NOTES FOR ORDERING STUDY MATERIALS

- ◆ The study materials for most certification categories include a core manual which is the same for several categories, plus category specific booklets. The booklets contain pest management information, plus a study guide and practice exam for the category. Make sure that you obtain all the items listed for a category.
- ◆ If you require certification in more than one category, you do not need to order duplicate materials. You only need one copy of an item used for several categories, unless you are ordering for several people.
- ◆ If you already have some of the study materials, check that they are current editions by calling the DCV (1-800-282-7955 or (250) 952-4460). If they are current, you can order just the items that you are missing.
- ◆ Applications to write the certification examinations are enclosed with every order.
- ◆ Any item may be ordered for purposes other than certification.
