

Annual Application for Seasonal Tourist Business Designation

What is a Seasonal Tourist Business?

A seasonal tourist business means a business that is closed for at least four months in the taxation year and is:

- a) a restaurant
- b) a roofed accommodation, or
- c) a camping establishment.

Am I eligible for the Seasonal Tourist Business Designation? What criteria must I meet?

In order to be eligible for the reduced commercial tax rate, property owners must apply and demonstrate that the seasonally operated tourist business meets all of the following criteria:

- It is open during some part of the taxation year but closed for at least four months in the same taxation year (NOTE: the taxation year is from April 1 to March 31);
- It is occupied or used for the sole purpose of
 - A restaurant (not including any part of premises licensed under the Liquor Control Act as a cabaret, tavern, beverage room or lounge);*
 - A roofed accommodation (licensed under the Tourist Accommodations Act, but not including any part of premises licensed under the Liquor Control Act as a cabaret, tavern, beverage room or lounge);*
 - A camping establishment (licensed under the Tourist Accommodations Act, but not including any part of premises licensed under the Liquor Control Act as a cabaret, tavern, beverage room or lounge).*

**For example, if a business is operated as a restaurant during the day and converts to a lounge or nightclub at anytime, it will not be eligible.*
- If the business is not operated by the assessed property owner, it must be operated by their father, mother, brother, sister, son, daughter, grandson, granddaughter or spouse.
- The assessed owner, or the assessed owner's relative as listed above, must also manage the business and own at least 50% of the seasonal tourist business or, in the case of a corporation, hold at least 50% of the voting shares.

If the property on which you operate your seasonal tourist business contains more than one business, the property shall be identified by the kind of business that is that property's main business. That property will not be identified as containing a seasonal tourist business unless the main business is a seasonal tourist business and all of the businesses on the premises are closed for at least four months in the taxation year.
