**MARITIME ELECTRIC COMPANY LIMITED REGULATION ACT  
TERMS AND CONDITIONS  
AMENDMENTS**

IN THE MATTER of the *Maritime Electric Company Limited Regulation Act*.

The terms and conditions under which Maritime Electric Company, Limited provides service are amended effective October 1, 2000, as follows:

1. Section RSP D-2 under the heading *Provision of Service* is amended by the Addition of the following:

*Accessibility to  
Maritime Electric  
Owned Equipment  
on Customer's  
Premises*

Maritime Electric shall have the right to enter the premises of the customer at all reasonable hours for the purpose of inspecting, meter reading, maintenance or replacement of Maritime Electric facilities or rental equipment and the application of Maritime Electric's rates schedules and policies. The customer's refusal to grant access to personnel to Maritime Electric facilities and rental equipment may result in disconnection of service.

When suitable arrangements cannot be made for the customer's meter to be periodically read at the normal reading time, Maritime Electric may require modifications to the metering facilities. The cost of such modifications shall be borne by the customer.

Only authorized employees and agents of Maritime Electric shall be allowed to make any repairs or adjustments to any meter or other Maritime Electric facilities. The customer shall be held responsible for tampering or interfering with Maritime Electric's meter(s) or other equipment installed on the customer's premises.

2. RSP G-5 Under the heading *Services Available to Customers* is amended by the deletion of the following:

*Highway Traffic  
Counters*

The rate for this service includes 45 metres of overhead conductor if:

- The connected load is five (5) watts or less;
- The counter is owned by the P.E.I. Department of Transportation and Public Works; and
- A 120/240 volt supply is available within 45 metres.

All charges for the extension of Maritime Electric facilities beyond the 45 metre point will be borne by the customer.

3. Section RSP G-5 under the heading *Services Available to Customers* is amended by the deletion of:

*Miscellaneous  
Services*

Applicants will pay all charges for extending service to unmetered and miscellaneous services. Refer to the Unmetered Rate Application Guidelines and the Miscellaneous Rate Schedules in Section N for examples of these services.

Work on Customer Facilities

The Customer may request Maritime Electric to construct, relocate, maintain or remove customer facilities. The customer is charged for this work.

and the substitution therefor of:

*Miscellaneous  
Services*

Applicants will pay all charges for extending service to unmetered and miscellaneous services. Refer to the Unmetered Rate Application Guidelines and the Miscellaneous Rate Schedules in Section N for examples of these services.

With Maritime Electric's approval, the applicant may choose metered service at the

<http://www.gov.pe.ca/royalgazette>

General Service Rate. Applicants will pay all charges for extending Maritime Electric's facilities to these services and are responsible for maintenance and transfer costs of the service entrance equipment.

Work on Customer Facilities

The Customer may request Maritime Electric to construct, relocate, maintain or remove customer facilities. The customer is charged for this work.

4. Section RSP H-1 under the heading *Extension of Facilities - Overhead* is amended by the deletion of:

*Extensions -  
Standard of  
Facilities*

Maritime Electric's standard distribution facilities include:

- Front lot overhead service; and
- Front lot underground service.

All other types of facilities are considered optional.

This policy covers standard facilities for metered customers for front lot overhead extensions. Front lot underground and optional facilities are covered in Section I – Extension of Facilities – Underground and Section J – Optional Facilities.

and the substitution therefor of:

Extensions

*Standard  
Facilities*

Maritime Electric's standard distribution facilities are for front lot overhead service.

All other types of facilities are considered optional.

This policy covers standard facilities for metered customers for front lot overhead extensions. Optional facilities are covered in Section I – Extension of Facilities – Optional Underground and Section J – Optional Facilities.

5. Section RSP H-1 under the heading *Extension of Facilities - Overhead* is amended by the deletion of:

*Conditions for  
Overhead  
Extensions*

Maritime Electric makes overhead extensions of its facilities to serve applicants/customers provided the following terms and conditions are met:

- The location to be served must be within a territory where Maritime Electric provides service;
- The applicant/customer and the anticipated usage meet the requirements of all applicable sections of these policies;
- The location to be served must be accessible by on-road vehicles;
- Rights-of-Way on Public Roads as designated by the Prince Edward Island Department of Transportation; obtained and cleared at no cost to the applicant/customer. The applicant/customer is not responsible for maintenance;
- All other Rights-of-Way;
  - The applicant/customer is responsible for supplying and clearing, as well as any costs incurred by Maritime Electric in acquiring easements. If tree and brush clearing is performed by Maritime Electric, the applicant/customer is charged. These charges are nonrefundable;
  - The applicant/customer is not responsible for maintenance. The customer will permit Maritime Electric to trim trees around facilities as required;
- Maritime Electric requires a written agreement relating to contributions and refunds in compliance with these policies;
- All facilities will be constructed in accordance with Maritime Electric's Engineering Distribution Standards and applicable CSA Standards and will be owned, operated and maintained by Maritime Electric; and
- If Maritime Electric requires space for transformers, switches or other facilities of any kind in order to provide service to the applicant/customer, the applicant/customer will furnish free of charge adequate space for and acceptable

access to this equipment. The applicant/customer is restricted from placing permanent structures within this space.

and the substitution therefor of:

*Conditions for  
Overhead  
Extensions*

Maritime Electric makes overhead extensions of its facilities to serve applicants/customers provided the following terms and conditions are met:

- The location to be served must be within a territory where Maritime Electric provides service;
- The applicant/customer and the anticipated usage meet the requirements of all applicable sections of these policies;
- The location to be served must be accessible by on-road vehicles;
- Rights-of-Way on Public Roads as designated by the Prince Edward Island Department of Transportation; will be obtained and cleared at no cost to the applicant/customer.

The applicant/customer is not responsible for maintenance;

- All other Rights-of-Way;

The applicant/customer is responsible for supplying and clearing, as well as any costs incurred by Maritime Electric in acquiring easements. If tree and brush clearing is performed by Maritime Electric, the applicant/customer is charged. These charges are nonrefundable;

The applicant/customer is not responsible for maintenance. The customer will permit Maritime Electric to trim trees around facilities as required;

- Maritime Electric requires a written agreement relating to contributions and refunds in compliance with these policies;
- All facilities will be constructed in accordance with Maritime Electric's Engineering Distribution Standards and applicable CSA Standards and will be owned, operated and maintained by Maritime Electric; and
- If Maritime Electric requires space for transformers, switches or other facilities of any kind in order to provide service to the applicant/customer, the applicant/customer will furnish free of charge adequate space for and acceptable access to this equipment. The applicant/customer is restricted from placing permanent structures within this space.

6. Section RSP I-1 under the heading *Extension of Facilities - Underground* is amended by the deletion of:

*Standard  
Facilities*

Maritime Electric's standard distribution facilities include:

- Front Lot overhead service; and
- Front lot underground service

All other types of facilities are considered optional.

This policy covers standard facilities for metered customers for front lot underground extensions. Front lot overhead and optional facilities are covered in Section H – Extension of Facilities – Overhead and in Section J – Optional Facilities.

and the substitution therefor of:

*Standard  
Facilities*

Underground extensions to Maritime Electric's existing facilities are considered optional.

This policy covers optional facilities for metered customers for underground extensions. Front lot overhead and other optional facilities are covered in Section H - Extension of Facilities – Overhead and in Section J – Optional Facilities.

7. Section RSP I-1 under the heading *Extension of Facilities - Underground* is amended by the deletion of:

*Conditions for  
Underground  
Extensions*

Maritime Electric makes underground extensions of its facilities to serve applicants/customers provided the following terms and conditions are met:

- The location to be served must be within a territory where Maritime Electric provides service;
- The applicant/customer and the anticipated usage meet the requirements of all applicable sections of these policies;
- Rights-of-Way on Public Roads:  
Obtained and cleared at no cost to the applicant/customer. The applicant/customer is not responsible for maintenance;
- Rights-of-Way Not on Public Roads:  
The applicant/customer is responsible for supplying and clearing, as well as any costs incurred by Maritime Electric in acquiring easements; if tree and brush clearing is performed by Maritime Electric, the applicant/customer is charged. These charges are nonrefundable;  
The applicant/customer is not responsible for maintenance;
- Maritime Electric requires a written agreement relating to contributions in compliance with these policies;
- All facilities will be constructed in accordance with Maritime Electric's Standard Construction Practices, applicable CSA Standards, Provincial Laws, Municipal Bylaws and Regulations, and will be owned, operated and maintained by Maritime Electric;
- If Maritime Electric requires space for transformers, switches or other facilities of any kind in order to provide service to the customer, the customer will furnish free of charge adequate space for and acceptable access to this equipment; and
- The customer is responsible for digging, sanding and backfilling of trenches and all other civil work, including necessary conduits and concrete pads for padmounted equipment and manholes as required by Maritime Electric's Standard Construction Practices, applicable CSA Standards, Provincial Laws, Municipal Bylaws and Regulations.

and the substitution therefor of:

*Conditions for  
Underground  
Extensions*

Maritime Electric makes underground extensions of its facilities to serve applicants/customers provided the following terms and conditions are met:

- The location to be served must be within a territory where Maritime Electric provides service;
- The applicant/customer and the anticipated usage meet the requirements of all applicable sections of these policies;
- The location to be served must be accessible by on-road vehicles;
- Rights-of-Way on Public Roads as designated by the Prince Edward Island Department of Transportation:  
Will be obtained and cleared at no cost to the applicant/customer. The applicant/customer is not responsible for maintenance
- All other Rights-of-Way:  
The applicant/customer is responsible for supplying and clearing, as well as any costs incurred by Maritime Electric in acquiring easements; if tree and brush clearing is performed by Maritime Electric, the applicant/customer is charged. These charges are nonrefundable;  
The applicant/customer is not responsible for maintenance;
- Maritime Electric requires a written agreement relating to contributions in compliance with these policies;
- All facilities will be constructed in accordance with Maritime Electric's Standard Construction Practices, applicable CSA Standards, Provincial Laws, Municipal Bylaws and Regulations, and will be owned, operated and maintained by Maritime Electric;
- If Maritime Electric requires space for transformers, switches or other facilities of any kind in order to provide service to the customer, the customer will furnish free of charge adequate space for and acceptable access to this equipment. The applicant/customer is restricted from placing permanent structures within this space. Maritime Electric determines the location of any padmounted equipment.

- The customer is responsible for digging, sanding and backfilling of trenches and all other civil work, including necessary conduits and concrete pads for padmounted equipment and all other non-electrical infrastructure as required by Maritime Electric's Standard Construction Practices, applicable CSA Standards, Provincial Laws, Municipal Bylaws and Regulations.

Notwithstanding the foregoing, Maritime Electric reserves the right to refuse an underground extension to its facilities for reasons of safety, environmental conditions or sound engineering practice.

8. Section RSP I-2 under the heading *Extensions of Facilities - Underground* is amended by the addition of:

*Optional  
Underground  
Facilities  
Charge*

The optional underground facilities charge recovers the difference in construction costs between what Maritime Electric normally supplies and what the customer requests and is provided. All charges related to optional underground facilities are non-refundable.

The optional underground facilities charge equals the total cost of the facilities less the Maritime Electric investment for the equivalent standard overhead facilities.

The Maritime Electric investment is equal to the total estimated cost of the equivalent standard overhead facilities less any customer contributions towards those facilities.

The optional facility charge includes the incremental cost of padmounted transformation, if required. An exception is when Maritime Electric approves a transformer rated at 500 kVA or greater.

9. Section RSP I-2 under the heading *Extension of Facilities - Underground* is amended by the deletion of:

*Allowance*

When Residential, General Service and Small Industrial Customers install an Underground Secondary Service, they receive a per metre allowance up to a maximum of 90 metres for the Underground Secondary Service. The rates are listed in Section O – Fee and Charges, Extension of Underground Facilities Charges; Allowances.

This allowance is calculated based on the shortest horizontal distance between the customer's approved delivery point location and Maritime Electric's supply device consistent with sound economic and engineering practices.

10. Section RSP I-3 under the heading *Extension of Facilities - Underground* is amended by the deletion of:

*Customer  
Contribution for  
Extension of  
Maritime  
Electric  
Underground  
Facilities*

The Customer Contribution for the extension of Maritime Electric underground facilities is determined by the applicant's choice of Option 1 or Option 2:

Option 1: Maritime Electric Installs the Facilities

Maritime Electric provides the electrical design, electrical installation material (primary and secondary conductor, connectors, transformation and associated protective equipment), and inspection and supervision services required to meet Maritime Electric's Standard Construction Practices, applicable CSA Standards, Provincial Laws, Municipal Bylaws and Regulations.

The customer pays a nonrefundable contribution for the entire line length involved based on the rate specified in Section O – Fees and Charges; Extension of Underground Facilities Charges; Customer Contribution A.

If existing single-phase overhead facilities are being upgraded to three-phase underground facilities, the customer pays a nonrefundable contribution based on the

three-phase rate.

If existing single-phase underground facilities are being upgraded to three-phase underground facilities, the customer pays a nonrefundable contribution based on the two-phase rate.

Option 2: The Customer Installs the Facilities

The customer does not pay a contribution based on Section O – Fees and Charges, Extension of Underground Facilities Charges; Customer Contribution A.

Maritime Electric provides the electrical design, electrical installation material (primary and secondary conductor, connectors, transformation and associated protective equipment), inspection and supervision services required to meet Maritime Electric's Standard Construction Practices, applicable CSA Standards, Provincial Laws, Municipal Bylaws and Regulations.

Under Option 2 the customer is responsible for the transportation, security and storage of electrical materials and for any damage caused to these materials from the time they leave Maritime Electric's site. The customer is responsible for the return of unused material.

When customers select Option 2 installations must be completed by a licensed electrical contractor in accordance with Maritime Electric's Standard Construction Practices, applicable CSA Standards, Provincial Laws, and Municipal Bylaws and Regulations. Installations must be inspected by Maritime Electric to ensure they meet Maritime Electric design requirements.

and the substitution therefor of:

*Installation,  
Design,  
Material and  
Inspection*

Maritime Electric or its contractor installs the facilities.

Maritime Electric provides the electrical design, standard electrical installation material (primary and secondary conductor, connectors, transformation and associated protective equipment), and inspection and supervision services required to meet Maritime Electric's Standard Construction Practices, applicable CSA Standards, Provincial Laws, Municipal Bylaws and Regulations.

When complex conduit systems are specified in the design, customers must have the installation designed by qualified designers and approved by Maritime Electric. The customer must provide as built drawings upon completion of the work and prior to service connection. The customer is responsible for the cost of the design work.

Maritime Electric assumes ownership and responsibility for customer provided equipment that meets Maritime Electric's Standard Construction Practices, applicable CSA Standards and municipal bylaws and regulations, after one year from the date of installation, excluding secondary services and street lighting systems.

11. Section RSP J-1 under the heading *Optional Facilities* is amended by the deletion of:

*Optional  
Facilities*

Optional facilities are facilities required by a Customer that are different from standard distribution facilities which Maritime Electric would normally provide. Examples of optional facilities are:

- Back lot service;
- Residential Service Customers requesting three-phase service; or
- Choice of a route different from that selected by Maritime Electric.

and the substitution therefor of:

*Optional  
Facilities*

Optional facilities are facilities required by a Customer that are different from standard distribution facilities which Maritime Electric would normally provide.

Examples of optional facilities are:

- Underground facilities covered in Section I – Extension of Facilities – Optional Underground;
- Back lot service;
- Residential Service Customers requesting three-phase service; or
- Choice of a route different from that selected by Maritime Electric.

12. Section RSP J-1 under the heading *Optional Facilities* is amended by the deletion of:

*Optional  
Facilities  
Charge*

The optional facilities charge is a nonrefundable contribution to recover the difference in construction costs between what Maritime Electric normally supplies and what the customer requests and is provided.

If a customer requests the use of materials not normally stocked by Maritime Electric, the charges for purchase, installation and maintenance must be borne by the customer; the customer must also retain ownership.

As an exception to this, Maritime Electric will contribute towards the cost of a dry type transformer an amount equal to the charge for an oil filled transformer that would normally have been supplied.

and the substitution therefor of:

*Optional  
Facilities  
Charge*

The optional facilities charge recovers the difference in construction costs between what Maritime Electric normally supplies and what the customer requests and is provided. All charges related to optional facilities are nonrefundable.

The optional facilities charge equals the total cost of the facilities less the Maritime Electric investment for the equivalent standard overhead facilities.

The Maritime Electric investment is equal to the total estimated cost of the equivalent standard overhead facilities less any customer contribution towards those facilities.

If a customer requests the use of materials not normally stocked by Maritime Electric, the charges for purchase, installation and maintenance must be borne by the customer; the customer must also retain ownership.

As an exception to this, Maritime Electric will contribute towards the cost of a dry type transformer an amount equal to the charge for an oil filled transformer that would normally have been supplied.

13. Section RSP J-2 under the heading *Optional Facilities* is amended by the deletion of:

*Nonstandard  
Delivery Point*

Maritime Electric specifies the location of the applicant's delivery point. If an applicant requests Maritime Electric to locate the delivery point at a location other than the one specified, and this results in additional expense for Maritime Electric, the applicant is charged for such non-standard facilities. See Section O - Fees and Charges, Optional Facilities Charges.

This charge is not applicable to premises with factory installed service entrances such as mobile homes.

and the substitution therefor of:

*Nonstandard  
Delivery Point*

Maritime Electric specifies the location of the applicant's delivery point. If an applicant requests Maritime Electric to locate the delivery point at a location other than the one specified, and this results in additional expense for Maritime Electric, the applicant is charged for such non-standard facilities. See Section O - Fees and

Charges, Optional Facilities Charges.

14. Section RSP J-2 under the heading *Optional Facilities* is amended by the deletion of:

*Customer  
Contribution for  
Facilities to  
Non-Fixed  
Premises*

Non-fixed premises are usually found in recreational areas. Examples of non-fixed premises are travel trailers and motorized homes.

- Maritime Electric will provide overhead service up to 45 metres from the nearest operational Maritime Electric facility that forms part of the distribution system.
- If a pole is required, Maritime Electric will set a pole and charge the customer. This pole is a Maritime Electric facility. See Section O - Fees and Charges, Optional Facilities Charges.
- The customer will install service entrance equipment as specified in the Single-Phase Service Entrance Standards issued by the Electrical and Elevator Inspection Branch of the Planning and Inspection Services Division of the Department of Community Affairs and Attorney General of the Province of Prince Edward Island.
- Maritime Electric will make the connection and install the meter. In no case will the Metering Equipment be installed on a main line pole.

All charges for the extension of Maritime Electric's facilities beyond the 45 metre point will be paid by the customer.

If a customer requests an Underground Secondary Service, the customer will supply, install, own and maintain their own Underground Secondary Service. A sufficient length of wire must be provided at the base of Maritime Electric's supply device (e.g., padmounted transformer, pole) to allow connection to Maritime Electric Facilities.

and the substitution therefor of:

*Customer  
Contribution for  
Facilities to  
Non-Fixed  
Premises*

Non-fixed premises are usually found in recreational areas. Examples of non-fixed premises are travel trailers and motorized homes.

Maritime Electric will provide overhead service up to 27 metres from the nearest operational Maritime Electric facility that forms part of the distribution system.

All charges for the overhead extension beyond the 27 meter point will be paid by the customer in accordance with Section H – Extension of Facilities – Overhead, except the standard facility allowance will be reduced to 27 meters.

Pole mounted metering is permitted by Maritime Electric for maypoles (refer to Section K – Connection of Customer Facilities) and non-fixed premises when the following conditions are met:

- If Maritime Electric supplies the pole, Maritime Electric will set it and charge the customer. This pole is a Maritime Electric facility. See Section O - Fees and Charges, Optional Facilities Charges.
- The customer will install service entrance equipment as specified in the Single-Phase Service Entrance Standards issued by the Electrical and Elevator Inspection Branch of the Planning and Inspection Services Division of the Department of Community Affairs and Attorney General of the Province of Prince Edward Island. The customer is responsible for the maintenance and transfer costs of the pole mounted service entrance equipment.
- Maritime Electric will make the connection(s) and install the meter. Metering Equipment or conduit will not be installed on a pole with primary facilities attached, except when primary metering is being used.
- The customer pays the nonstandard service entrance – location charge. See Section O – Fees and Charges, Optional Facilities Charges.

If a customer requests an Underground Secondary Service, the customer must meet

all the requirements of Section I – Extension of Facilities – Optional Underground.

15. Section RSP J-3 under the heading *Optional Facilities* is amended by the deletion of:

*Removal of  
Optional  
Facilities*

If a customer requests that existing facilities be removed, the customer pays a nonrefundable contribution to cover dismantling costs and the sacrificed life value of the assets removed.

and the substitution therefor of:

*Removal of  
Optional  
Facilities*

If a customer requests that existing operational facilities be removed, the customer pays a nonrefundable contribution to cover dismantling costs and the sacrificed life value of the assets removed.

16. Section RSP K-4 under the heading *Connection of Customer Facilities* is amended by the deletion of:

If the maypole subsequently has to be replaced, Maritime Electric must first disconnect the facilities. If the replacement is done for Maritime Electric operating purposes, Maritime Electric assumes responsibility for the transfer of customer facilities to the new pole.

and the substitution therefor of:

If the maypole subsequently has to be replaced, Maritime Electric must first disconnect the facilities. The customer is responsible for the maintenance and transfer costs of the pole mounted service entrance equipment.

17. Section RSP O-3 under the heading *Fees and Charges* and under the subheading *Extension of Over head Facilities Charges* is amended by the deletion of:

Less Than 1.6 km:

The construction charge is the estimated cost times the contribution ratio of 66%.

and the substitution therefor of:

Less Than 1.6 km:

The construction charge is the estimated cost times the contribution ratio of 88%.

18. Section RSP O-4 under the heading *Fees and Charges* is amended by the deletion of the subheading *Extension of Underground Facilities Charge* and of the text that immediately follows that subheading.

October 1, 2000.

**NOTICE OF SALE OF LAND**

Judgment and Execution Act  
R.S.P.E.I. 1988, Cap. J-2

SUPREME COURT OF  
PRINCE EDWARD ISLAND  
TRIAL DIVISION

BETWEEN:

CANADIAN IMPERIAL BANK OF  
COMMERCE

*Judgment Creditor*

AND:

TROY W. GORDON AND MELANIE A.  
GORDON

*Judgment Debtors*

To be sold by public auction in front of the Law Courts Building at 108 Central Street, City of Summerside, in Prince County, in the Province of Prince Edward Island, on Tuesday, the 14th day of November, 2000, at the hour of twelve o'clock noon (12:00 pm) all and singular the lands following, that is to say:

Provincial Property No. 678243  
Lot No. 4, Alberton, Prince County  
Prince Edward Island

The above sale is made pursuant to the powers contained in the *Judgment and Execution Act*, R.S.P.E.I. 1988, Cap. J-2 and by virtue of a judgment having been entered in the Supreme Court of the Province of Prince Edward Island by Canadian Imperial Bank of Commerce against Troy W. Gordon and Melanie A. Gordon on the 19th day of January, 1999, in the amount of Thirty-two thousand five hundred fifty-one dollars (\$32,551.00) debt and Two hundred and seventy-six dollars and sixty-five cents (\$276.65) costs, execution having been issued on the 19th day of January, 1999, levying the amount of Thirty-two thousand eight hundred twenty-seven dollars and sixty-five cents (\$32,827.65).

DATED the 3rd day of October, 2000.

Ron Dowling  
Sheriff for Prince County
