

# Hunting on Anticosti

Within  
your reach!  
2008 Edition

All of our packages allow the harvest of **2 deer** (buck or doe) **per hunter**

 All of our packages include...

**A GUIDE:** Equipped with a crewcab vehicle, mobile radio and an all-terrain vehicle, your guide will pick you up at the airport and take you to your accommodations site. In addition to driving you from the camp to the hunting areas, he will help adjust your equipment and will accompany you in the woods. Familiar with the habits of the Anticosti deer in his territory, he will give you tips on the best hunting method for the weather conditions. He will also transport, dress and box your game for shipping.

**Air Transportation from Mont-Joli**

If your package does not include air transportation, we strongly recommend booking your flight with Sépaq Anticosti when you make your hunting reservation to ensure a seat on the plane. Return airfare: \$450.

**DID YOU KNOW...**

**The ATV Package**

This package was so popular in some cabin territories that it is also offered to hunters staying at the Chicotte Lodge.

**Our Ground Blinds**

For those hunters looking for a bit more comfort and for shelter from the rain, we have set up ground blinds at strategic hunting spots (see photo).

**The Party Hunting**

Now, when members of a group (maximum of six hunters) agree to share their bag limit for white-tailed deer, they can all keep hunting as long as one group member still has at least one white-tailed deer hunting licence with a transportation tag.

## Anticosti Deer

In the absence of predators, the deer on Anticosti is more active during the daytime. In this context, the herd is so prolific that it has one of the highest population densities in North America.

Did you know that their special diet gives the meat a more delicate flavour?

Not only that, their isolation protects them from the diseases and ticks often found elsewhere.

The start of a beautiful day!
