EXPLANATORY NOTES

SECTION 1 defines terms used in the regulations.

SECTIONS 2 through 5 establish a licensing system for tourism operators and establish the quality incentive program.

Section 4 specifies the fees associated with new license applications. In the case of properties not previously licensed and existing properties which change ownership, a property inspection fee will be charged to cover the costs of inspecting the tourism establishment.

Subsection 4(6) also indicates the fees associated with re-inspections which may be required for inspection approval, based on compliance with these regulations and information gathered during the first inspection.

Section 5 establishes the quality incentive program. The program provides incentives and recognizes accommodation properties which demonstrate and sustain excellence in their facility and are dedicated to the highest standard of cleanliness and state of repair. Inspection of approved participating properties is to be undertaken on a biennial basis at the time of rating evaluations. Participating properties would be assessed a reduced licensing fee (50%) for the year in which an inspection is not carried out.

SECTIONS 6 through 8 provide for registration of guests in tourist accommodations.

SECTIONS 9 through 14 set out water supply requirements.

SECTIONS 15 through 18 provide for sewage systems and garbage disposal.

SECTIONS 19 through 28 set out requirements for management and maintenance of tourism establishments.

SECTIONS 29 through 61 set out requirements for rental units in various tourist accommodations.

SECTION 35 ensures all bathrooms, whether private, semi-private, or public, are cleaned and maintained on a regular basis.

SECTION 40 clarifies the requirements for locks on unit doors.

SECTION 43 requires that every bedroom throughout every accommodation category or unit meets the minimum facility

requirement of 100 square feet. With regard to the accommodation category of cottage, an overall cottage size requirement will not be specified but the bedroom size requirement outlined in these regulations will dictate cottage size.

SUBSECTION 43(6) also establishes an exemption allowing pre-existing units which do not meet the requirements of the regulation to be recommended for licensing when all necessary furniture and bedroom requirements can be accommodated in the space.

SECTION 50 brings the licensing requirements for housekeeping units in line with the industry-led Canada Select Program.

SECTIONS 62 through 77 provide for the regulation of campgrounds and RV parks, and incorporate changes as they relate to the existing Public Health Act Summer Trailer Court, Tenting and Camp Areas Regulations.

SECTION 68 permits tourism operators of campground and tourism establishments to accommodate large groups (i.e. caravans, special events) at their establishment when bathing and washroom facilities are provided in quantities sufficient to meet the regulations.

SECTIONS 78 through 89 provide for the regulation of camping cabins.

SECTIONS 90 through 100 deal with the regulation of trailer rentals.

SECTION 101 prohibits the upward alteration of tourism establishment rates from those advertised for the year during which the rates are advertised.

SECTION 102 provides for the inspection form to be set out as Schedule 3.

SECTION 103 repeals the Tourism Industry Act Regulations currently in force.
