Notes

Population - effective for 1991 & 1996 Census, non-permanent residents included in total population.

1991 Census population - based on 1996 boundaries.

Family - refers to two or more persons living in the same dwelling, related to each other by blood, marriage, common-law or adoption.

Experienced labour force - includes persons who worked since Jan 1, 1995 and who were employed or unemployed during the reference week.

Non-movers - on Census Day were living at the same address as one or five years previous.

Non-migrant movers - lived at a different address but in the same census subdivision (CSD).

Average - or arithmetic mean is calculated by dividing the sum of included categories by the number of included categories.

Median - an alternate measure of 'averageness'. Median income of a specific group is that amount which divides their income size distribution into two halves (below and above the median).

Incidence of low income - the percentage of a specific group below Statistics Canada's low income cut-offs (LICO).
