need more information on Freedom of Information and Protection of Privacy? The 2005 edition of Freedom of Information and Protection of Privacy Guidelines and Practices is now available for \$44.95 plus GST.

This edition distills ten years of experience with Alberta's FOIP Act into a single volume, combining section-by-section analysis with practical guidance on administering an access and privacy program within a public body. It includes clear explanations of the way the Information and Privacy Commissioner has interpreted the Act in Orders and Investigation Reports.

The new edition of Guidelines and Practices (shown below) will be indispensable to all FOIP offices. It incorporates all the recent amendments (including those in the FOIP Amendment Act, 2003), the most significant decisions of the Commissioner, and new treatments of a number of topics, such as:

- authorization to disregard a request
- requests to create electronic records
- the duty to assist.

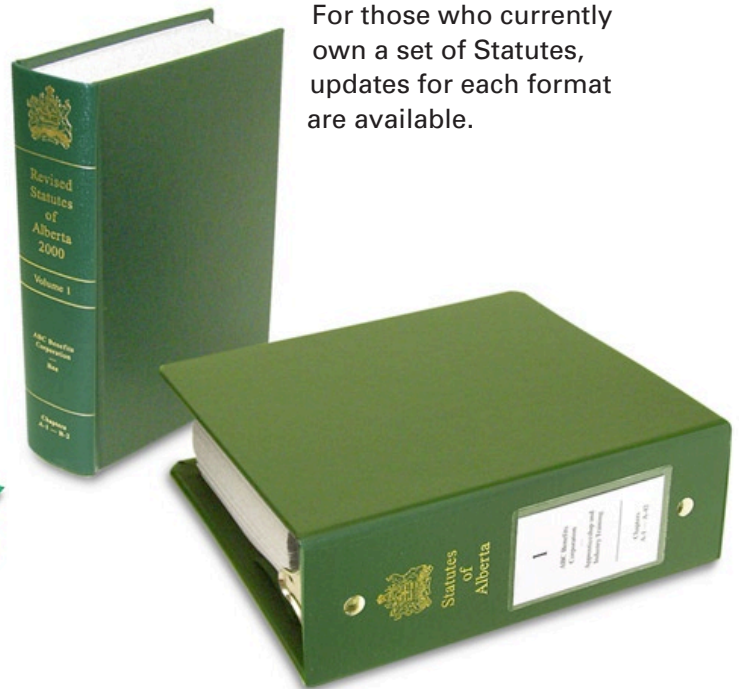

Alberta Statutes – Hardbound and Looseleaf Versions

Statutes of Alberta are available in two main formats: hardbound volumes or a looseleaf binder set. The RSA 2000 Hardbound Statutes of Alberta is a series of bound volumes and its annual bound updates that are considered the official Statutes. In this set, Statutes and amendments to Statutes are presented in their original form. Currently updated to include the 2005 Annual Volume, the complete set is \$800 plus GST.

Alternatively, the RSA 2000 Looseleaf Statutes of Alberta presents Statutes as a series of unbound pages which can be replaced as needed when Statutes are amended. Statutes can then be viewed in their easy-to-read consolidated form. The complete Looseleaf set, which includes Release 9, is available for \$1895.

For those who currently own a set of Statutes, updates for each format are available.

Drinking Water: A Municipalities Most Precious Resource

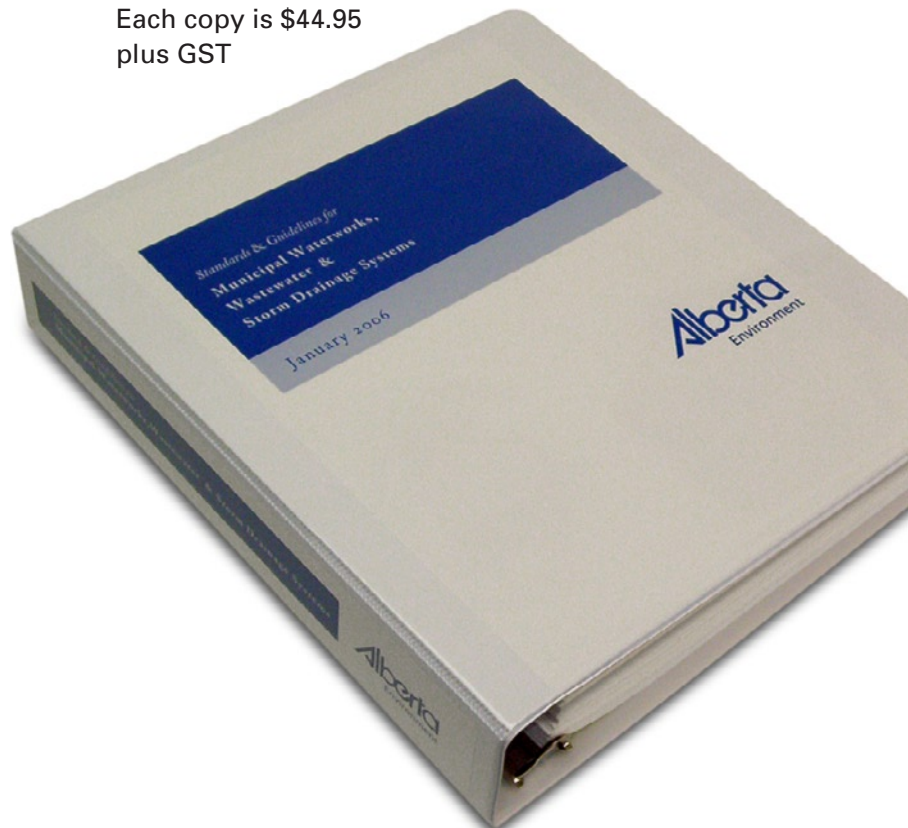

Standards and Guidelines for Municipal Waterworks, Wastewater and Storm Drainage Systems (January 2006)

The New Standards and Guidelines for Municipal Waterworks, Wastewater and Storm Drainage Systems (January 2006) sets out the regulated minimum standards and design requirements for these systems in Alberta municipalities. This publication from Alberta Environment provides comprehensive and scientifically defensible standards and guidelines that must be applied by the municipalities in the design and operation of waterworks, wastewater and storm drainage systems.

This document includes:

- the application and approval process
- treatment performance standards
- design standards and guidelines
- operating and monitoring requirements and guidelines.

Each copy is \$44.95 plus GST
