**DFPEI 2007-4**  
**DAIRY FARMERS OF PRINCE EDWARD ISLAND**

ORDER: DFPEI 2007-04  
EFFECTIVE: 1 August 2007

Under the Dairy Farmers of Prince Edward Island Regulations and under the *Natural Products Marketing Act*, R.S.P.E.I. 1988, Cap. N-3, Dairy Farmers of Prince Edward Island makes the following Order:

**Canadian Quality Milk Program Order**

WHEREAS Dairy Farmers of Prince Edward Island began preparation for implementation of the Canadian Quality Milk Program in 2002;

AND WHEREAS administrative and technical support for implementing the Canadian Quality Milk Program has been available to dairy producers in Prince Edward Island since 2002;

AND WHEREAS the Board established 31 July 2007 as the deadline for mandatory validation in the Canadian Quality Milk Program at its regular meeting held on 27 September 2006;

AND WHEREAS the requirement to be validated in the Canadian Quality Milk Program by this date has been communicated to dairy producers in Prince Edward Island by memoranda, newsletters and other communications since 27 September 2006;

Application

1. This order establishes mandatory participation in the Canadian Quality Milk Program as a quality standard for dairy farms in Prince Edward Island.

Definitions

2. The words herein shall have the meanings as found in the Prince Edward Island Natural Products Marketing Act and the Dairy Farmers of Prince Edward Island Regulations under the Act, unless differentiated herein and as hereinafter defined:

(a) "HACCP" – as set out in Hazard Analysis and Critical Control Point System and Guidelines for its Applications: Annex to the Recommended International Code of Practice - General Principles of Food Hygiene (CAC/RCP 1- (1969), Rev. 3 (1997), a hazard analysis critical control point system is science-based and systematic, and identifies specific hazards and measures for their control to ensure the safety of food. HACCP is a tool for assessing hazards and establishing control systems that focus on prevention, rather than rely mainly on end product testing.

(b) "Canadian Quality Milk Program" means a program developed under the auspices of Dairy Farmers of Canada and technically recognized by the Canadian Food Inspection Agency that provides standards for milk production based on HACCP practices.

(c) "CQM" means the Canadian Quality Milk Program.

(d) "Claim Reserve" - is a restricted account that was established to underwrite any product related claims made against the Board.

## Mandatory Program

3. Participation in CQM is a mandatory requirement for dairy producers in Prince Edward Island and they must complete validation in CQM not later than 1 August 2007 or they shall be deemed to be non-compliant with this order.

## Standards

4. All standards for validation in CQM are established in the CQM Reference Manual, which has been available to dairy producers since 2002. Edits to the reference manual are forwarded to producers as they are released.

## Record Keeping

5. All specific forms and documents required for CQM record keeping are contained in the CQM Workbook, copies of which are available from the Board office and are supplied to producers on demand. In any instance where alternate forms of record keeping are desirable, Board personnel shall provide guidance and assistance to ensure the alternate forms of record keeping meet CQM requirements.

## Validation

6. Validation is the process of evaluation to ensure compliance with CQM standards. The validators who perform the evaluation are employed or contracted by the Board, and must complete a specified course of training and on the job experience to be employed in that role. When a producer believes that they have met the CQM requirements, they may request a validation through the Board office. A validator shall be assigned by the Board to perform the validation.

## Failure to Comply

7. A producer who has not completed the CQM requirements or who has not requested or completed validation shall be deemed non-compliant with CQM.

## New Producers

8. New dairy producers shall be granted conditional registration for a period of four months in which to comply with CQM. This period allows the new dairy producer time to: commence operations, establish practices and create documents required for CQM; record three months of operating data as required by CQM; and, complete validation. New dairy producers who have not completed validation by the end of their fourth calendar month of marketing milk shall be deemed non-compliant with this order.

## Levy in Lieu of Compliance

8. CQM establishes on farm practices that are designed to meet the requirements of due diligence for food safety in the production of milk. Failure to comply with CQM increases the risk of compromising the safety of milk while it is in production or under the care and control of the producer. In order to underwrite the risk of legal claims that could arise from such failure of due diligence, DFPEI shall levy any non-compliant producer in the amount of \$0.25 per hectolitre of milk they market. This levy shall increase to \$0.50 per hectolitre effective 1 February 2008. Funds collected through this levy will be credited to the Board's Claim Reserve.

## Commencement

10. This Order comes into force on the first day of August 2007.

DATED at Charlottetown, Prince Edward Island, this 27th day of July 2007.
