Wildlife Act of British Columbia
APPLICATION TO COLLECT FISH FOR SCIENTIFIC PURPOSE

FW-17

This application is for use by individuals and organizations wishing to collect freshwater fish in British Columbia inland waters.

Please complete all sections of this form. Type or print legibly. Attach additional sheets if needed.

1. APPLICANT INFORMATION:

Legal Last Name: _____ Legal First Name: _____ Legal Middle Initial: _____

Company Name (if applicable): _____

Street or PO Box: _____

City or Town: _____ Postal Code: _____ E-mail: _____

Phone (day): _____ Date of Birth (MM/DD/YYYY): _____

Website (optional): _____

Additional persons conducting work under this permit*:

_____, _____, _____
_____, _____, _____
_____, _____, _____

**Refer to item 9, Appendix "A". Any workers not listed must be supervised by the proponent or one of the additional persons named above.*

2. SAMPLING PROGRAM:

Please ensure that you have read and understand the Application Guidelines provided, and the Reporting Guidelines available at "<http://www.env.gov.bc.ca/pasb/reports/fish/>"

- 1. Will collection activities involve any tagging, marking, or lethal sampling? **If yes, complete 2.6 Lethal Sampling Program Description.** Yes No
- 2. Will collection activities involve angling in contravention of existing sport fishing regulations? Yes No
- 3. Will collection activities involve any variances to the listed Permit Conditions (see Appendix A)? Please specify in 2.3 Yes No
- 4. Will collection activities involve any Species at Risk*? **If yes, list affected species. *Refer to Appendix B Table 1: Species at Risk** Yes No

_____ common name scientific name

_____ common name scientific name

➤ **2.1 SAMPLING PERIOD**

Start Date (DD/MM/YYYY): _____ / _____ / _____

End Date (DD/MM/YYYY): _____ / _____ / _____

 FOR SCIENTIFIC PURPOSE**

FW-17

This application is for use by individuals and organizations wishing to collect freshwater fish in British Columbia inland waters.

Please complete all sections of this form. Type or print legibly. Attach additional sheets if needed.

- **2.2 SAMPLING LOCATION(S)** (Refer to guidelines)
 (For watershed codes, see Fish Wizard at <http://www.fishwizard.com/>)

ACTIVITY	MOE REGION(S)	WATERBODY OR WATERSHED NAME	WATERSHED CODE

- **2.3 SAMPLING OBJECTIVES** (see application guidelines) - please describe project and / or project area. You are required to obtain separate permits for additional activities not listed.

(attach sheet if necessary) _____

- **2.4 SAMPLING TECHNIQUES**
 Circle sampling technique codes that you will be using.

Sampling Technique	Code
Minnow trapping	MT
Angling	AG
Seining	SN
Dead capture	DC
Trap net	TN
Dip netting	DN
Electrofishing	EF
Gill netting (complete Section 2.6)	GN
All of the above	ALL

This application is for use by individuals and organizations wishing to collect freshwater fish in British Columbia inland waters.

Please complete all sections of this form. Type or print legibly. Attach additional sheets if needed.

➤ **2.5 SPECIES TO BE SAMPLED**

Is this sampling program targeting specific species?

Yes **If yes, then please identify all target species.**

No **If no, please indicate potential species encountered.**

Use species codes listed in "Appendix B", Table 2: Species Names and Codes.

No permits will be issued for SARA listed species or for salmon other than Kokanee: see "Appendix A", Item 1.

Link to the SARA permit application forms:

http://www.dfo-mpo.gc.ca/species-especes/permits/sarapermits_e.asp

COMMON NAME	SCIENTIFIC NAME	CODE

➤ **2.6 LETHAL SAMPLING PROGRAM DESCRIPTION**

*Complete the following table only if you answered **yes** to **section 2.0: Question 1***

TARGET SPECIES	# Of fish	SAMPLE WATERBODY

3. FEE: \$25 per activity as noted below

Method of Payment: Cheque/Money Order Credit Card (Visa/Mastercard) Cash/Debit	<input type="checkbox"/> Payable to Minister of Finance <input type="checkbox"/> (attach credit card authorization sheet) <input type="checkbox"/> at Service BC – Government Agent Only <input type="checkbox"/> at FrontCounter BC office

The information required by this form and any documents you provide with it are collected under the authority of the *Freedom of Information and Protection of Privacy Act* to process your license/permit application under the *Wildlife Act*. This information will be used to verify your eligibility for the license/permit you are seeking and for other purposes related to the administration of the *Wildlife Act*. If you have any questions about the collection or use of this information, contact the Director, Environmental Stewardship Division.

ACKNOWLEDGEMENT:

By signing below, I acknowledge that the information I have provided is true and correct to the best of my knowledge and I am 19 years of age or older. In addition, I have read the Reporting Guidelines and fully understand the level of reporting detail that is expected of myself / my organization, and I ensure that all staff engaged in collection activities under this permit are qualified and trained for collection activities.

Signature of Applicant

Date of Application

It is an offence to knowingly make a false statement in order to obtain a permit/licence. Violations may result in prosecution under the *Wildlife Act* and/or refusal of future permit or licence requests. Any permit/licence obtained using false information is invalid.

Please send completed application, fees and any supporting documents to the **Permit and Authorization Service Bureau** at one of the following:

By Mail: PO Box 9372 STN PROV GOVT, Victoria BC, V8W 9M3
By Courier: 301 – 710 Redbrick Street, Victoria BC, V8W 9M3
By Fax: (250) 952-4344 or through any Service BC - Government Agent Office
or through any FrontCounter BC Office

Please complete all sections of this form. Type or print legibly. Attach additional sheets if needed.

Application Guidelines for Scientific Fish Collection Permits

Due to the wide variety of activities that take place under the authorization of this permit, the Ministry has provided the following guidelines to help applicants describe the details and scope that suit their particular sampling program. *For all activities, you are required to familiarize yourself with the provincial and region-specific conditions of your permit, listed in Appendix 'A' of the permit application.*

Questions regarding data report standards can be made to: mfishdatasub@gov.bc.ca.

	Activity	Sampling Program Description	Permit Limitations
1.	Fish Salvage	Regional Level - Indicate areas within a regional district such as GVRD	Maximum 1 year
Example	Fish collection associated with in-stream works etc.		
2.	Forestry Stream Classification	Using the TRIM scale, identify the 4 th or 5 th order stream	
3.	Environmental Impact Assessment	Project Level	
Example	Pre and / or post development project monitoring (industrial, linear etc.)	- indicate the project/proponent under which the fish collection activity will take place and the water bodies involved	
4.	Inventory	Project Level - indicate the project/proponent under which the fish collection activity will take place and the water bodies involved	
Example	(1) Species abundance and distribution (2) Presence / Absence study

5.	Research (fish collection as part of experimental procedure)	Project Level - indicate the project/proponent under which the fish collection activity will take place and the water bodies involved	
	Example Research to determine how fish populations respond to habitat manipulations		

ACTIVITY	MOE REGION(S)	WATERBODY OR WATERSHED NAME	WATERSHED CODE
Fish Salvage	Required	Indicate area within region (GVRD, Municipality, etc)	Not Required
Forestry Stream Classification	Required	TRIM scale 4 th order stream or larger	Required
Environmental Impact Assessment	Required	Required	Required
Inventory	Required	Required	Required
Research	Required	Required	Required

Appendix A
Fish Collection Permit Conditions

Any Variation of the following terms and conditions will require explicit authorization by the appropriate regional Fish & Wildlife Section Head.

Provincial Conditions

1. This collecting permit is not valid
 - in national parks,
 - in provincial parks unless a Park Use Permit is also obtained,
 - in tidal waters,
 - for species listed as threatened, endangered or extirpated under the Species at Risk Act (SARA)*,
 - for eulachon or for salmon* other than kokanee, or
 - for collecting fish by angling unless the permittee and crew members possess a valid angling licence.

*Contact the Department of Fisheries and Oceans for fish collecting permits for salmon, eulachon or SARA listed species (see Appendix B). Link to the SARA permit application forms:
http://www.dfo-mpo.gc.ca/species-especes/permits/sarapermits_e.asp.

2. The permittee (or the project supervisor) named on the application for a scientific collection permit will carry a copy of this permit while engaged in fish collecting and produce it upon request of a conservation officer, fisheries officer or constable.
3. Any specimens surplus to scientific requirements and any species not authorized for collection in this permit shall be immediately and carefully released at the point of capture.
4. Fish collected under authority of this permit shall not be used for food or any purpose other than the objectives set out in the approved application for a scientific collection permit. The permittee shall not sell, barter, trade, or give away, or offer to sell, barter, trade or give away fish collected under authority of this permit. Dead fish shall be disposed of in a manner that will not constitute a health hazard, nuisance or a threat to wildlife.
5. No fish collected under authority of this permit shall be
 - transported alive unless authorized by this permit, or
 - transplanted unless separately authorized by the Federal/Provincial Fish Transplant Committee.
6. The permittee shall, within 90 days of the expiry of this permit, submit to the Permit and Authorization Service Bureau a summary report of collecting activities. Interim reports may also be required and shall be submitted as required by the permit issuer. All submissions must be filed electronically to: http://www.env.gov.bc.ca/fish_data_sub/.

Ministry of
Environment

Wildlife Act of British Columbia
**APPLICATION TO COLLECT FISH
FOR SCIENTIFIC PURPOSE**

FW-17

This application is for use by individuals and organizations wishing to collect freshwater fish in British Columbia inland waters.

Please complete all sections of this form. Type or print legibly. Attach additional sheets if needed.

Reporting specifications, information and templates are available from this website and outline the mandatory information requirements. Prior notification of submission or questions regarding data report standards can be made to: mfishdatasub@gov.bc.ca.

7. This collecting permit is subject to cancellation at any time and shall be surrendered to a conservation officer on demand or to the issuer upon written notice of its cancellation.
8. This permit is valid only for the activities approved on the application form and in accordance with any restrictions set out therein.
9. This permit is valid only for trained, qualified staff named in the Application. The permittee will comply with all Workers' Compensation Board requirements and other regulatory requirements. Permit holders are responsible for ensuring staff members listed on the permit are properly certified for specific sampling methods or activities (e.g., electroshocking).
10. All sampling equipment that has been previously used outside of B.C. must be cleaned of mud and dirt and disinfected with 100mg/L chlorine bleach before using in any water course to prevent the spread of fish pathogens (e.g. Whirling disease) and / or invasive plant species. Any washed off dirt or mud must be disposed of in a manner such that it cannot enter a watercourse untreated.
11. No electrofishing is to take place in waters below five degrees C.
12. Electrofishing may not be conducted in the vicinity of spawning gravel, redds, or spawning fish, or around gravels which are capable of supporting eggs or developing embryos of any species of salmonid at a time of year when such eggs or embryos may be present.
13. Permits covering multiple watersheds or extended time periods:
 - a. Are applicable only in the identified regions and for the identified time periods;
 - b. Do not apply to the collection of adult salmonids unless specifically authorized;
 - c. Include electrofishing, minnow trapping and seining techniques only;
14. Angling must only occur in accordance with the regulations specified in the current BC Freshwater Fishing Regulations Synopsis.

Ministry of
Environment

Wildlife Act of British Columbia
**APPLICATION TO COLLECT FISH
FOR SCIENTIFIC PURPOSE**

FW-17

This application is for use by individuals and organizations wishing to collect freshwater fish in British Columbia inland waters.

Please complete all sections of this form. Type or print legibly. Attach additional sheets if needed.

Region Specific Conditions

Region 1 (Vancouver Island)

- There shall be no electrofishing in streams above 630 metres in elevation, in anadromous waters, or in lake tributaries from January 1 to June 30.

Region 2 (Lower Mainland)

- Any fish collection activities taking place in waters known to harbour steelhead trout must have the express approval of the Regional Fish and Wildlife Section Head.
- Electrofishing and minnow trapping can harm or kill non-target species of management concern such as the endangered Coastal Giant Salamander (within the Chilliwack River drainage system) and Pacific Water Shrew (within the lower Fraser River Valley). Any incidental captures (alive or dead) of any red- or blue-listed wildlife species must be reported to the Ministry of Environment, Lower Mainland Region. For further information on these species or to report incidental captures, please call Kym Welstead, Species at Risk Biologist, MOE, Surrey at (604) 582-5200 or by e-mail at Kym.Welstead@gov.bc.ca.
- Please refer to the following website for the least risk in-stream work windows: http://wlapwww.gov.bc.ca/sry/wateract/terms_conditions.html. Where possible, collection should be conducted during the least risk work windows identified. The exception is seasonal or ephemeral streams where sampling may not be possible during the prescribed window due to flow conditions.

Regions 3 and 8 (Thompson/Nicola and Okanagan)

- Please refer to information at: http://wlapwww.gov.bc.ca/sir/fwh/fsh/work_windows/ for the appropriate instream work windows.

Region 4 (Kootenays), 7A (Omineca) and Region 7B (Peace)

- No electrofishing will be permitted between September 15 and June 15 in streams containing bull trout.

Region 7B (Peace)

- The permittee must advise Region 7B (Peace) of sampling activities 48 hours prior to field operations. Please complete the following notification form: http://www.env.gov.bc.ca/pasb/reports/fish/permit_notify7b.html
- Lethal fish sampling for metal analysis to environmental studies must have an approved sampling plan prior to any field work. Discussion should be held with Environmental Impact Biologists:
Bruce Carmichael 250-565-6455 and/or Gabi Matscha 250-565-7103

Please complete all sections of this form. Type or print legibly. Attach additional sheets if needed.

Appendix B
Table 1 - Species at Risk

The following are species at risk that have been listed by the Committee on the Status of Endangered Wildlife in Canada (COSEWIC) as either endangered, threatened or a species of special concern. Species also listed under the Species at Risk Act (SARA) are identified with an asterisk, and are subject to additional permitting requirements through the Federal Department of Fisheries and Oceans (DFO).

Common Name	Scientific Name
Benthic Paxton Lake Stickleback	* <i>Gasterosteus sp.</i>
Benthic Vananda Creek Stickleback	* <i>Gasterosteus sp.</i>
Limnetic Paxton Lake Stickleback	* <i>Gasterosteus sp.</i>
Limnetic Vananda Creek Stickleback	* <i>Gasterosteus sp.</i>
Nooksack Dace	* <i>Rhinichthys sp.</i>
Morrison Creek Lamprey	* <i>Lampetra richardsoni</i>
Vancouver Lamprey (Cowichan Lake Lamprey)	* <i>Lampetra macrostoma</i>
Cultus Pygmy Sculpin	* <i>Cottus sp.</i>
Shorthead Sculpin	* <i>Cottus confusus</i>
Hotwater Physa	* <i>Physella wrighti</i>
Limnetic Enos Lake Stickleback	<i>Gasterosteus sp.</i>
Benthic Enos Lake Stickleback	<i>Gasterosteus sp.</i>
Salish Sucker	<i>Catostomus sp.</i>
Speckled Dace	<i>Rhinichthys osculus</i>
Charlotte Unarmoured Stickleback	<i>Gasterosteus aculeatus</i>
Columbia Mottled Sculpin	<i>Cottus bairdi hubbsi</i>
Giant Stickleback	<i>Gasterosteus sp.</i>
Green Sturgeon	<i>Acipenser medirostris</i>
Umatilla Dace	<i>Rhinichthys umatilla</i>
White Sturgeon	<i>Acipenser transmontanus</i>

Applications for permits to specifically collect and retain listed species must be reviewed by the appropriate Recovery Team, who will screen permits to ensure that any impacts on listed species are acceptable. For white sturgeon the contact is Steve McAdam (steve.mcadam@gov.bc.ca). For listed non-game freshwater fish the contact is Jordan Rosenfeld (jordan.rosenfeld@gov.bc.ca), co-chair of the Non-Game Freshwater Fish Recovery Team.
