Maritime Electric

IN THE MATTER of the *Maritime Electric Company, Limited Regulation Act*

The terms and conditions upon which Maritime Electric Company, Limited provides service are amended effected March 31, 2000, as follows:

1. The following definition is added to section RSP B-1, Definition of Terms:

Construction Charge: Maritime Electric's total cost of extending its facilities. For standard overhead distribution facilities, the Construction Charge is the estimated cost times the contribution ratio specified under Section O - Extension of Overhead Facilities Charges.

2. The text under the heading Conditions for Overhead Extension is section RSP H-1, headed "Conditions for Overhead Extension" is deleted and the following substituted therefor:

Conditions for Overhead Extension

Maritime Electric makes overhead extensions of its facilities to serve applicants/customers provided the following terms and conditions are met:

- The location to be served must be within a territory where Maritime Electric provides service;
- The applicant/customer and the anticipated usage meet the requirements of all applicable sections of these policies;
- The location to be served must be accessible by on-road vehicles;
- Rights-of-Way on Public Roads as designated by the Prince Edward Island Department of Transportation;
Obtained and cleared at no cost to the applicant/customer. The applicant/customer is not responsible for maintenance;
- All other Rights-of-Way;
The applicant/customer is responsible for supplying and clearing, as well as any costs incurred by Maritime Electric in acquiring easements. If tree and brush clearing is performed by Maritime Electric, the applicant/customer is charged. These charges are nonrefundable;
The applicant/customer is not responsible for maintenance. The customer will permit Maritime Electric to trim trees around facilities as required;
- Maritime Electric requires a written agreement relating to contributions and refunds in compliance with these policies;
- All facilities will be constructed in accordance with Maritime Electric's Engineering Distribution Standards and applicable CSA Standards and will be owned, operated and maintained by Maritime Electric; and

- If Maritime Electric requires space for transformers, switches or other facilities of any kind in order to provide service to the applicant/customer, the applicant/customer will furnish free of charge adequate space for and acceptable access to this equipment. The applicant/customer is restricted from placing permanent structures within this space.

3. The text under the heading Extension of Facilities - Overheads, in Section RSP H-2, is deleted and the following substituted therefor:

Standard Facility Allowance

Standard facility allowances by rate category are specified as follows:

Residential (Urban, Rural and Seasonal):

Maritime Electric supplies at no charge to the customer up to 90 metres of single-phase overhead service and the required transformation and metering for each customer eligible for a Residential Service Rate Category. Measurement of the distance starts from the customer's approved delivery point. Delivery is at a standard service voltage and delivery point as specified in Section K - Connection of Customer Facilities.

General Service and Small Industrial Rate Categories:

Maritime Electric supplies at no charge to the customer the required transformation, metering and up to 90 metres of single-phase or three-phase overhead service. Measurement of the distance starts from the customer's approved delivery point. Delivery is at a Maritime Electric standard service voltage and delivery point as defined in Section K - Connection of Customer Facilities.

RSP H-2 - Extension of Facilities - Overheads

Extensions

Large Industrial:

For Large Industrial customers served from the transmission system refer to Section N - Large Industrial Rate Schedule.

For Large Industrial customers served from the distribution system, Maritime Electric supplies at no charge to the customer primary metering and up to 90 meters of three-phase overhead primary service.

Measurement of the distance starts from the customer's approved delivery point. Delivery is at a Maritime Electric standard service voltage and delivery point as defined in Section K - Connection of Customer Facilities.

4. The text under the heading Extension of Facilities - Overheads and the subheading Extensions in Section RSP H-2 is deleted and the following substituted therefor:

Standard Facility Credit

Customers who request the extension of standard facilities beyond 90 meters are credited with a standard facility credit. This credit is applied toward the construction charges associated with the extension of standard facilities specified below. The standard facility credit is equal to the standard facility distance allowance per customer times the average per meter construction charge of the extension.

5. The text under the heading Extension of Facilities - Overheads and the subheading Extensions and the sub-subheading Construction Charge for Extension of Standard Facilities is deleted and the following substituted therefor:

Construction Charge for Extension of Overhead Facilities

This construction charge is for the extension of overhead facilities and is determined using Maritime Electric's estimated cost times the contribution ratio given in Section O - Fees and Charges, Extension of Overhead Facilities Charges.

For the purpose of calculating the construction charge, the cost of the extension is estimated using the shortest distance over which Maritime Electric can build a line from the customer's approved delivery point to the nearest Maritime Electric facility that forms part of the distribution system, consistent with sound economic and engineering practices. Should Maritime Electric choose a longer route, the customer will not be charged for the additional distance.

An optional facilities charge is applied to a Residential Service Customer requesting three-phase service according to Section J - Optional Facilities, Optional Facilities Charge.

6. The text under the heading Extension of Facilities - Overhead and the subheading Extensions and the sub-subheading Abandoned Facilities in Section RSP H-3 is deleted and the following substituted therefor:

Abandoned Facilities

Maritime Electric facilities which are considered to serve no useful purpose in the foreseeable future are removed. This means the conductor, poles, transformers and all other related equipment are removed and are therefore considered abandoned.

Facilities which have been isolated but left in place are not considered abandoned. A customer contribution is required if the facilities require upgrading for the addition of a new service in order to meet engineering and safety standards. This contribution is equal to the estimated cost of the upgrade times the contribution ratio.

7. The text under the heading Extension of Facilities - Overhead and the subheading Payments and Refunds and the sub-subheadings Refund of Customer Contribution and Distribution Line Extensions in Section RSP H-4 is deleted and the following substituted therefor:

Refund of Customer Contribution

Customers will be entitled to a refund if additional development on the extension takes place within five (5) years from the date the contribution was paid.

Refunds are non-interest bearing and will be made either on the customer's request or by Maritime Electric automatically during the fifth year following the date the contribution was paid.

The total amount of the refund will not exceed the original refundable contribution. Any balance of the contribution that has not been refunded during this five (5) year period is retained by Maritime Electric.

If Maritime Electric utilized the extension for its own operating purposes such as a tieline during this five (5) year period, the total amount of the refundable contribution, less any previous refunds, will be returned.

In order for the customer to be eligible for any refund, a Customer Facility Contribution Refund Agreement must be signed by the customer.

Refunds are calculated as shown in Section O - Fees and Charges, Extension of Overhead Facilities; Refunds.

Distribution Line Extensions:

Extension of a distribution line (750 volts or less) from a section of line upon which a contribution has been paid will entitle the original contributing customer to one (1) refund for each permanent customer added.

Extension of a distribution line (over 750 volts) from a section of line upon which a contribution has been paid will entitle the original contributing customer to one (1) refund per primary extension.

8. The text under the heading Extension of Facilities - Overhead and the subheading Payments and Refunds and the sub-subheading Basis for Removal in Section RSP H-5 is deleted and the following substituted therefor:

Basis for Refunds

The contributing customer will normally receive refunds based on the standard facility distance allowance times the average per meter Construction Charge of the extension. However, if the customer contributed to a three-phase extension and the service added is single-phase, the refund will be adjusted by one-half.

If a customer upgraded from single to three-phase service and contributed based on the addition of two-phases, and a single-phase customer requests service from that section of facilities, then the customer who contributed to the facility is not entitled to a refund.

9. The text under the heading Extension of Facilities - Overhead and the subheading Extension of Transmission Facilities and the sub-subheading Large Industrial is deleted and the following substituted therefor:

Large Industrial

Maritime Electric will extend the transmission system to the customer's substation terminating structure. The customer will provide a guarantee for the total cost of the line. Guarantees may be in the form of cash, letters of guarantee from Chartered Canadian banks or trust companies, bearer bonds guaranteed by either the Government of Canada or the Province of Prince Edward Island, or surety bonds issued by a duly authorized company.

The guarantee is held by Maritime Electric for five (5) years. The amount is reduced in each of the five (5) years by an amount equaling the lesser of:

- 10% of the total of twelve months' paid bills for power and energy; or
- 20% of the initial amount of the guarantee.

If the guarantee is not fully refunded within the first five (5) years, Maritime Electric will demand payment for the remaining amount of the guarantee.

When the deposit is cash, Maritime Electric will refund the deposit as specified above, including interest compounded semi-annually. The interest rate will be the rate prevailing for five (5) year Government of Canada Bonds.

10. The text under the heading Fees and Charges, and the subheading Extension of Overhead Facilities Charges and the sub-subheading Less Than 1.6 km in Section RSP O-3 is dated and the following substituted therefor:

Less Than 1.6 km:

The construction charge is the estimated cost times the contribution ratio of 66%.

11. The text under the heading Fees and Charges and the subheading Extension of Overhead Facilities Charges and the sub-subheading Refunds in Section RSP O-3 is dated and the following substituted therefor:
