RECONCILIATION OF ADJUSTED GROSS AMOUNTS

Reconciliation of Adjusted Gross Amounts	95
--	----

PREFACE

On November 24, 2004, a restructuring of government ministries was announced. This changed the responsibilities of some ministries, created new ministries and eliminated others. The Estimates information has been restated to reflect this new government structure.

Supplementary Estimates for the General Revenue Fund and the Lottery Fund are presented for the Office of the Chief Electoral Officer and twenty departments of the Government of Alberta. The Legislative Assembly will be asked to appropriate spending authority from these Funds, pursuant to the *Appropriation (Supplementary Supply) Act, 2005*. These Supplementary Estimates reflect the same budgeting methodology as the 2004-05 Estimates which were tabled on March 24, 2004.

These Supplementary Estimates will authorize a \$1,944,494,000 increase in voted Operating Expense and Equipment / Inventory Purchases, a \$102,351,000 increase in voted Capital Investment, and a \$40,000,000 increase in voted Lottery Fund Payments.

These Supplementary Estimates will also authorize the transfer of an amount, not to exceed \$20,000,000, from the Department of Human Resources and Employment to other departments for salary costs.

Interim funding authority was provided by Special Warrant 01/2005 under Order-in-Council 19/2005, pursuant to section 26(1) of the *Financial Administration Act* and section 6(2) of the *Fiscal Responsibility Act*. As required by section 26(5) of the *Financial Administration Act*, the Legislative Assembly will be asked to ratify the interim funding authority provided by the Special Warrant.

Definition of Terms:

Adjusted Gross Amount includes amounts voted in the 2004-05 Estimates, changes in expense authorized by section 24(2) of the *Financial Administration Act* for net budgeting, an encumbrance pursuant to sections 24(3) and 28(4) of the *Financial Administration Act*, and carry-over of 2003-04 unused capital appropriations, pursuant to section 28.1 of the *Financial Administration Act*.

Adjusted Gross Amount has been restated to reflect the government restructuring announced in November 2004. It also reflects reallocations between programs and between Operating Expense and Equipment / Inventory Purchases made since April 1, 2004. A reconciliation of Adjusted Gross Amount by department is presented on page 95.

Net budgeting provides a means of budgeting for goods and services which are subject to variable demand and for which a credit or recovery is received from external or internal sources. The Supplementary Estimates show the total gross amount, credit or recovery, and the net amount for net budgeted initiatives. If, during the fiscal year, expenses and credits or recoveries are both expected to exceed the amount budgeted, Treasury Board may increase the voted authorization pursuant to section 24(2) of the *Financial Administration Act*. If the budgeted credits or recoveries are not realized, the gross expense is managed so that it does not exceed the gross estimate less the shortfall in credits or recoveries, except where noted. These net budgeting provisions also apply to capital investment.
