

Minister's Task Force on Safer Streets and Communities

Consultation Questions

1. Please consider the information presented on crime in your region. Is your understanding or experience similar to this information? Yes No

If not, please tell us about the crimes being committed in your community.

2. What do you feel is causing crime in your community?
3. What are your main concerns regarding crime in your community?
4. Tell us about the things you are proud of in your community that are helping to prevent crime and why you think they are working?
5. Can you suggest some other solutions to help make where you live safer, now and in future?
6. What role are you willing to play to help prevent crime in your community?
7. What do you think are the best and most appropriate roles for the provincial government in crime prevention?

Please provide any additional comments or concerns you may have regarding crime prevention.

If you would like to receive a copy of the Task Force's report when it is released, please provide your name and mailing address.

The creation of the Minister's Task force on Safer Streets and Communities represents an opportunity to hear from Nova Scotians and together develop solutions to crime that have their roots in Nova Scotian communities. The purpose of the consultations is to identify programs and actions that are making a positive impact in communities and ways government can support communities in their efforts to prevent crime. The end result will be a provincial crime prevention strategy developed through information gathered by the task force.

Your responses to this questionnaire may be provided to the task force in person at a public meeting, by mail, fax or e-mail as noted below. The deadline for submissions is March 31st, 2007.
