Re: Updates to forms prescribed pursuant to the *Minor Injury Regulation*

The prescribed forms used for Certified Examiner requests and appointments have been in use since October 1, 2004. Since that time we have received feedback from stakeholders regarding the prescribed forms.

The MI-1 "[Request for Assessment by a Certified Examiner](#)" notice form and the MI-2 "[Application to the Superintendent of Insurance to select a Certified Examiner](#)" form have been updated to include:

- Gender of the claimant;
- Date of Birth of the claimant;
- Name and contact information of the claimant's representative; and
- The claim number.

These updates will ensure that the process of requesting and appointing a Certified Examiner will continue to run smoothly by facilitating an appropriate identification of the claimant and their representative.

The prescribed forms will be effective for motor vehicle accidents occurring on or after January 1, 2008.
