

JUPITER XII

❧ SALMON FISHING ❧

The Island... of Treasures

Beached at the entrance to the Gulf of St-Lawrence, Anticosti Island is a different kind of destination. Its abundant wildlife, striking landscapes and exceptional natural environments make it a choice location for connoisseurs seeking an extraordinary adventure. In the middle of this insular world sits a unique estate... the JUPITER XII. For centuries, its river has seduced salmon fishing enthusiasts, and when fall arrives hunters flock to the territory to practise their favourite activity - white-tailed deer hunting. Anticosti fascinates, captivates, and amazes.

The People and The River

If the walls of the Jupiter XII Lodge could talk... More than a century ago, hunters and salmon fishermen trod the soil of this generous natural environment, returning home full of memories and stories to tell.

Since the Menier era, the legend of the Jupiter XII has been fuelled by well-known guests who fell under the spell of this mythical river and a game hunter's paradise. Today, the adventure continues, orchestrated by the master hand of experienced guides who are completely devoted to their hosts. One of them, a faithful employee of the Jupiter XII for over 40 years, is a true inventor of top-quality personalized service. In his honour and for the love he devotes to the river, from this time forward the Jupiter 24 fishing pool will be called the Trefflé Jenniss fishing pool.

The Territory

Stratified cliffs overlook basins whose depths are difficult to estimate since the crystal-clear waters play tricks on perception with dazzling light shows. Painting an ever-changing picture, nature never ceases to fascinate salmon fishing buffs and the guides who accompany them.

EFFICIENT LOGISTICS... FOR A HASSLE-FREE STAY

The Island's airport facilities can accommodate large aircraft thanks to a 1,489 m (4,886 foot) runway for instrument flight. There is also a parking area reserved for private planes. Otherwise, customers arrive on regular or chartered flights from Sept-Îles and Mont-Joli, with connecting commercial flights from Montréal and Québec City. Our agents will be happy to help you make your flight reservation choices. As soon as you arrive at the airport, our guide will welcome you and take care of your luggage and your transportation. Before getting on the road for Jupiter XII, take the time to smell the salt air and savour a delicious meal at Auberge Port-Menier.

Don't worry about your return trip. Our staff will deal with your luggage, and make sure your well-wrapped catches follow you to the continent. Before leaving, visit Boutique Nature or the crafts

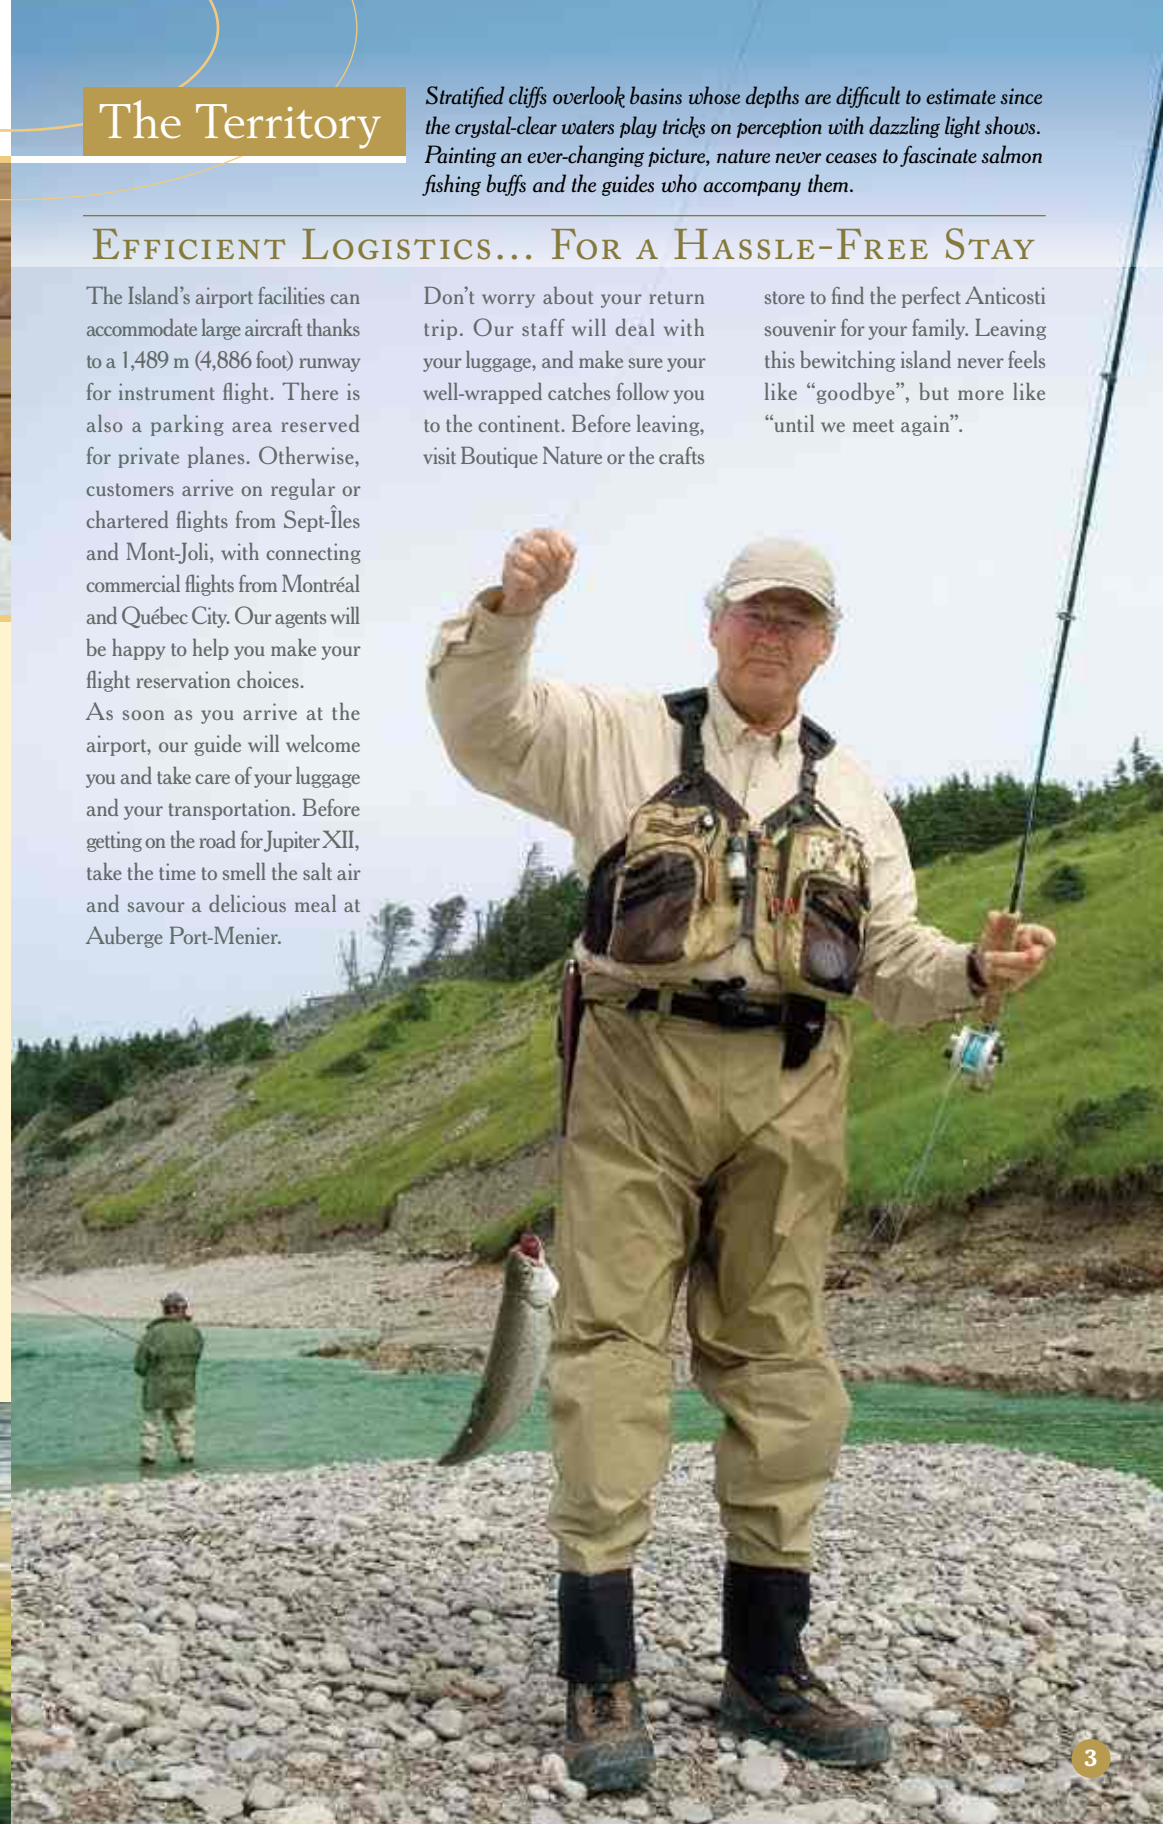

store to find the perfect Anticosti souvenir for your family. Leaving this bewitching island never feels like "goodbye", but more like "until we meet again".

UNTAMED REFINEMENT

In a setting where time takes on another dimension, the welcome and the service are equalled only by the site's beauty. Our guests are treated royally, as reflected in the attention the staff pays to a myriad of special details. This commitment to quality is also at work in the kitchen, where the chef and his team fine-tune delicious meals and select good wines.

Your arrival in this Garden of Eden will no doubt be graced by a visit from a very curious fox or a greedy deer. You will quickly get used to their presence in this breathtaking panorama.

A Rich Tradition

The XII

The lodge is located on an exceptional site 12 miles from the mouth of the Jupiter River, thus its name. Twelve guests occupy six double rooms. Four complete bathrooms and a large cloakroom with a drying rack add to your comfort. The meals are served in the private dining room reserved exclusively for lodge guests. At the end of the day, you can go swap stories at the bar and lounge, complete with a fireplace and comfortable armchairs. The lounge is also equipped with satellite television and a card table.

A Stay

The Jupiter River shimmers along a 50 km route still marked by mileposts, like in the old days. Only eight anglers fish in some thirty fishing pools. A rotation takes place in four sectors, two upstream and two downstream of the lodge. One guide ensures the exceptional quality of the experience for two anglers.

When water levels are high enough, salmon fishing fans can enjoy fishing from canoes. Lunch camps on the banks of the river provide shelter for savouring a hot or cold meal. However, some customers prefer to return to the lodge for a short break before the evening fishing trip.

A PARADISE FOR STALWART FLY FISHERS

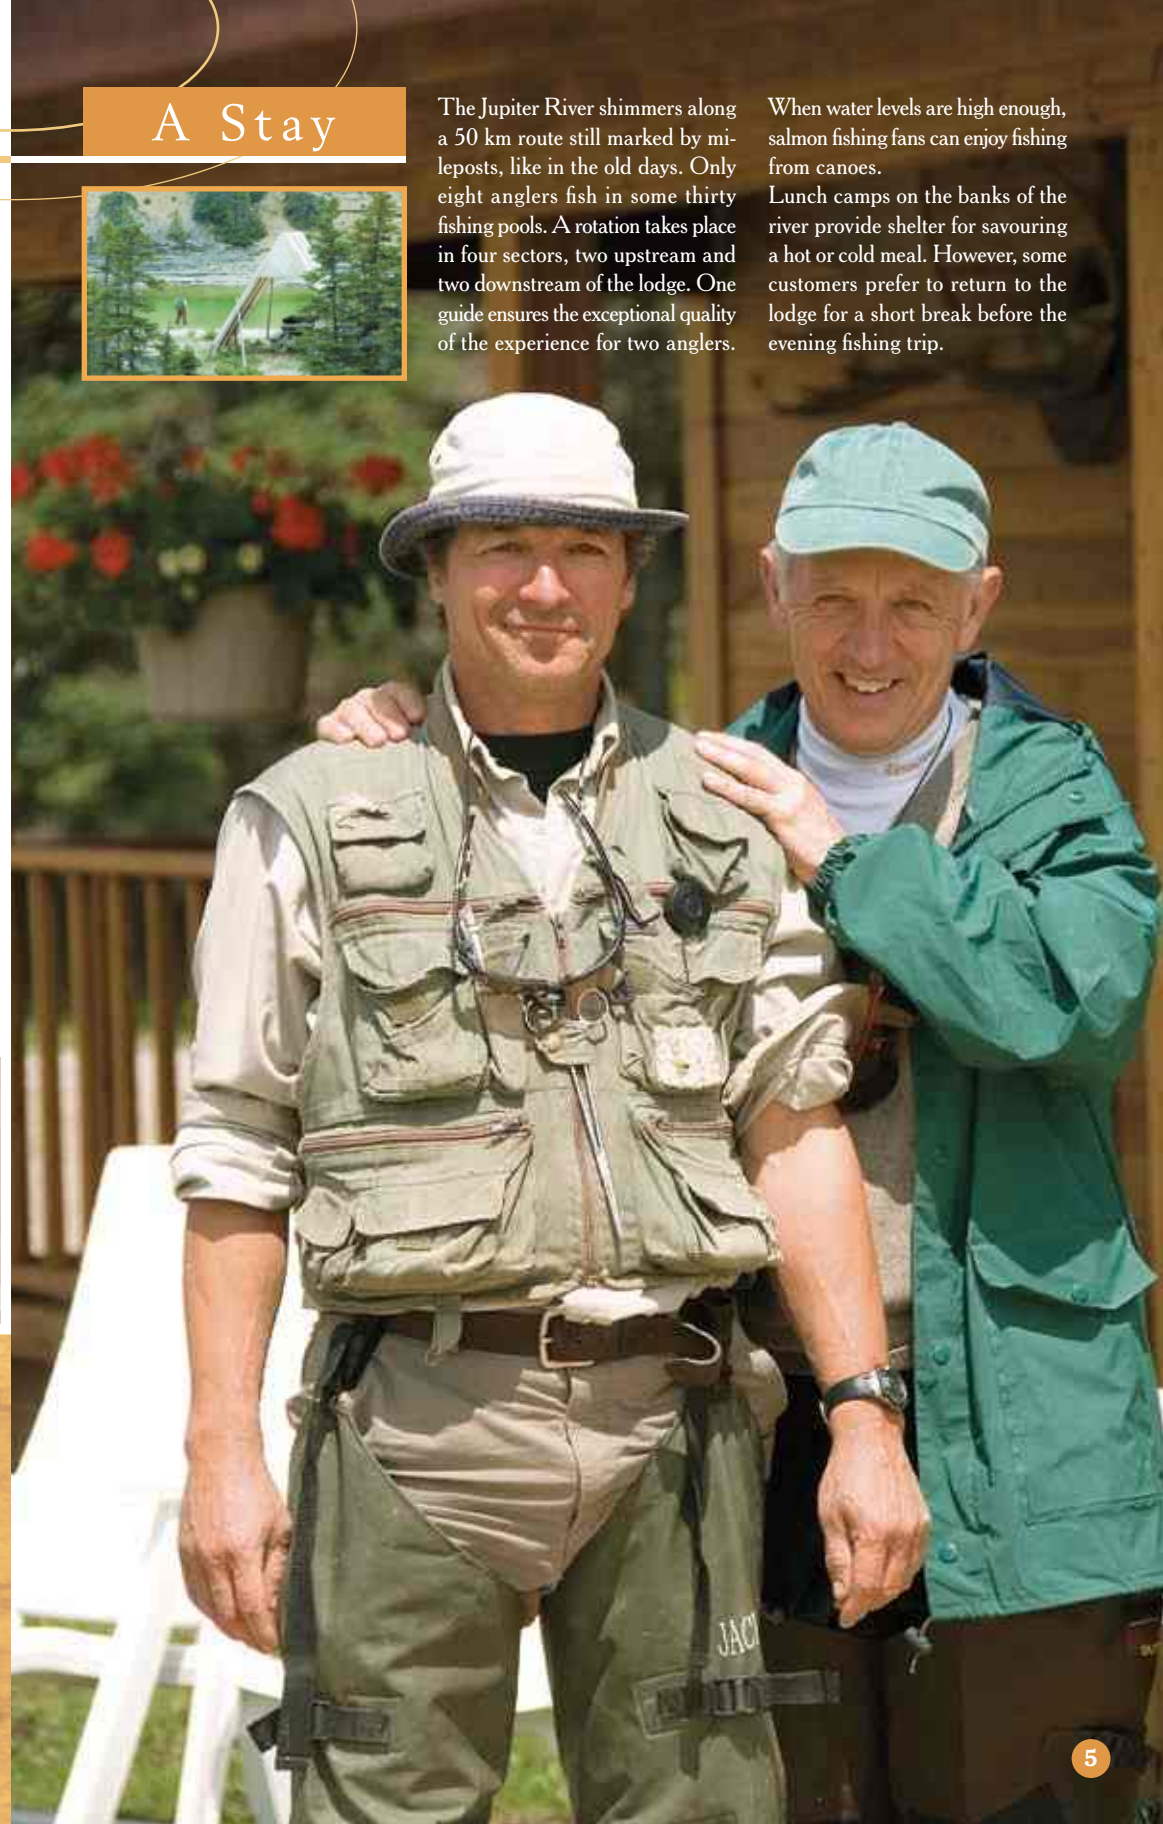

THE MOST OFTEN-USED FLIES: RUSTY RAT, SILVER RAT, SILVER COSSABOOM, PATTERN FLY, BLACK GHOST, MICKEY FINN, BOMBER AND GREEN MACHINE. HOWEVER, THE MOST POPULAR ARE DEFINITELY THE ONES THAT MANON, A JUPITER XII EMPLOYEE, MAKES ESPECIALLY FOR GUESTS, WHO CONSIDER THESE TREASURES THEIR LUCKY CHARMS

THE ROYAL TREATMENT

JUPITER XII IS THE QUINTESSENCE OF CUSTOMER SERVICE. WE WELCOME YOU AS IF YOU WERE THE MASTER OF THE ESTATE. YOU WILL BE LAVISHED WITH A MULTITUDE OF DETAILED ATTENTIONS. THE QUALITY OF SERVICE IS BEYOND COMPARE. THE FAMOUS LODGE OFFERS ALL THE COMFORT ANYONE COULD WISH FOR, ALONG WITH AN EXTRAORDINARY PANORAMA. IN SHORT, EVERYTHING ABOUT IT IS PERFECT!

Natural Complicity

Our guides

The guides, who blend quietly into the landscape and share their advice at just the right moment, have a deep attachment to this river. The feeling of pride and belonging that inhabits them is reflected in the special attention to detail they offer their clients. The head guide, Stanley Doucet, takes meticulous care of the camp's logistics. Like a very classy butler, he gives directions to his staff about each guest's needs and well-being.
